

# HALT PARLEY FOR WEEK

## COOLIDGE WARNED BY ROGERS NOT TO SNUB HIRAM'S CLAN

(Special To The News)

BEVERLY HILLS, Cal., Feb. 19.—You would have thought it was a presidential year, the hearty welcome California gave to "Cantankerous Calvin" and "Gracious Grace."

And I am certainly going to see that he don't make the mistake of not shaking hands with Hiram Johnson. Or even anything that looks like Hiram.

I haven't seen him myself yet. I am waiting till he gets rid of this mess of Republican politicians who are trying to kid him (fat chance they got). I have some news for him from his friend Morrow in London.

He is not going to make any speeches while here. And so I hereby offer my services to him as pinch hitter on any and all oratorical occasions. The service is gratis, which might be an inducement.

Yours,  
WILL ROGERS.

## PA NEW OBSERVES

Possibilities of establishment of a museum of no small proportions in this city, were displayed yesterday at the exhibit of antiques and relics by club women of the County Federation at the Y. W. C. A. With a nucleus such as the exhibition yesterday from the small part of the citizenship represented, it can be surmised that an immense amount of valuable relics and curios could be collected and displayed if there was some permanent place provided for all valuable antiques and curios that could be provided here.

Yesterday's clear weather accentuated the fact that the days have grown noticeably longer. It was daylight until after six o'clock last evening.

Doctors advise against being too rash these nice warm days and peeling off too much clothing at once. Of course this will not apply to the women, who will now begin adding on a few more.

Tomorrow will be Dollar Day in New Castle and if the weather is anything like today, there should be a vast throng of people downtown.

New Castle police have put a stop to the song sheet "racket" which was being started on the downtown streets of the city.

Another sure sign of spring—the boys are playing marbles at most every street corner.

Now is a good time to stay out of jail. Sheriff Johnston reports that accommodations are not just exactly as plentiful as would be desired by a fastidious guest. He is asking for some additional double deck bunkers for the prisoners that are already there.

The New Castle products show that is to be staged in connection with the auto show next week will be a revelation to the public. Few residents of the city actually know the immensity of the industries of the city, and the display will be an eye opener to many.

Easter Sunday this year falls on the latest date in the past six years. The date this year falls on April 20 the latest since 1924 when Easter was observed on the same day.

The Easter date this year is just the opposite from 1929, when the day fell on March 31, the earliest since 1921. This means that Easter will arrive 20 days later this year than in 1929.

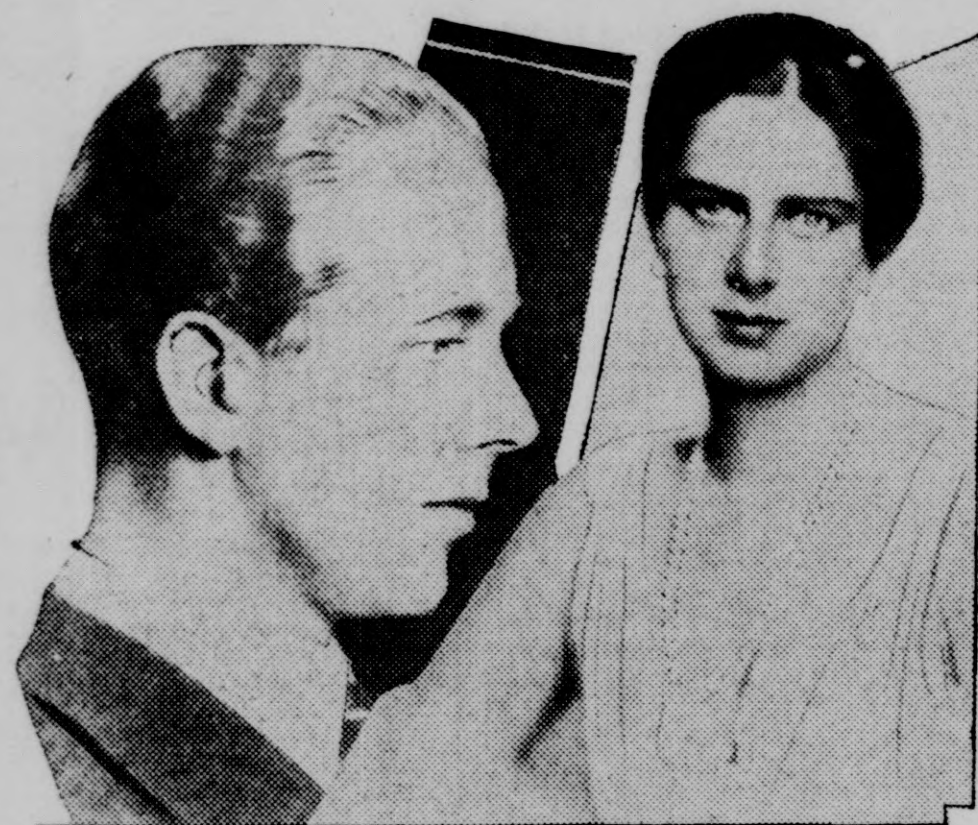

Then next latest day on which Easter will fall is in 1935, when it occurs on April 21.

Lent opens this year on March 5, as compared to 1929 when Ash Wednesday fell on February 13.

## Daily Weather Report

Weather statistics for the 24-hour period ending at 9 o'clock this morning are as follows:  
Maximum temperature, 54.  
Minimum temperature, 30.  
No precipitation.  
River stage 6.8 feet and falling.

Rumors from Bucharest indicate the engagement of Princess Ileana, right, of Roumania, to Count Alexander von Hochberg, left, of Germany, has been terminated. No reasons have been given.

## Tardieu Confers With President

President Doumergue Confers With Ex-Premier Tardieu Concerning Next Move

TARDIEU MAY BE SELECTED AGAIN

By FEDERIC K. ABBOTT, International News Service Staff Correspondent  
PARIS, Feb. 19.—Looking much better after spending several days in bed with a severe cold, Andre Tardieu today conferred with President Gaston Doumergue, presumably to discuss the possibility of his attempting to form a new cabinet.

After a half an hour's consultation with the president, however, M. Tardieu would only admit that he "had only outlined the situation at London for the benefit of the president."

Nevertheless the conference was regarded as significantly indicating that M. Tardieu had been asked whether or not he would be willing to form a cabinet to succeed his old government.

AUTO STOLEN FROM SYCAMORE WAY

A. G. Skunder of R. D. No. 9, reported to the police last night that his Chevrolet sedan Pennsylvania license 995J5 had been stolen from the rear of the New Castle Hardware company store about 7:30 o'clock. It is still missing late today.

## Wide Variety Of Valuable Antiques And Curios In Federation Display At Y. W. On Tuesday

(By JANET KISSINGER)

It is said that anyone who has once been in contact with the germ of antique collecting, never fully recovers.

There are in New Castle today several hundred people whose interest in relics and antiques has been keyed to a high point, after viewing the marvelous exhibit at the Y. W. C. A. Tuesday.

The unique display was shown to the public between the hours of 1 p. m. and 9 p. m., under the auspices of the fine arts department of the Lawrence County Federation of Women's clubs. A constant flow of people ex-

amined the exhibits and, judging from the enthusiastic conversation, interest in old things has been greatly stimulated.

Hundreds of Curios.  
It would take yards and yards of newspaper space to tell of all the interesting objects displayed. Everything was interesting. All of the older exhibits have histories attached to them.

On one table there was a large blown glass sinker, with a net around it, which was used 100 years ago to mark where the nets were lowered along the coast of Gloucester. This

was the property of H. S. Newell. Paul Revere's lantern was displayed thru the courtesy of Mrs. J. D. F. Newell. A heavy mortar brought from Rome, the property of Mrs. Helen Newell, was also of interest.

Mrs. Elizabeth Cubison had on display a candle snuffer—something which many people have never heard of. It was 100 years old. Then there was a coffee mill, used by the great-grandmother of B. E. Sense a century ago, and a Revolutionary canteen, the property of Miss Sara Newell, two snuff boxes, one of which was used for seven generations, exhibited by

Mrs. James T. Ray; a pocketbook from Ireland, in 1785, displayed by Mrs. Edgar E. Seavy, and a lace cap worn by the great-grandmother of Josephine Keast Trester.

Flag Curio.  
On a wall there was a large American flag, which looked quite ordinary—but it had only 45 stars. Beneath this was a sword taken from a rebel prisoner by Chester Judd in the Civil war, exhibited by B. E. Sense. An unusually beautiful piece of quilt drew considerable attention. The

## State Political Cauldron Boiling Down Candidates

Almost Certain To Be Two Candidates For Senate Post—Three For Governorship

VARE CAMP FIRES OPENING VOLLEY

Fail To Disuade William S. Vare From Seeking Vin-dication For Senate Slap

By EDWARD D. SMITHERS, International News Service Staff Correspondent  
HARRISBURG, Feb. 19.—With the Vare-Grundy forces lined up in battle formation, the first shot in the struggle between the two political warriors for honors in the United States Senate, followed on the morning of Feb. 19, when the Philadelphia camp today when the nominating petitions of the Philadelphia organization at the primaries.

Vare's announcement of his avowed intention to vindicate himself in the United States Senate, followed on the heels of an unsuccessful mission of members of Philadelphia's so-called "war-board" who called at the Vare winter home in St. Lucia, Fla., to dissuade the leader from entering the senatorial race.

Brown Is Favored  
Both Secretary of Labor James J. Davis and Francis Shunk Brown, of Philadelphia, have been discussed as running mates for Vare. The Philadelphia organization, according to James M. Hazlett, chairman of the Republican City Committee of Philadelphia, is committed to Brown for governor.

Today will also probably see the petitions of Samuel S. Lewis, state organization favorite for governor and picked by the Grundy-Mellon alliance as Grundy's running mate, placed in circulation.

In the face of all the political maneuvering, Vare and others who file for state officers have until 4 p. m. Monday, April 7, to withdraw their nominating papers. In the seven weeks between today, the first day for circulating of nominating petitions, (Continued On Page Thirteen)

## River Boosters Attend Meeting

Warren Chamber Of Commerce Sponsors Meeting In Interests Of River Improvement

Several members of the New Castle Chamber of Commerce, who are active in the projected improvement of the Beaver, Mahoning, and Shenango rivers, were in Warren, O., last evening, where a meeting was held under the auspices of the Warren Chamber of Commerce.

W. S. Warwick, manager of the industrial development department of the Youngstown Sheet and Tube Co. of Youngstown, and Col. J. P. Leaf of Rochester, who has been identified with river improvement projects for many years, were the principal speakers of the evening.

Representatives were present from Niles, Cortland, Newton Falls, Girard, and Youngstown, O.; Rochester, Beaver Falls, Ellwood City, Greenville, and New Castle, Pa.

Those who were in attendance from this city were: W. J. Offutt, members of the Special Waterways Committee of the Chamber of Commerce; Daniel Woolcock, engineer of the Carnegie Steel Co.; Emanuel "Ekan," president of the Better Business Bureau; and Secretary A. W. Chilton.

## Fear Collapse Of Dwellings

(International News Service)  
CASTLE SHANNON, Pa., Feb. 19.—Families in more than 50 closely grouped little homes here awaited in hourly expectation today for their dwellings to collapse following the folding up of two houses here.

Five families were driven from their homes when earth caved in beneath two two-story brick dwellings. Two homes are pitched at perilous angles and water and gas pipe lines have been snapped off.

The sinking has been ascribed to the abandonment of a section of Mine No. 2 of the Pittsburgh Coal Company, the entrance of which lies north of this town. It is feared the earth settling may spread to a wider area.

## Officers Find Man In Station

Take Two Into Custody As Result Of Discovery This Morning

BELIEVE ATTEMPT MADE AT ROBBERY

Mike Pagley, 816 South Jefferson street, and William Augustine, 810 South Jefferson street, held, the police say, because of their alleged attempt to rob the Sutton Gasoline Service station, Lutton street and South Mill street, were taken into custody about 3:15 a. m. today by Officers Moore and Thomas.

Pagley was found inside the station, the police say, while Augustine and his car were just outside the station, when the officer happened along, while making their rounds.

Both are being held for further investigation and according to the police authorities, it is probable that information will be made against them later in the day.

According to the police authorities, Officers Moore and Thomas were patrolling their beat about 3:15 a. m. and as they came around the corner of the Sutton Service station, Lutton and Mill streets, they happened upon William Augustine, walking towards the front door of the station.

Door Forced Open  
The officers detained Augustine and inaugurated an investigation. They found a tire tool in front of the door of the station. There was evidence that the door had been forced open by inserting the tire tool in alongside the lock.

The door was locked when examined by the officers. On close investigation (Continued On Page Two)

## Nine Lives Taken In Refinery Fire

Inquiry Is Under Way To Determine Cause Of Explosion Yesterday

(International News Service)  
ELIZABETH, N. J., Feb. 19.—Two deaths in hospitals today brought to nine the toll of fatalities resulting from yesterday's explosion in the alcohol experimental plant of the Standard Oil company at Bayway, near here. Fifty-four injured were still in hospitals. Physicians said several could not live.

ELIZABETH, N. J., Feb. 19.—An inquiry was to be opened today to officially determine the cause of an explosion and fire at the Bayway refinery of the Standard Oil company of New Jersey in Linden, in which seven lives were claimed and more than 60 other workers injured.

Explosion of naphtha gas and fire in a huge tank of alcohol were believed to have caused the disaster in the company's alcohol experimental building, which was covered with sheets of liquid flame, yesterday afternoon. Early today three of the critically injured were reported dying, seven others were not expected to recover and many of the injured may be blinded for life, physicians said.

Most of the victims were masons, carpenters and laborers working on a building under construction adjoining the alcohol plant.

## Believe Conald Shielding Third Man In Slaying

Ohio Officials Fail To Get Earl Conald To Talk About Horst Child's Death

COLUMBUS WOMAN IS DRAGGED INTO CASE

Hannah Clings To "Third Confession" Body Buried Near Small Creek

(International News Service)  
WOOSTER, O., Feb. 19.—Belief that Earl Conald is shielding a third man in the killing of Melvin Horst, 4-year-old Orville boy, who disappeared the night of December 27, 1928, was expressed here today.

This statement was made following a secret conference which was attended by Mrs. Maude Sewell of Columbus, close friend of Conald, who was called into the investigation in an attempt to make Conald talk.

Name Is Withheld.  
The report said that Conald blamed another Orville man and alleged that Charles Hannah, who is also being held with Conald, planned the alleged murder and attempted to involve Conald. The name of this Orville man was not made public.

Mrs. Sewell told officials Conald said to look for the body of Melvin in a secret vault in the home of the man he mentioned.

Investigators, however, do not take much stock in the new story which Mrs. Sewell said Conald told her. Prosecutor Marion Graven remarked: "It seems untrue to me."

Conald still refuses to talk to the officials. He has answered, "I don't know" to every question which the officials have flung at him.

Hannah clings desperate to his "third confession", in which he said that the body of Melvin Horst had been taken from the temporary grave in the rear yard of what was then his home at Orville and was re-buried near a bridge along Sugar creek, several miles from the town. Conald, Hannah declared, made the removal and the second burial.

## Commander Byrd Breaking Camp

Rear Admiral Byrd Breaks Camp In Antarctic, Will Start Home Immediately

STEAMER NEARS LITTLE AMERICA

(International News Service)  
NEW YORK, Feb. 19.—Rear Admiral Richard E. Byrd and his Antarctic expedition will start on the way back to the United States this afternoon, the New York Times and newspapers affiliated with the Times in publishing reports of the expedition announced today.

The Bark, The City of New York was reported by the Times as within sight of the Bay of Whales at midnight last night, and is expected to tie up to the ice barrier near Little America, the Byrd camp, early today.

The camp had already been dismantled and Byrd and his men expect to start on their homeward voyage this afternoon.

J. Lee Clarke of South Ray street, underwent an operation today at the New Castle hospital for the removal of his adenoids and tonsils. He is reported to be doing as well as could be expected.

Mrs. Fred W. Eakin of 406 Centennial street, is the guest of relatives in Cleveland, Ohio.

## Graf Zeppelin To Make New Flight

(International News Service)  
NEW YORK, Feb. 19.—The Graf Zeppelin will start on a flight to South America early next May and will visit Lakehurst, N. J., about three weeks later. F. W. von Meisler, special representative of the Zeppelin company, announced today.

The Graf will fly from Germany to Rio De Janeiro via Spain and Penambuco and from South America will proceed direct to Lakehurst.

Designs are being completed in Germany for a bigger and faster Zeppelin than the Graf, the company's agent said.

## Enraged Husband Kills His Wife, Wounds Himself

Chicago Husband Meets Wife Wheeling Babies On Street, Starts Shooting

WERE ESTRANGED IS REPORTED

(International News Service)  
CHICAGO, Feb. 19.—An enraged husband shot and killed his wife as she was wheeling two of her small children on the street here today and then inflicted a probably fatal bullet wound in himself.

The woman, Mrs. Mary Delatowski, 27, was killed instantly with a bullet in her heart. The husband, John, 35, shot himself near the heart and was reported dying. The babies were uninjured.

Delatowski accused his wife, who was estranged from him, of going with other men and a bitter quarrel followed when she refused to return to live with him.

When the man met his wife on the street, witnesses said, he whipped out a revolver and fired without warning.

## Funeral Commotion As Widows Look At Bodies Of Strangers

Chicago Undertaker Makes Grave Mistake—Send Bodies Of Vets To Wrong Homes

(International News Service)  
CHICAGO, Feb. 19.—By a whimsical trick of fate, the bodies of two world war veterans, who succumbed to battle wounds after eleven years, were being exchanged today by two towns six hundred miles apart. An undertaker had mistaken the bodies and sent them to the wrong towns for burial.

In Murphysboro, Ill., members of the American Legion had gathered to bestow the last rites upon their comrade, William E. Wagner, 40, who died in Edward Hines Jr. Memorial hospital here.

In Urichsville, Ohio, another group paid homage to John W. Phillips at a burial ceremony. He also died in the government hospital here.

Both widows, looking upon the open caskets faintly upon seeing the face of a stranger. Services were thrown into confusion. Quiet was restored and an investigation launched.

It was learned that a Chicago undertaker, to whom the bodies had been sent, dispatched the body of Wagner to Ohio and that of Phillips to Murphysboro.

## France's Change In Government Affects Parley

Postponement Of Week Is Made In Hope New Cabinet Will Be Ready

NO PROGRESS SINCE FALL OF TARDIEU

Expect French Delegates To Return To Conference By Next Wednesday

By HARRY R. FLORY, International News Service Staff Correspondent

LONDON, Feb. 19.—Crippled by the absence of France from the negotiations, the five-power naval disarmament conference was adjourned this afternoon for one week.

The parley was put over until next Wednesday in the hope that by that time France will have chosen a new government to succeed that of M. Andre Tardieu, and be able to send her delegates back to continue their work at the disarmament conference.

The conference had been virtually at a stand-still since M. Tardieu was forced out of office Monday by his opponents in the French Chamber of Deputies.

Decision to adjourn the conference was reached following conversations between the chief delegates of the United States, Great Britain, Italy and Japan, which have been left to carry on the work of the parley in the absence of the French delegates. It was decided that no forward steps could be taken with one of the powers completely out of the picture, particularly as the disarmament negotiations in their present stage hinge entirely upon the tonnage demands of France.

The adjournment decision came a short while after Dino Grandi, Italian foreign minister and chief of his country's delegation, had handed to newspaper correspondents copies of a memorandum setting forth the Italian program for disarmament.

"There is nothing new in this document," he said. "Italy maintains the principles stated at the very beginning of the conference."

These principles, the memorandum set forth, are reduction of naval armaments and the right of Italy to maintain armaments level with and not exceeded by those of any European continent power.

## May Fill Police Vacancies Soon

It would not be surprising were Mayor William Gillespie to ask the local civil service board to furnish a list of eligible policemen for action soon by city council. The department quota is two below normal. Traffic has been heavier during the past few days since the weather broke and the department has been troubled by petty robberies.

## Spring's Proximity Betokens Seed, Grass

It won't be long now until Superintendent Genkinger of the department of parks and grounds gives attention to the various parks of the city and the planting of seed and flowers. It is probable that he will discuss such plans with other councilmen next week.

Arthur Mometer  
It may appear to be spring my dear, and the robins may sing in the trees, but don't get fresh as this weather breaks, for didn't I hear a sneeze. It may appear to be spring my dear, and the buds may begin to burst, but you won't be foolish enough I hope to toss off your heaves I trust. For weather like this is a wily snare and never a chance should you take, for the drafts will get you in knee and hip and your delicate bones will ache. It may appear to be spring my dear, but allow me I beg to say, that the winter will play us another song, it's warm, fifty-eight today.

## Senate Leaders Trying To Get Tariff Action

Senate Leaders Smarting Under Hoover's Whip To Speed Up —Seek Action Today

(International News Service) WASHINGTON, Feb. 19.—Senate leaders heading the request of President Hoover to speed up action on the tariff bill today took up the schedules on agriculture.

This attempt to expedite the long-hanging bill and pass it along to conference is nothing new. For weeks the leaders have tried to make progress but each time have met defeat at the hands of the insurgent-coalition.

President Hoover, calling together the Republican leaders of both the senate and house, has warned them unless the way is cleared in the senate for appropriation bills the government may find itself "broke" by the middle of March when payment of current expenses is due.

## William Farnum Back In Alimony, Forfeits Home

(International News Service) LOS ANGELES, Cal., Feb. 19.—Failure of William Farnum, actor, to pay his wife temporary alimony of \$100 a week today had resulted in a receivership being appointed for his Hollywood property, valued at \$100,000.

Counsel for Farnum declared the alimony had not been paid because the actor was not working. Farnum was sued several months ago by his wife for separate maintenance. The case was continued until May. His wife charged the actor had been indiscreet with another woman on a transcontinental train.

## Skating Craze Sweeps London

(International News Service) LONDON, Feb. 19.—Londoners have suddenly gone mad over indoor roller and ice-skating. For no apparent reason a craze for this mode of exercise is sweeping London and so great is the demand for more rinks that dance-halls are being utilized.

Not for twenty years have the ranks experienced such a boom. Night after night the rinks are packed to capacity and so great has been the rush on Sundays that all rinks have now formed Sunday clubs in order to limit the skaters to members only.

One club admitted 2,500 people in one day and all the clubs report an increase of 100 per cent in business over previous years.

St. John's Council Members of the Brotherhood council of the St. John's Evangelical Lutheran church met at the church last night for their customary monthly meeting.

Rev. F. E. Stough, pastor of the church presided. William Cocher was a speaker, taking "Personal Evangelism," as his theme.

## Decision Affects Plumbing Board

Best Interests Of City Are Served By Having Board Here Says White

Solicitor Robert White today said that while Judge David W. Henderson has handed down a decision that Third class cities are not compelled to name a plumbing board and inspector he believes that it is to the best interest of New Castle to have at least an inspector.

He said that were the position abolished it would result in inferior plumbing. The inspector here is Ed. Stevens and a board consisting of three plumbers recently was named by council.

The decision was brought about at Connellsville, Pa., when the late District Attorney N. W. Rosenberg started action against Mayor Luther S. Crawford to force such appointments. The court ruled that a later act counteracted the mandatory clause and made the appointments optional. At the present time Inspector Stevenson is in the south and Roy Haines is acting as inspector.

## WELL BABY CLINICS TO BE HELD THURSDAY

Thursday under the auspices of the Lawrence County Tuberculosis Society two Well Baby Clinics will be held. In the morning, the clinic at the New Castle Dry Goods building between the hours of 10 and 12 o'clock, will be in charge of Dr. William Wallace, with Mrs. Bertha Smith, Miss Sara Burkhardt and Miss Jeanne Ferguson, nurses, assisting.

The weekly clinic for colored babies of the city will be held in the Elm street Y. W. C. A. in the afternoon, between the hours of 2 and 4 o'clock, with Dr. George Garnett in charge.

## OFFICERS FIND MAN IN STATION

(Continued From Page One)

tion, they determined that there was a man hiding inside the place. The demanded of the man inside that he open the door and when he did not do so, they forced open the door and found Mike Pagley lying behind the counter inside the place. They placed him under arrest.

Find Cigarettes On investigation of the front part of the car of William Augustine, they found three partially filled cartons of different brands of cigarettes.

These were later identified, the police says, by Jesse Jenkins, manager of the Sutton station in the city, as having been taken from the show case in the station.

The car was taken to the police patrol barn and the back part of the machine searched. In it were a number of articles which came from a well known local store. Augustine, however, claims that this is his personal property.

The police have been questioning both young men and have secured some statements from them, but have as yet declined to say other, than that it is probable that informations will be made against these young men some time later.

Discover Another Robbery As Officers H. J. Young, Moore and Thomas were on their way back to the South Side, they went by way of the Sutton station on West Washington street at Atlantic avenue.

They made the discovery that this place had been broken into, but that evidently, the thieves in this case, had been frightened away before they had accomplished their object.

Entrance had been effected by breaking a corner of the front door glass out, after which the thieves had reached in and unlocked the door. The place had been most thoroughly ransacked, the thieves evidently being in search of money, which they evidently expected to find there.

Several cartons of cigarettes, which had been placed in a candy bucket, were found just as left by the thieves, who evidently planned to take with them after completing the search for money. They had left it there, however, when evidently frightened away. The authorities are conducting a thorough search and investigation on this as well as the other case.

## STAR LORE

THE FEBRUARY EVENING SKY

By Arthur DeV. Carpenter

Along the belt of the Zodiac (animal belt) of the evening sky this month, beginning at the far west and tracing eastward, are Aries, Taurus, Gemini, Cancer and Leo. These take us over the dome of the heavens and to the east. Till one becomes familiar with these conspicuous constellations, a simple star chart like Barton's Guide to the Constellations, is needed. Gemini is nearly overhead, distinguished by two bright stars marking the heads of the Twins. The brightest is Polux; the other is Castor. Orion, the most magnificent of all the constellations, is a little to the west of the meridian. Sirius, the "Dog Star", brightest star in the sky, is south on meridian.

Mrs. Rose Respass

Mrs. Rose Respass, wife of Solomon Respass, 4 Friendship street, died at 7:37 this morning in the hospital following a lengthy illness.

She was born in Crawford, Ga., the daughter of Jerry and Louise White, and had lived in New Castle the past six years.

She is survived by her husband and three children, Bessie, Hattie and Thomas, at home. She was a member of St. Paul's Baptist church. Funeral arrangements have not been completed.

John W. Mitchell

John W. Mitchell, aged 77 years, of New Galilee, died at the home of his daughter, Mrs. W. K. Davis, Darlington, on Tuesday afternoon at 1:45 o'clock, following a week's illness of pneumonia. Mr. Mitchell was visiting his daughter when he contracted a bad cold that developed into pneumonia and resulted in his death.

The deceased was born in South Beaver township, Beaver county, a son of the late Samuel and Mary Mitchell. At 18 years of age he became engaged in the blacksmith trade and some time later entered the undertaking business. He retired from this shortly after however and for the past 25 years has been active in his former occupation as a blacksmith. Only two years ago Mr. and Mrs. Mitchell, the latter who was the former Mary B. Funkhouser, celebrated their 50th wedding anniversary.

Mr. Mitchell was a member of the Reformed Presbyterian church of New Galilee, having served the congregation in a deacon's capacity for the past 30 years. Surviving him are his wife and three daughters, Mrs. W. K. Davis, Darlington; Mrs. H. A. Davis, East Palestine and Mrs. R. C. Flowers, New Galilee. There are five grandchildren who also survive.

Funeral services will be held from the late home in New Galilee Thursday at 2 p. m., with the Rev. Reed, pastor of the New Galilee Reformed Presbyterian church officiating. Interment will be made in the Reformed Presbyterian church cemetery nearby.

## Pennsylvania Gets 8,518 Aliens In Year, Record Show

Many Newcomers From Foreign Lands Take Up Residence In State

By ARTHUR C. WIMER Special Washington News Correspondent WASHINGTON, D. C., Feb. 19.—

The population of Pennsylvania during the last half of 1929, was increased by 8,518 through the admission into this country of that number of alien immigrants under the expressed intention of establishing permanent residence in the Keystone state, according to figures made public by Harry E. Hull, commissioner general of immigration.

During the same six-month period, a total of 233 alien emigrants who had been living in Pennsylvania departed the country, the report reveals.

Only four other states in the country received a greater number of alien immigrants in the last six months of 1929 than did Pennsylvania, New York ranking first in the number of immigrants, Michigan second, Massachusetts third, California fourth and Pennsylvania fifth.

### FOR A MARINE

PROBABLY no other single act could do as much for the prestige of American shipping as acceptance of the offer of the United States Lines to build two super-liners with the aid of a government loan as authorized by the Jones-White law. The only thing that can now delay the laying of these great keels is the withholding of the grants and the involvement in red tape of the mail contracts which justify the operation of the proposed vessels.

A weekly service of express liners, equal to the best in the world, under the American flag in the North Atlantic would go far in making the nation ship-minded. While it is upon cargo trade that a great merchant exists, the conspicuous giants of the passenger service enlist public interest.

If the United States is ever to have a merchant marine worthy of it, it cannot stop with the gains made during and since the war. Without steady progress there must be retrogression, and it is easier to build upon a good foundation, such as now exists, than upon no foundation at all.

Let there be no unnecessary delays in acceptance of this offer and no further postponements of other merchant marine legislation now pending, if the nation is really sincere in its profession of marine-mindedness.

### BEAUTIFY PENNSYLVANIA HIGHWAYS

With opening of the spring and summer touring season just around the corner the Pennsylvania Motor Federation today suggested that communities and civic organizations throughout the state consider and, if possible, carry out a plan of roadside development to supplement construction of highways.

"Pennsylvania has spent and is spending millions of dollars for the construction of fine roads," said S. Edward Gable, president of the federation. "In connection with this there should be in each community a more or less definite program of tree planting, landscaping and roadside care which, when completed, not only will make the roads in that section more pleasing to the eye, but will give the traveler a much better impression of that community than he could get from sun-baked, wind-swept stretches of concrete winding through a bare and comparatively treeless countryside. Of course Pennsylvania has, for the most part, a countryside of rare natural beauty, but in each and every community there are stretches of highway much in need of roadside landscaping.

"This development need not, and in many cases should not, take the form of rows of trees planted at regular intervals. The spacing and arrangement usually should be irregular in rural districts, conforming as much as possible with the natural surroundings. In fact the possibilities of roadside beautification are practically unlimited and, if handled by community enterprise in co-operation with the proper authorities, can be worked out without burdensome expense."

Mr. Gable cited as an example a move that is under way in York county to enhance the natural beauty of the Lincoln Highway in that section. An organization of women in that community is making plans to plant white rose bushes along the roadside, that flower being the emblem of the ancient English house of York, after which that Pennsylvania city and county were named.

"In other parts of the state women's clubs, motorist organizations and public-spirited individuals are taking up this matter of roadside beautification, realizing that it goes hand in hand with the construction of new highways," the federation president said. "Encouragement from this source, as well as from the State Highway Department, ought to stimulate the kind of effort that finally will make the main highways more attractive and thereby, not only make them more pleasing to the eye, but will enlarge the returns upon the investment in these important public improvements."

### THEIR RESPONSIBILITY TOWARD DRY LAW

We have no idea that the prohibition amendment to the constitution of the United States will ever be repealed. It was a step in the right direction.

The disposition of the required number of states to place it in the federation's organic law was a strong step toward national betterment. There is little thought of accomplishing its repeal anywhere except among a company of men and women who are out of sympathy with a majority of the American people.

It is a very much unexpected state of affairs that has come to pass. The great bulk of our better class people are strongly favorable to the enlargement and continuance of the policy of prohibition. They are surprised and disappointed by the appearance of a class of folks in the country who are seemingly indifferent to anything save their own pleasure. They have greatly erred, as is shown by their conduct.

In the days of license the saloon was a potent force for evil. It created drunkards by the thousand. It robbed the home of the drunkard of every comfort and was unremitting in the effort to maintain the record of \$60,000 dead drunkards each passing year. But eventually public indignation wiped out the state protected saloon. Nobody dreamed that society leaders would set their vicious example of disobedience to law.

Today the most potent ally of the liquor crime in our country is high society. Its leaders have set the example of lawlessness. They have made open efforts to show their contempt for the law prohibiting the manufacture and sale of intoxicants. Herein society has shown its weakness, its thoughtlessness, its indifference to the results of its criminal conduct. The women of America should resent the effort to enroll them in the ranks of law-breakers. They should loyally obey every one of their country's laws every day of the year. Those who flout their disloyalty in the face of the law are helpers of the worst criminal class in the country.

Isn't it about time for the society leaders of the country to realize that they are setting a very vicious example to the young by cocktails and their criminal contempt of law?—Beaver Falls Tribune.

Some of the so-called million dollar moving pictures would be more interesting if they merely photographed the million dollars.

The orator always pictures the public as the biggest member, the cartoonist the smallest at the table. Which is closest to the truth?

One reason why it is ungentlemanly to refer to the earth as "she" is because scientists estimate it to be from one to 10 billion years old.

Mrs. Newlywed—My dear, it's terrible. This month I've had to put in two mistakes to make mine balance.

Representation by districts enables the rural section to control the city.

Maybe that's why farmers get rich at the expense of big-town manufacturers.

The Answer Is Yes.  
Religion Dead? Not Yet.  
Russia And Ford's Family.  
The Civilized Jungle.

By ARTHUR G. BRISBANE  
(Copyright, 1930, King Features  
Syn. Inc.)

Is business improving, after the "gamblers' scare" that disturbed Wall street?

Answer, YES.  
On a trip from California to New York recently, the atmosphere was cheerful all the way.

In the Hart, Schaffner and Marx main office in Chicago, M. W. Cresap talks to customers himself, discussing business conditions with Arthur Phillips, vice president of the M. M. Conn company, Little Rock, Arkansas.

Mr. Phillips was ordering plenty of goods.

Mr. Cresap said business temporarily disturbed in September, was recovering all over the country, from his home town, Rochester, Minn., all the way to Seattle on one side of the continent, to Key West, Florida, on the other.

His business reaches every community in the United States.

In New York, J. L. Laun of S. W. Straus & Co., said: "Demands for good real estate bonds are more active than they have been in a long time. We are in the market for high-grade loans, and plenty of them."

Bishop Manning agrees with the pope's suggestion that Christians all over the world should pray for Russia and especially for kinder treatment by the Russian government of the Christian churches.

The Episcopal church of America will pray earnestly in accordance with the pope's suggestion.

Russia's government shows no signs of having been softened or having been influenced by prayer. Monday in Chita, Siberia, ten thousand Bolshevik workmen paraded in the streets with anti-religious banners, Soviet armies closed every church, synagogue and shrine in Chita. All of them will be converted into schools and "cultural" institutions.

Chita held a torchlight procession to celebrate "the death of religion." They will find, however, that religion will outlast their torchlight procession, closed every church, synagogue and shrine in Chita. All of them will be converted into schools and "cultural" institutions.

"If there had not been a God it would have been necessary to invent one," is one of the best things Voltaire ever said, and absolutely true.

Meanwhile, business men in Europe and those that are intelligent in the United States are not worrying about Russia's treatment of religion. They are too much worried about other things. They discover to their horror that Russia is already beginning to understand other countries in the world's markets. "Success in socialization drives would permit Soviet to understand capitalists," is a collection of words that doesn't please the capitalists.

England, France, Germany are worried about the competition in the nation in which everything goes to the working people, or to the government, no provision being made for MILLION or BILLION fortunes for private individuals.

The Russian government is something like the Henry Ford family. The small Ford car earns enough to feed Henry Ford and Mrs. Ford and Edsel Ford and the grandchildren. That's all that is necessary.

No stockholders, crying for dividends, are able to criticize the results.

In the long run, of course, Russia will not set up any industrial working man's Utopia. Theories are good, but human selfishness is powerful.

A man of power will come along, as he did in the person of Napoleon after the French revolution, and establish a reign of selfishness and individual effort.

That's the best system that men have found so far. They may change from selfish competition to altruistic emulation later, but that's a long way off.

If you find one wild animal torn to pieces by another, in the forest or the jungle, you don't ask questions. They are wild animals and actually they kill each other.

When the police find one wild human being torn or beaten by others in the jungle that we call "a great civilized city," they are not surprised.

New York, competing with Chicago in gang killings, found James Timperley in a Brooklyn snowdrift Monday, bullets in his forehead, one in his stomach. An ex-convict and gangster, the police said he had been "taken for a ride." After they killed him, his brother gangsters piled snow on his body. They rarely take so much trouble.

While New York collects its gang-busters (Continued On Page Six)

#### AT THE GATE

"Heigho!" said a soul at the pearly door.  
Now where are the notions I held before  
On the good old earth  
Of that body's worth  
And what was proper and meet to do  
And where are the truths that I thought I know?

"Look at the crowds of them drawing nigh;  
All of them spirits as meek as I!  
And will you look  
At the roads they took  
Winding, narrow, and curved and straight  
And all of them here at the pearly gate!

"By earthly reason I'd never have said  
These would rank with the honored dead.  
I'd never have thought  
From the way they fought,  
Quarreled and battled for fame and place  
They'd ever have won to the good Lord's grace."

"I've lost my notions, and that seems strange!  
Can death so quickly a mortal change?  
Have I ceased to boast  
What I treasured most?  
Can it be that I've banished all sense of pride,  
And learned new values because I've died?"

"Nobody talks of his fortune here  
Or boasts his wisdom, and that seems queer.  
No creed divide,  
But side by side  
In the bond of kinship meet low and high,  
As if souls are eternal and follies die."

Several generals and even an admiral or two advise the NEW ORLEANS ITEM, "night not be too many to handle the problem of wet Washington, from all we hear and read. Gen. Crosby will retire to civilian life in March. He won't have the Army behind him, unless it be that 'army of righteous public opinion' of which we often hear, but rather see in action. Anything may be expected if he invades friendly little parties of Congressmen and their appointees in the bureaus, irritates major statesmen in connection with traffic rules, or gets fussy about what becomes of sundry importations to the various embassies, anyhow, it will be interesting to watch."

"Along with the problem of enforcing the dry laws," remarks the ST. LOUIS POST-DISPATCH, "in a city drenched with embassy liquor, moonshine from the Maryland and Virginia hills, and varied products—Jamaica rum, Scotch from the Bahamas, Canadian bourbon and rye, tequila from Mexico—that find their way through Chesapeake Bay to the Potomac—along with this problem, he must answer alarms and catch drivers who make left-hand turns."

### Army Man As D. C. Commissioner Stirs Vigorous Controversy

President's Desire To Make Gen. Crosby A Commissioner Upon Retirement Becomes National Question

Wide national debate has followed the announcement that President Hoover is in favor of making Major General Herbert B. Crosby one of the Commissioners of the District of Columbia, upon his retirement from the Army. There are strong differences of opinion as to the probable results. One objection is that a retired Army officer cannot be considered a civilian, required by law for the post.

The Crosby selection, in the opinion of the CHARLESTON DAILY MAIL, "represents a real, sincere attempt, at enforcement by the President of the United States," while the MANCHESTER UNION, holding that "there are precedents for the employment of military men as directors of public safety under one title or another," states that "the British have not hesitated to follow this course, and Lord Byng, who won distinction in France, is now head of the London police department. On this side of the ocean," continues The Union, "there have been similar instances, perhaps not marked by unvarying success, yet making a very fair average of accomplishment. But the chances are that President Hoover chose Gen. Crosby because he believed him fitted for the task rather than because he looked upon military service as a first consideration."

"The action of Mr. Hoover," as viewed by the LEXINGTON LEADER "will appeal strongly to the best elements in the country, and Gen. Crosby will go into office with the best wishes and sincere sympathies of the whole nation." The CHATTANOOGA NEWS predicts that "the will make the fur fly," and the CHARLOTTE OBSERVER suggests that "the President is minded to repeat in Washington the experiment in Philadelphia, where Gen. Butler of the Marine Corps tried the military hand to some success, at least put Philadelphia on the front pages."

The Observer adds that "the Washington job appears to be one calling for military principles."

Supporting protests that have been made in the National Capital, the EVENING STAR of that city comments: "Objecting to the appointment of Gen. Crosby or to the appointment of any retired officer is based on the spirit as well as the letter of the organic act of 1878, which, creating the commission form of government for the Capital, clearly stated that, of the three persons selected, one should be chosen from the regulars of the Army and the other two should be appointed 'from civil life,' who should at the time of their appointment be citizens of the United States and shall have been actual residents of the District of Columbia for three years next before their appointment, and have, during the period claimed, constituted no where else." Gen. Crosby's appointment, as Washington sees it, indicates a dangerous departure from the spirit of the organic law. In effect it deprives the city of what semblance of local representation and home rule there remains in the Board of Commissioners as custodians of the city.

It is the selection of the selection of men who would not be temperamentally or otherwise fitted for the position. "Ultimate success cannot come through needless surrender to the autocratic principle," avers the MEMPHIS COMMERCIAL APPEAL, while the ST. LOUIS GLOBE-DEMOCRAT asks: "Is it a good thing for the Army to have its officers of either active or retired list mixed up in politics and other affairs of municipalities?"

"The protests," thinks the NEW YORK TIMES, "have come from sources which cannot possibly be said to be of the kind that make a low bootleg liquor. These people believe that it was the intent of Congress, as it is the fundamental American idea, that civilians with civilian methods shall manage our civic affairs. This is confirmed by example, both New York and Philadelphia. The CHATTEAU D'ORANGE adds: "The most successful military policing of the District, however impressive it might be of the possibilities of enforcing an unpopular law, would prove nothing as to what could be done in a self-governing community. It might be made the basis for an argument in favor of abolishing universal suffrage and of putting in the hands of the President, supreme and dictatorial authority to enforce prohibition by military rule."

"The sacrifice of political liberty would be, in the eyes of dyes, a small price to pay for the enforcement of a law which

## Yearly 190,000 Pupils Perfect In Attendance In State During 1929

HARRISBURG, Feb. 19.—Reports submitted to the Department of Public Instruction shows that during the school year 1928-29, 189,819 pupils were perfect in attendance in the public schools of Pennsylvania. Of these pupils 84,988 had been perfect in attendance during some preceding year or years. This represents a slight increase in the number perfect in attendance during the preceding year. It is considered a good achievement however, because records in the State Department of Health show that there were considerably more cases of the common communicable diseases such as measles and chickenpox during the past school year than during the preceding year. The number of

deaths from influenza alone during the past year were 235 or approximately 2 1-3 times the number that occurred during the preceding year, while the number of deaths from this disease during January 1929, were 9.68 or almost ten times the number that occurred as a result of this disease during January, 1928.

On an average 100 of every 1000 pupils enrolled in the public schools were neither absent nor tardy during the entire term. The records of these pupils and other attendance records made it possible for those who attend school to maintain a percentage of attendance of 92.8 or approximately 93 during the past school year.

## Insane Woman Is Sent To Asylum, Killed Daughter

OMAHA, Neb., Feb. 19.—Mrs. Mary Bender of McCook, Neb., who pleaded guilty to murdering her 11-year-old daughter, Maxine, because the girl went to a motion picture show without permission, will be moved to an insane asylum, according to police officials.

The mother is accused of shooting her daughter when the girl returned home. The woman claims she remembers nothing of the shooting.

## Observe Lincoln Anniversary Soon

VINCENNES, Ind., Feb. 19.—Governors of Indiana, Kentucky, and Illinois the three states in which Abraham Lincoln spent the early days of his life will be invited to come here on March 6, the tentative day set for the 100th anniversary

of Lincoln's visit to Vincennes on his way from Lincoln City, Ind., to Illinois.

In March, 1830, Lincoln, then 21 years old passed through here with his family. He was said to have seen his first printing press at the office of the local Western Sun, which was founded in 1804.

The local celebration has been endorsed by the Lincoln National Memorial Highway Association of Illinois, which in cooperation with similar organizations in Kentucky and Indiana, proposes to build a highway from Hodgenville, Ky., through Indiana to Illinois along the route covered by the Lincolns.

## Petites Robes Take Lead In Fashions

By ALICE LANGELEIR

PARIS, Feb. 19.—Paris "petites robes" are putting all others in the background this winter, charming little affairs worn under cosy fur or tweed coats, practical, pretty and presentable upon all occasions.

They are generally made of light weight woollen closely resembling jersey in elasticity, but much newer and finer than the jersey weave which has so long been in vogue. They also come in one of the crepes satin or crepes de Chine. Frequently two shades of the same color are used. Stress is put upon very simple but smart trimmings well-cut shaped sections and inset pieces, broad bands perfectly tailored, plastrons and vests varying the fronts and soot jabots to give the feminine touch.

Particularly pretty is a petite robe with straight black skirt buttoning left side and a pink blouse tucked in at the waist. Just below the waistline over the front and back of the skirt two long points of pink material run parallel, giving the very chic note.

The Comtesse Fal de St. Phalle has been seen in a very smart petite robe of light-weight tweed in brown. It has a white silk pique tie, a narrow belt at the natural waistline, fluted yoke and deeply-pleated skirt below.

A little shoulder-cape finishes a petite robe from one dealer's, in thin beige tweed flecked with white. The skirt is most intricately cut, clinging to the figure with a decided flare near the hem. The white stitching on the belt and wide gamutlet cuff is repeated on the cape which has a military collar.

Many petites robes favor these little capes which can be whisked on or off according to the wearer's moods or the weather. They are quite independent of the robe and just tied on by streamers knotted in the front. The cape idea gives promise of becoming very important in the time spring comes around again.

Just the truth of the matter was, the insects were not used to such a gathering and the "get together" tickled their fancy. For instance, no sooner had a beetle taken his place and ready than he discovered a friend he had not seen in a long, long time somewhere in the crowd. Off he crawled to greet him. When hundreds of insects, with wings and without, fluttered and flitted and crawled around it was enough to make any boy dizzy. Finally Biffer, the Gun-Beetle, took matters into his own claws. He hopped upon a high stone and clapped his claws. When the insects paid little attention to this he shrilled at them:

"Butterflies, Beetles, Bees and Bugs, welcome! Keep quiet, all of you, and listen! You are about to witness the most marvelous acts of the age. You will see Chinaman Caterpillar swallow his clothes and appear in a brand new suit. You will hear Sunshine Moth, the beautiful Humbug, imitate Humming Bird. The Katydid will give a one-act play. The famous acrobats, Uncle Merry Great Eye and Snap-Beetle, will do the flying 'back leap,' rising into the air from the flats of their backs. A tribe of fleas will give a one-act performance of acrobatic feats that will surprise you!"

Next: "Visit the Freaks!" Cries Biffer.

## Peter's Adventures

MRS. FLORENCE  
SPATH  
VINCENT

Biffer came speeding around a turn in the bank of the stream, waving his hat and cheering. Behind the jolly young Gun-Beetle marched an army of insects. And now Peter became very busy. Lady Bug greeted the performers, and the boy escorted those who had come to look on, to their seats. But alas! there were not enough beetles to go around. Luckily the insects didn't much care, they were used to being on their feet or resting on their wings. While those who had seats were proud as punch of their position, those who had none made the best of the situation. However, after a while Peter felt his head going round. He had never seen such confusion.

The truth of the matter was, the insects were not used to such a gathering and the "get together" tickled their fancy. For instance, no sooner had a beetle taken his place and ready than he discovered a friend he had not seen in a long, long time somewhere in the crowd. Off he crawled to greet him. When hundreds of insects, with wings and without, fluttered and flitted and crawled around it was enough to make any boy dizzy. Finally Biffer, the Gun-Beetle, took matters into his own claws. Chiang Kai-Shek. Banditry, piracy, robbery AND STARVATION will be the by-products.

The ancient dinosaur, with a small head and a huge body had, half way down his spine, a second brain, to direct the lower part of the gigantic creature. The small head did not direct at all.

Huge China, with more than 400,000,000 people needs another brain somewhere.

The best brain might be that of another Genghis Khan, or Tamerlane.

## Conneaut Cottage Damaged By Fire

(International News Service)  
CONNEAUT LAKE, Pa., Feb. 19.—The City of Conneaut, Pa., was damaged Tuesday when a small cottage adjoining the hotel was swept by fire.

Fire Chief C. C. McAdoo, with the aid of the few residents at the park and nearby farmers, brought the blaze under control by the time the Meadville fire department arrived in answer to a hurried call for aid.

The cottage, owned by Mrs. Katherine Wolff, was badly damaged the entire roof being destroyed.

Origin of the blaze was unknown.

## Two Movie Queens Granted Divorces

LOS ANGELES, Cal., Feb. 19.—In less than five minutes Tuesday, two feminine film stars were granted decrees of divorce from their husbands in two separate superior courts.

Mildred Harris, former wife of Charles Chaplin, obtained her divorce from Everett Terrance MacGovern in three minutes when she appeared before Superior Judge Harry R. Archibald.

## Baltimore's City Directory Claims Many Fancy Records; Has Unusual Barber Shop

(International News Service)  
BALTIMORE, Feb. 19.—The City Directory devotes several pages to a tabulation of Baltimore's "First"—the first railroad constructed here; the construction of the first elevated street car line, which, incidentally, is less than a half mile in length, and so on.

Here are two more that may be added to the list in next year's issue.

Baltimore has the only market in the world that sells dressed chickens by the pound, and has the only barbershop that extends credit and "cuts your hair quickly today if you are in a hurry and will cut it good tomorrow all for the price of a single haircut."

This strange market where the merchants slice off one and two pounds of chicken is the little Hebrew Market in East Fayette street. The stall keepers said they have learned small families say the average size chicken is too large for its needs. Also the poor are unable to pay the price for a whole chicken and take advantage of the opportunity to buy the delicacy in small portions.

Another feature of this particular barber shop, located in South Baltimore, is that the proprietor takes his stand at the chair farthest from the door instead of at the first chair

## Here Is A Little Sample Of Questions Asked Of City Library Staff Every Day

By JANET KISSINGER

"In what museum is there a live halibut fish? Is it always beheaded before it is brought to shore? If so, why? What is its head like? And, by the way, is there such a thing as a mermaid?"

The answers? Just ask the library staff of the New Castle Free Public Library. The above is just one of the scores of questions asked the staff members every day.

A record of some of the questions is kept in a notebook, at the library. One glance at those questions, and all the conceit in a person just seems to fly away, and he gazes through the list with mouth agape.

A few of the questions asked the staff this month and last month, will be printed here. Prepare yourself. Here goes.

Tell all about a physician's salary in Russia. What is the address of the Golden State Milk Products Company? Something about trimming "edges." Who is the governor of Arizona? What is the meaning of "post humous?" Something about cigarette smoking.

Here is a daisy, folks—"Is there such a thing as a play for Valentine day without love making in it?"

Here is another one—How do you pronounce "Doge"? Probably that depends upon who does the pronouncing. There are five ways to stumble over it—so take your pick, you might win something.

Here are some others we will leave to the discretion of Miss Alice Sterling, librarian—What is the history of history? Repeat the monstap quotation. Description of linotype machine. What is electricity? What was the date of the Boer war? What are the industries of New Castle? What is the altitude, population, industries of cities of Arizona? What poem contained the line, "I am master of my fate." Who were the members of Madison's cabinet? What is the meaning of Section 10 of the Covenant?

Whew! (Brief pause allowed for breath.)

Who was vice consul of United States at Beirut, Syria, in 1924? What was the quotation beginning "Old Wine" and ending "Old friends are best?"—or words to that effect.

Then there have been people in the last two months who have wanted to know what to feed a cow, the divorce laws, the evolution of a chicken the best publishing company of books on Arithmetic methods, what county Charleston, W. Va., is in, and the marriage vows.

One curious person wanted to know all about the illiteracy of Lawrence county, and all about columns and column writers. Another wanted to know how many nurses were killed in the A. E. F. during the war. And then, who was the best loved president? What is the history of the crescent? Who was Applesseed John? What is meant by the "Socratic Method." When was Dicken's birthday?

Perhaps that is enough for the average person to sleep on. If it isn't, write to the library and ask for some more questions. And, by the way, if there is any question among the list that you can't answer, why—just go to the library.

## Retired Engineer Dies Of Illness

(International News Service) ALTOONA, Pa., Feb. 18.—William W. Burbank, 90, retired Pittsburgh division engineer of the Pennsylvania railroad and former president of Altoona Y. M. C. A., died here today following a brief illness.

Burbank was given his first employment by Andrew Carnegie in 1888 and was a frequent visitor with Carnegie during his life time. He also was a personal friend of Andrew Vauclain, Charles E. Fugh and Robert Pitcairn and a relative of Luther Burbank, the noted plant wizard.

## Artists Of Carmel-By-The-Sea In Plan To Make Nation's Ideal City

By CARL MORITZ  
International News Service Staff Correspondent

CARMEL-BY-THE-SEA, Cal., Feb. 19.—Whoever head of an incorporated city being a cross between a child's nursery, a national park and the "Left Bank". Sounds like an architect's Burbankian nightmare, or an idealist's pipe dream of "that promised land." Not at all. It is the recommendation of Lincoln Steffens, noted writer, to the Carmel town planning commission, if any. This esthetic village, about to hop from its swaddling clothes to construct a city hall, a firehouse, and a calaboose, believes this gargantuan stride toward progress should be tempered with originality and artistry. Endorses Town Plan. Steffens today endorsed adoption of a town plan, but urged that if a commission be appointed, it practice such taste that Carmel might never be mistaken for a sister-town or even a

fourth-cousin, to such cities as Santa Barbara or Pasadena, beautiful as they may be.

Admitting Carmel must grow, Steffens says the trouble with its artistic residents is, they know what they don't want, but don't know what they do want. "A community of artists should be able to form a vision and sketch a design," Steffens declares, "till of itself almost, it grows into a picture, or a poem, or a town." Now, this picture, or poem, or town, according to Steffens's vision, should be just "a kid's town." And by "kids," Steffens says he means "children," and no kids. And by children, the author means "children, old and young; people in their pleasant second childhood, who have quit hustling to play; all artists, who are or should be children; and last, but first in our scheme of things, the young folks themselves." Here are some of the municipal in-

novations Steffens would have the commission incorporate into its "picture-poem-town":

A few paved streets for bicycles, tricycles, and skates.

Bridal-paths, trails and walks thru the Carmel hills.

Swimming holes along the Carmel river.

Along the Shore. The beach, and caves above the beach, that some of the young cave men and women know about.

Sailing, rowing, canoeing and canoeing facilities on the lagoon.

Children's theatres, movies, libraries and dance halls.

Shallow pools for babies to bathe in, and older children to sail toy boats in, and signs at certain street corners that read, "Children's Street; Keep Out!"

"Such planning," Steffens says, "would develop into a sort of heaven on earth for everyone."

The marvelous thing, throughout the crossword craze, was how the expert designer could make up 7,431 different patterns with the same 82 words.—The Detroit News.

The Oklahoman who has had 102 surgical operations, suffered, of course but think of the many happy periods of convalescence he has had.—The Toledo Blade.

## Shoe Stores In New York Have Many Hold-Ups

One Firm Sinks Safes In Concrete To Foul Robbers

(International News Service)  
NEW YORK, Feb. 19.—If you feel that you just must become a hold-up man, here's a friendly tip—don't include Thom McAn Shoe Stores in your itinerary.

For the McAn company, weary of being a barometer for hold-ups, have decided to sink each safe in their 400 New York stores in concrete.

### 400 Robberies

Within the seven years the stores have been operating here, 400 robberies—one to a store—have beset the management and clogged the police blotter. "Stuck 'em up" has become more than a command to employees of the snug little retail stores that dot Manhattan—its mighty near a slogan.

The latest indignity occurred recently when a detective assigned to guard a group of stores was knocked down with a toy revolver and his service pistol taken by a bandit.

The company is more concerned about the safety of their clerks and managers than about the robberies in this new order, according to the Melville Shoe Co., operators of the stores.

### Employees Beaten

A number of our employees have been beaten severely in attempting to frustrate thieves. Building the safes in concrete will offer further protection for them in that it will tend to dissuade potential bandits, Melville said.

That "Crime Doesn't Pay" is forcibly shown in the McAn robberies. Melville pointed out that the monetary loss due to the 400 hold-ups approximately hardly \$2,500.

It's fair enough. By the time he discovers she can't cook, she discovers that the ring and car aren't paid for.—The Akron Beacon Journal.

## For Normal Girlhood

"My daughter Magdalen did not seem to develop as she should. At times she had no pep at all and couldn't get her school work very easily. For four years we doctored her off and on. Then a friend told us how much Lydia E. Pinkham's Vegetable Compound had helped her years ago, so I got a bottle for Magdalen. Her nerves are quieting, her general health is better and she is now as normal as other girls."—Mrs. J. Bartholdi, Thompson's Addition, The Dalles, Oregon.

## Sharon Bootlegger Ordered In Court

Failure To Obey Court Order Will Result In Forfeiture Of \$5,000 Bail Bond

MERCER, Pa., Feb. 19.—John Jerko, Mercer county's bootlegger de luxe has been ordered to appear in court February 24th next by District Attorney Leo McKay.

Failure to comply with this order will result in forfeiture of his bail of \$5,000. Monday, February 17th, had been set for the settlement of this case. A week's extension was granted by the prosecutor to give attorneys for Jerko time to determine whether they will appeal to the Supreme Court. The opinion of attorneys here is that any such appeal will be valueless as the constitutional qualifications mandatory to such an appeal in the high tribunal are said to be lacking in this case. The week is also to give Jerko proper time to settle up his business before starting to serve his 18 months in the workhouse. He was tried at the October term of 1928 and found guilty. He has since been refused a new trial by the county court and the Superior Court. He still contends that he is innocent of the crime.

**SEEK MORE ROAD MONEY**  
Two more townships petitioned the court for additional road millage at today's session. This makes a total of eight out of the 32 in the county that have asked the increase over the ten mills allowed by law. Perry township, asks five additional making 15 to carry on with their ash and slag road program; Springfield township to build \$1200 worth of new roads made necessary by the Perry Highway construction asks four additional mills making 14. Perry reports being \$53000 in debt and Springfield \$12000 in debt.

**SELLS BUS LINE**  
Harry Blake for 10 years the operator of the Greenville-Mercer bus line reports its sale to the West Ridge Transportation company of Erie now operating as far south as Greenville. The transfer will be made April 1st. Busses will operate without change between Mercer and Erie.

**CONSPIRATORS HELD**  
The three Grove City conspirators are held for April court. They are charged with having framed Chris Page of the college town with planted liquor. Harry Bell who is reported to have offered \$5000 for the job was held in bail of that sum which he furnished; Constable C. W. Brannon of Pine township, was held in \$1000 and Chandler Hinds in \$500. Both of them furnished the bonds.

**POSTPONE CASES**  
The six cases posted here for the March term of Common Pleas court have been ordered by Judge J. A. McLaughry been added to the May list. The court has informed attorneys that any desiring to try their March cases may have them added to the February list of 43 cases that is now in hearing.

This is the third year that the March list has been carried over by judicial order. In each instance not sufficient cases have been posted to hold a court session. In 1929 the number was eight.

**VERDICTS TAKEN**  
Verdicts were taken in three Common Pleas suits at the Monday court session which opened for what is expected a two weeks court session. Of the 43 cases for trial 29 were announced by attorneys as ready for hearing, nine were continued to the May list, three were reported settled out of court and two were passed for the present.

The action of Thomas Barrows vs. the Insurance Company of Pennsylvania at Philadelphia goes to the jury this morning. The suit is brought to recover on a building owned by the plaintiff located at Sheakleville. The court directed the juries in these cases to return verdicts as follows: The sum of \$1950 for C. A. Watson in his suit against the Ontario Biscuit company, \$268 for Ray Kellenbaugh and \$100 for his son William in their suit against M. A. Miller, \$600 for Wallace McFarland in his suit against William Laycock. The cases all settled by attorneys out of court were made final by this jury return.

## Business Men Launch Drive On Waste Loss

Annual Industrial Loss Estimated At Half Billion

### CAMPAIGN AGAINST CARELESSNESS STARTS

By PIERE JOHN HUSS  
International News Service Staff Correspondent  
CHICAGO, Feb. 19.—The business and professional men of America have decided to put a stop to the enormous industrial waste that annually filches \$500,000,000 from their pocketbooks. The leading industrial and business societies will meet here the first week in March and launch a concerted campaign against carelessness in plant management and against lax operation of industrial plants, rated as the two primary causes of waste. In conjunction with the meeting will be held the National Industrial Equipment Exposition and the National Material Handling Convention of the American Society of Mechanical Engineers.

Robert Isiam Randolph, president of the Chicago Association of Commerce will act as chairman of the congress; George E. Pfisterer is to have charge of the exposition. The latter will feature the newest types of machinery and supplies covering all phases of industry.

"American industry is suffering an annual loss of some \$500,000,000 through leaks in management and operation, it is estimated by competent industrial engineers," Pfisterer declared. "And strange as it may seem, managers of industrial plants are more at fault than the rank and file of workers."

"An investigation of representative manufacturing companies in six leading industries showed waste ranging from six per cent to 72 per cent. In one motor car plant alone, the effects of a waste elimination campaign started after the investigation, resulted in a saving of \$542,000. In some plants the savings from waste elimination would be almost as great as the profits from sales."

### Fears Drys May Revise Blue Laws

Asserts Prohibition Fervor May  
Revive Many Old Statutes

(International News Service)  
DETROIT, Mich., Feb. 19.—Ancient and outworn "blue laws," such as the one which made it illegal for a man to kiss his wife on Sunday, were cited in a recent address by Judge B. Benscoe as an example of the lengths to which the present-day prohibition fervor may lead.

Judge Benscoe's topic was prohibition and temperance.

"It might be well to consider that a stringent prohibition may require for

itself the intemperance and intolerance we criticized in the old religious practices, when a man might not kiss his own wife on Sunday," he said. "Some medical authorities, by the way, would have us believe that there is more danger in kissing than in drinking intoxicants."

### Patriotic Program For Dinner Club

D. O. Davies Is Chairman Of  
Committee In Charge For  
Consistory Dinner

Arrangements have been completed for the February dinner and entertainment by the New Castle Consistory Dinner club which will be held in the Cathedral, Friday evening at 6:45.

D. O. Davies is chairman of the entertainment committee and announces a patriotic program for the evening, the birthdays of both Washington and Lincoln falling during the month, will be observed. Dancing and cards will follow the dinner.

A great number of reservations have been made for the coming event and a large crowd is looked for, especially from the outlying districts, the roads having cleared of their winter's accumulation of snow and ice.

### Potter Continues Steady Improvement

According to word received from Orville Potter of Huey street, past commander of the Harry L. McBride Post, Veterans of Foreign Wars, his condition is steadily improving. Mr. Potter was operated on in the Walter Reed hospital several weeks ago.

The letter which was written on Monday, stated that he was still in bed but that he expected to be up the following day. He states that he was fortunate in having one of the best surgeons in the United States perform the operation on his legs and that he has been receiving the finest of treatment.

### Free Methodists To Hear Missionary

Rev. F. W. Parks, pastor of the Dewey avenue Free Methodist church announces that they have secured Miss Elizabeth O'Connor, a missionary from the mountains about Oakdale, Kentucky, to address the congregation in the church this evening at 7:30 p. m.

There will be a preliminary exercise by the junior missionary society and the program arranged will prove interesting to those attending.

### McBride Post To Meet This Evening

Harry L. McBride Post, Veterans of Foreign Wars, will hold their semi-monthly meeting in the post rooms in the Legion Home Association building this evening.

BANKER TOLD TO USE  
EYES DURING HOLDUPS  
(International News Service)  
INDIANAPOLIS, Ind., Feb. 19. — Bankers should use their eyes as weapons against bank bandits instead of firearms, E. L. Osborn, head of the Indiana bureau of criminal identification, told the members of the Indiana State Bankers Association here.

"Don't resist the robber, but look him over carefully from head to foot, so that you can recognize him when police arrest him later, as usually happens," Osborn said.

### POISON GAS USED IN WAR ON INSECTS

(International News Service)  
VIENNA, Feb. 19.—Poison-gas is being  
used in the war Austria wages  
against the wood-worm.

The famous high-altar in Kefer-  
markt, Austria, which seemed to be  
entirely lost by the nefarious activi-  
ties of the insect was saved by "gas-

sing the church." Now the same  
method will be applied to the high-  
altar of Kiktraing, near Klagenfurt,  
which dates from 1630 and is also  
threatened to become a victim of the  
wood-worm.

## "Ben Franklin" Of China Back In U.S. To Live

Chicagoan, Personal Advisor  
To Dr. Sun Yat Sen,  
Returns

HAS TRAVELLED  
WIDELY AT TASK

By PIERRE JOHN HUSS  
International News Service Staff  
Correspondent  
CHICAGO, Feb. 19.—The "Ben  
Franklin" of China, a Chicagoan who  
for eighteen years was the personal  
friend and legal advisor of Dr. Sun  
Yat-sen, has come back to his old  
home to fill an obscure post and live  
a life of retirement.

Although widely known in inter-  
national circles and recognized as the  
individual who was the moving force  
behind China's recent abolishment of  
extra-territorial rights, Judge Paul  
Linebarger is merely another name to  
the average Chicagoan. In the  
homes of the kumintang, whose day  
in the sun he labored with Dr. Sun  
Yat-sen to achieve, the name is more  
than a mere printed sign—it is a  
household word. Opposing factions  
have paid unintentional tribute to  
him by posting a fabulous price on  
his head.

Friend Of Sun Yat-sen  
Judge Linebarger practiced law  
here until 1900. From that year un-  
til 1907 he was United States Judge  
in the Philippines. In the interim  
he met Dr. Sun Yat-sen, for whom  
he developed such a friendship that  
he resigned from the legal post and  
followed the young visionary through  
war and peace until China's 4000-year  
dynasty had been overthrown, with  
Dr. Sun Yat-sen chosen as its first  
president.

Adventures befell Judge Linebarger  
by the score; his work in the inter-  
ests of China carried him across the  
world and back; he wrote three books.  
Sketching his career in an interview,  
he told his story as follows:

"In 1897, on a blizzardy September  
morning, I was riding to my father's  
school on a North State  
street horse street car, my feet buried  
in the hay for warmth when a Chi-  
nese laundryman got on the car.  
Three Irish laborers dressed for Sun-  
day and well filled with beer began  
stuffing him down the poor fellow's  
gown. I was but a boy but felt a  
great pity for the man and asked  
the merry-makers to desist. The big  
Irishman helped me. 'Leave the  
hathen alone,' he ordered. 'Even the  
by here knows it ain't right to stuff  
him with straw on Sundays.'"

"I never forgot that incident, nor  
did I ever lose my feeling for the  
Chinese. And so it happened that  
while I was in China during my ap-  
pointment as United States District  
Judge in the Philippines my cook was  
captured by bandits and tortured for  
many days. He was at last thrown  
off the torture rack as dead, but  
crawled home to me, whereupon I  
instigated an investigation to secure  
redress. I went personally to the  
arch-revolutionist, Dr. Sun Yat-sen,  
who impressed me so favorably with  
his personality and character and  
with the nature of his revolution  
that I resigned as United States Dis-  
trict Judge to follow him in his ef-  
forts to overthrow the Imperial Drag-  
on throne of 4000 years duration.

## Declared Not Legally Dead

Mrs. Ruth St. Clair, sentenced to life imprisonment following a  
fourth felony under the Baumes law, pauses in the courtyard of  
the women's detention prison to tell the world via the microphone  
of the Fox Movietone that she is "not legally dead." Counsel  
for Edward I. Garver, the young women's former attorney, ob-  
jected to her taking the witness stand against the latter on the  
grounds that as a person sentenced to life imprisonment she was  
to be considered as legally dead. The court held otherwise. Garver  
was charged with attempting to bribe a witness against Mrs. St.

Mrs. Miriam Culbertson, William  
Culbertson and Emge, formerly man-  
aging editor of the Pittsburgh Leader,  
of which Ambassador Moore was the  
publisher.

## Hold-up Victim Points Out Two Trial Spectators

(International News Service)  
PITTSBURGH, Feb. 19.—Richard  
Thompson, 46, of this city, was being  
tried for the robbery of a local drug  
store.

Word of his predicament was flash-  
ed about the city's underworld. Two  
of his pals, Walter Hanlon, 18, and  
Charles Downs, 20, responded.

The anxious to get a rug-side seat  
at Thompson's trial got them more  
than that—it got them arrested on a  
charge of having aided Thompson in  
the stickup.

They were strolling arm in arm  
through the court house at the  
conclusion of the first day of the trial  
late yesterday. Milton Kelsky, own-  
er of the drug store that was held up,  
grabbed a policeman by the arm.

"See those fellows?" he queried ex-  
citedly. "Get 'em. They're the guys  
that helped Thompson hold me up."  
Thompson's trial was resumed to-  
day but his pals weren't present. They  
were occupying cells on a charge of  
being suspicious persons.

## REDUCED RATES PROVE HELPFUL TO AIR INDUSTRY

By JOHN S. CLEGHORN  
International News Service Staff  
Correspondent

WASHINGTON, Feb. 19.—Reduced  
rates for passenger travel by air are  
having an encouraging effect on com-  
mercial flying and up aviation gen-  
erally, according to the Air Travel  
Division of the American Automobile  
Association.

There have been significant reduc-  
tions in air travel by leading air  
lines and in some instances the rates  
have been cut as much as 50 per  
cent.

"An indication of the way in which  
the nation is becoming definitely air-  
minded is seen in the fact that Trans-  
continental Air Transport, since be-  
ginning air-rail service in July 1929,  
has carried 4,336 passengers over a  
total distance of more than 2,000,000  
miles.

"In the case of the Boeing Com-  
pany 1,300,000 miles were flown at  
night, which is said to be a record  
for night flying," the report said.  
"This company carried 2,850 passen-  
gers in 1929 as compared with 1,963  
in 1928, without any facilities. Op-  
eration figures for other air trans-  
port lines are equally significant.

"Lower rates are certain to result  
in new traffic records for air travel  
during 1930," the association declared.

M. Schwab.

After quietly celebrating his 68th  
birthday, marking the close of 50  
years in active business life, Mr.  
Schwab announced last night he was  
retiring from all enterprises except  
Bethlehem. Of the latter he said:  
"Bethlehem being, as it were, my  
child, I shall always continue my con-  
nections with it."

In his birthday statement the steel  
magnate said that if he had his life  
to live over again he would change  
nothing. He said that to him friends  
were more important than "so-called  
business success."

# Hughes Discusses Library; Also School Arithmetic And Reading, In Article

In today's school article submitted by James M. Hughes, principal of the Lincoln-Garfield school, the library is discussed, and comment made upon the teaching of arithmetic and reading. The article is self explanatory and is of interest to parents of children in school.

## OUR LIBRARY—AN IMPORTANT PLATOON SCHOOL FEATURE.

The importance of the library to the curriculum of the platoon school, such as we have at Lincoln-Garfield School, cannot be over rated. It is indispensable in teaching our children to form good habits in the care and use of books and the reading of worth while ones, to acquire skill in locating facts easily and to cultivate an attitude which will lead the pupil to turn to literature as a means of enjoying leisure time.

The children are taught in our library in the third and fourth grades the care and use of books, and etiquette in their library. In the fifth and sixth grades, as these good habits have been acquired by these older pupils, are privileged to more freedom in their selection of reading material.

Each boy and girl has a book which they have been reading during former library periods and immediately upon entering the library each one gets his own book and becomes lost to the classroom in his "land of story books". When the period is ended and the books must be replaced on the shelves, they can't understand how a period could pass so quickly, so engrossed do they become in their books.

Our library has for its aim the co-operation and co-ordination of all other subjects to it such as: geography, history, music, English and auditorium in the finding of further information on certain lessons. If outside reading is required in any sub-

ject, it is done during the library period in the encyclopedias or any book in the library that applies to the lesson on which he is working.

For example, the geography teacher assigned to the sixth grade classes reference work on the Eskimo. With the help of the library teacher, books were located that could hold any information about the Eskimo, or on the far North. As material was found the pupils presented it in the form of a report to the class and the points of importance were written on the blackboard and brought up for discussion. The interest the pupils take in outside work presented in this manner is remarkable. It holds more interest and is no longer work but play for them. By the time the lesson was completed the Eskimo in his home was no longer a stranger to the class but a very familiar person. In the geography class this lesson was one of much interest to them because their library work afforded them further knowledge on the lesson and gave them an interesting background for the real lesson.

Our library is not as yet very extensive and is still in its infancy, but we have great plans for its future. We hope to make it one of the most progressive public school libraries in the New Castle schools.

## THE ARITHMETIC THAT IS BEING TAUGHT

The aim of arithmetical teaching is to prepare children for whatever figuring they may be expected to do in life. With that in mind, let us consider what arithmetic is being taught in present-day schools.

The first requirement is, of course, correct figuring, and so in grade one, the addition combinations are started. Even a child in grade one wants to count his marbles or jacks, or how many times he has caught a ball. Counting becomes a game and is pleasurable. The subtraction combinations are presented in somewhat the same way, and the child's learning of figures is still a game to be played instead of a task to be performed. Early in his experience, he begins using money as a basis for his work.

Simple measurements are introduced in an early grade, using only feet and inches, pints and quarts, pounds and ounces.

Simple reasoning problems are begun in the first grade, as soon as the children can read. Store problems are probably the most practical, and used the most, for what person does not go to the store? Every child should be able to go to the store, make his purchases, count their cost and be sure of his right change. The use of simple fractions, halves, thirds, and fourths, is taught in the fourth and fifth grades in connection with store problems.

After drill in decimals, percentage is taken up in grade six. Every day problems of discount, commission, gain and loss, etc. are studied at this time. Some problems in interest are taken up, so that the child may know the advantages of bank-savings. The general trend of all teaching is to give a child what he can later use, rather than mental gymnastics. He is taught only fractions with simple denominators, common-place measurements, only such reasoning

## Right Idea

This three year old athlete is the son of Mrs. M. Sarsfield, 5131 Hoopes St., Philadelphia. She says: "Jackie's wonderful condition shows my idea is right."

"Whenever he's the least cross or upset, or has a cold, I give him a little California Fig Syrup. It always brightens him up; regulates his stomach and bowels; gives him a hearty appetite. I have used it with Jackie since he was a year old, and it has never failed to help him promptly."

All children love the rich, fruity flavor of California Fig Syrup. A pure vegetable product, it doesn't gripe or sicken. It always acts gently but thoroughly to cleanse the system of bilious, headachy, constipated children. Doctors say it tones and strengthens weak bowels. Try it with your child. See how bad breath, coated tongue or feverishness disappear! The name *California* marks the genuine, famous for 50 years. So look for it when buying.

problems as may come within his knowledge later.

The complaint has often been made that too many things are being taught in schools. If we are teaching more things than formerly, we are also leaving out some unnecessary things. Machines have been invented to do complex computing. Why not leave that to the machines, then, and spend our time on more useful things?

## VARIETY IN PRIMARY READING.

It is somewhat of a problem to secure favorable results in Primary Reading when one is confronted with a group representing several nationalities. In a One A class of thirty-seven little people but five have American born parents, the remaining nationalities are Jewish, Armenian, Syrian, Hungarian, Roumanian, Negro, Slavish, Greek, Italian, Polish and German. In some cases home conditions greatly handicap the advancement of the children.

We know that all children delight in running, skipping, jumping and in doing all manner of action things. So we have our action reading lessons. The teacher holds up a card bearing the printed word "Jump", the pupil called upon says nothing but jumps. Before long everyone is willing to try to do what the cards say.

As the children become better acquainted with our language and the printed word, we introduce our basic reader with its fund of nursery rhymes.

We do not depend entirely upon books for our source of reading material. The One A's make up stories of their own which the teacher prints on the blackboard. When the story is complete, we have our reading lesson. Because it is the children's own story, they seem to be more interested in the word drills that follow. We keep a record of such stories in our large "Page-A-Day" story book.

Now and then a speed lesson is given to test the child's ability to reproduce the thought acquired from reading a paragraph of new material. The teacher prints a paragraph on the board and by the time she has finished a few pupils, at least, should be ready to face the class and tell what the story told them.

Our special reading lesson this week was taken from a story called, "The Best Valentine". The teacher read the story to the class. There was no discussion at the time. Later in the day the pupils were asked if they would like to tell about the story and have the teacher print what they told. When finished it was to be used as a reading lesson. The class responded eagerly and the following story was developed:

**THE VALENTINE BABY.**  
Once there were some children who made valentines. The children were Sally and Billy and the two boys who lived next door.

They put the valentines in Billy's yellow wagon. They went to a gray house. Sally's friend lived there. She put a valentine under the door and rang the bell. Then she hid behind a tree. The girl saw the valentine but did not see Sally.

Next they went to a white house. Billy's friend lived there. Billy put a valentine under the door and rang the bell. He ran and hid behind a

## YOUR INCOME TAX

No. 20

Many errors are made by taxpayers in claiming losses incurred in the sale of residential properties. A loss on the sale of property purchased or constructed by the taxpayer for use as his personal residence and so used up to the time of its sale is not deductible. Where, however, property so purchased or constructed is prior to its sale, rented, or otherwise appropriated to income producing purposes, and is used for such purposes up to the time of its sale, a loss is deductible. The deduction allowable is an amount not to exceed the excess of the value of the property at the time it was so rented or otherwise appropriated (with proper adjustment for depreciation) over the amount realized from the sale. However, in the case of property so appropriated prior to March 1, 1913, the loss is an allowable deduction in an amount not to exceed the excess of the value of the property at the time it was so appropriated or at March 1, 1913, whichever is greater (with proper adjustment for depreciation) over the amount realized from the sale.

Example: Residential property was purchased by a taxpayer in 1922 for use as his personal residence at a cost of \$25,000, of which \$15,000 was allowable to the building. The property was so used by the taxpayer until January 1, 1927. From that date until December 31, 1929, when the property was sold, it was rented by the taxpayer. The fair market value of the property at the time it was rented on January 1, 1927, was \$22,000. The building had an estimated life of 20 years when the property was purchased by the taxpayer in 1922. The property was sold on December 31, 1929, for \$16,000. The loss from the

sale allowable as a deduction is \$3,750, computed as follows:

Cost of property in 1922	\$25,000
Less depreciation allowable in respect of the building (depreciation for 3 years at 5 per cent based on \$15,000, cost of building)	2,250
Value of property at time it was rented on January 1, 1927	22,750
Less proper adjustment for depreciation	2,250
Value of property at time it was sold	16,000
Portion of \$6,750 loss which is deductible	3,750

## Sharon Worker Is Found Dead In Bin

(International News Service)  
SHARON, Pa., Feb. 19.—Harry R. Smith, aged 29, was found smothered to death Tuesday in a bin of fluoranthene at the Carnegie Steel plant at Farrell near here, by fellow workers. Smith's body was buried so deep in the sandlike mineral that it required four hours to be removed. Smith was last seen Monday afternoon. He was found in the bin when Machinery was started to remove the ore. His presence in the bin was a mystery of plant officials, who could not account for his being there.

One difference between Chicago and other communities is that Chicago knows she is broke.

## Way to Happiness Simple says California Physician

After 28 Years' Practice Describes Natural Treatment which Keeps People Well

"AFTER over 28 years of the study and practice of medicine, during which time I have treated and supervised the treatment of almost every variety of human illness," writes Dr. Martin J. Dobson of Los Angeles, "I believe I have discovered the greatest blessing that has been bestowed upon the human family. Statistics show that of all classes of persons, physicians and nurses live to a ripe old age than any other class of people. I believe this is no doubt due to the fact that they know more about the importance of daily elimination.

**Dr. Dobson's Discovery**  
The remedy I am speaking of is colorless, tasteless, harmless to the most delicate alimentary tract, from infancy to old age. It is non-habit-forming, and it is essential to the smooth running efficiency of the human body, which needs lubrication just like any other machine. "This remedy is Nujol."  
"Most human ailments can be traced to the alimentary tract for either the main or the contributing cause, and most of these disorders can be prevented or cured through proper cleansing and regulating by the administration of Nujol as per instructions on the bottle and wrap-

per, or as ordered by the physician or nurse."  
Nujol Laboratories considers it a privilege to publish Dr. Dobson's endorsement of Nujol.  
Physicians and nurses themselves use and advise you to use Nujol regularly to clean the poisons out of your body (we all have them), because these poisons are what make us feel headachy, depressed, low in our minds.  
It is always safe to use Nujol, because it is not a medicine; it contains absolutely no drugs; it cannot hurt even the slightest baby; it forms no habit; it is non-fattening. Nujol is harmless internal lubrication.  
**What This Should Mean to You**  
In the last few weeks we have had over 5,000 letters from people all over the world, telling us how Nujol has helped them to happiness and success by keeping their bodies internally clean. You can buy Nujol in sealed packages at any drug store. It costs but a few cents, and it will make you feel like a million dollars.  
Start Nujol tonight. Use it regularly for two weeks, and learn the joy and the happiness that comes from buoyant, zestful health!

## Naval Delegates Await Return Of French Statesmen

Suspension Likely For Naval Conference Until France Selects New Government

### AMERICANS ASK FOR TIME-OUT

By HARRY R. FLOVY, International News Service Staff Correspondent  
LONDON, Feb. 19.—The London Naval conference may be suspended for a week or ten days pending the formation of a new French cabinet and the return of the French delegates to the parity, it was learned today.

The movement for a temporary suspension of the conference negotiations originated among the American delegates and was supported by the British experts.

**Unfair To French**  
It was prompted by a feeling that continuance of the negotiations might be construed as unfair to the French. In addition it was realized that nothing tangible could be accomplished during the absence of the French delegation.

It was also feared that the press might take no pains to hide the fact that it considered the continuance of the negotiations a mere sham.

### WIDE VARIETY OF VALUABLE ANTIQUES ARE DISPLAYED HERE

(Continued From Page One)

quilt was made and exhibited by Mrs. David Jameson.

The mosaics, contributed to the exhibit by Mrs. Charles Greer, president of the Lawrence County Federation of Women's clubs, were of the most interesting nature. The mosaics were just out of Venice and were taken from the Duomo of Torcello, a church famous for its mosaics. Mrs. Greer loaned many other old things on display, among which was a canal report and quarterly tickets which dated back to 1853.

Three paintings of great beauty were loaned by Mrs. James B. Pyle. Among other exhibits, Mrs. Pyle had on display a valuable tapestry. There were antique dishes displayed by Miss Nancy Bickel, lace work by James Matchoussakis and Zarrhie Panagen. Mrs. R. W. Garaway displayed a box over 60 years old, Mrs. Ella Cochran loaned a reprint of a newspaper recording the death of George Washington. Mrs. Cubbison displayed a queer looking Mexican god, and one of the first primers ever printed was the property of Mrs. H. D. Harlan.

**Antique Jewelry.**

Then the antique jewelry. There were diamonds, rubies, pearls and diamonds of the rarest beauty. These were all locked in a glass show case and attracted much comment. There was a necklace brought back from Europe 35 years ago, the property of Mrs. John G. Logan. Then, belonging to the Edward F. Knobloch collection was a cameo bracelet with heads of Greek gods and Goddess on each cameo. The bracelet was made in 1710, belonging to the Kornoff family of Russian noblemen. The bracelet, bought in Berlin, when the Russian royal jewels were sold. A bulls eye watch, of Mrs. Clayton Reeves, is something not often seen. Mrs. Harry Marshall exhibited an old, heavy watch about 110 years old.

Another interesting department of the antique show was the many old papers and documents, exhibited by the College club. Mrs. C. J. Kirk loaned a patent issued by Thomas and Richard Penn in 1767. Mrs. Albert Street loaned a patent issued in 1807 and a deed, signed by Thomas Jefferson and James Madison, made out to Jadok Street, great grandfather of Albert B. Street, in 1834. The property of Mrs. E. E. Seavy, a tax receipt, was displayed, dated 1832, a letter of introduction and a promissory note in 1702. Loaned by Mrs. James Ray, was 3 invitations of 1830 and 1828 and old letters dating back to 1818 and 1823. Mrs. Charles Greer exhibited canal report and quarterly tickets of 1853, and Mrs. Frank W. Wicks exhibited a letter written by Thomas Jefferson to Mr. Davidson, great grandfather of P. R. Woods. Then there were 2 letters of 93 years, written by the grandmother of Mrs. David N. Keast. Turkish coffee was served through the courtesy of Mrs. Sam Abraham of Long avenue.

Girl Reserves, senior high school art department and the Neighborhood House all had worthy displays.

Mrs. Robert McAnis loaned to the exhibit some old, peculiar shaped spoons, and a book entitled "Endicott's Journal," a trip from Philadelphia to Pittsburgh and down the Ohio, printed in 1823. Mrs. P. P. Morrow and Mrs. F. Petty also contributed old books, and Mrs. James C. Roney contributed a Peterson's magazine, of 1866.

**First Telephone**

On the mechanical line, nothing was more interesting than the first telephone ever used in New Castle, in 1880, contributed by Carl Hanna and owned by J. C. Hanna, and a compass of an early surveyor, loaned by C. H. Mitchell.

Dolls—80, 100 and 104 years old, displayed through the courtesy of Mrs. J. C. Roney, Rosalie R. Gurguolo and Katherine McMichael.

The ceremonial outfit of a Sioux Indian brave, contributed to the affair by Mrs. David Jameson, stood in the center of the room, and was the center of much interest.

Mrs. Charles Greer exhibited a very fine old manchou coat of silver and gold tapestry, all woven by hand. A large dragon was woven in the material, the emblem of the Manchou dynasty, from earliest times.

F. H. Hoover had in his possession a pair of shoes 60 years old. The shoes have been from coast to coast and have been worn by 5 grandchildren.

Great ability is shown in the sketches from life by Julia Keagy. They were sketched from the well

known German model, Rudolph Liska. A veil 100 years old, contributed by Mrs. R. M. Jameson, was interesting, as was wax work by Mrs. H. W. French.

A six sided plate, taken from a British vessel during the Revolutionary war was one of Mrs. A. D. Swick's display. Mrs. Swick also contributed several hand molded black bottles. Mrs. Sam Abraham had a display of handiwork.

**Ancient Musical Instruments**  
The old accordion of Mrs. Martha Marquis, was a unique thing, as were a Chinese guitar, flute and fiddle, and Revolutionary snare drums.

Mrs. William Cosel had charge of the New Castle section of National Council of Jewish Women, a table of exhibits which would please the most critical of antique lovers. Mrs. H. Cukerbaum had loaned a Samovar tea urn. Mrs. Cosel had contributed a spice box 100 years old. Mrs. S. Broida had loaned a tablecover 100 years old and Mrs. S. Pereiman had contributed a mortar 200 years old. One section of the table contained pamphlets which would popularize peace. This was arranged in cooperation with the New Castle Free public library.

Then there was a Hebrew prayerbook for High Holy days, the property of Rabbi J. A. Menkes. The book was printed in 1766 in Amsterdam and has been in the family of Rabbi Menkes for 6 generations. One page was moistened by countless tears and has seen more use than any of the other pages.

Little Virginia Harlan was a most charming miss, dressed in a Colonial gown.

**War Newspaper**  
Mrs. A. D. Newell contributed a wall paper edition of Vicksburg newspaper. This paper has a history attached to it, which is truly fascinating. It was printed years ago, when General Grant's army surrounded Vicksburg. When the paper supply ran out, the Vicksburg news sheet was printed on wall paper. Mrs. Newell's father was a member of Grant's army and was able to secure one of the newspapers, after Vicksburg was taken. According to Mrs. Newell, there were a large number of the papers kept by the soldiers, as souvenirs.

The Fine Arts department of the Lawrence County Federation of Women's clubs deserves much credit for sponsoring the exhibition. Many hours of planning were spent by the various committee members, in order to give to the public, a real quality display.

The following committee members had charge of the antique exhibit: Mrs. J. Renta, Mrs. A. D. Newell, Mrs. J. C. Cavill, Mrs. Charles Munn, Mrs. Charles Long, Mrs. Carmi Glover, Mrs. H. A. Moore, Miss Dell Davidson, Mrs. Charles Martin, Mrs. C. W. Mayberry, Mrs. Roy Long, Mrs. Rebecca Bouden, Mrs. David Ritchie, Mrs. DeGraff Pearson, Mrs. Elmer Crawford, Mrs. Wayne Stitzinger, Mrs. Harry Wettich, Mrs. J. B. Russell, Miss Laura Maynard Dean, Mrs. Marcus Feuchwanger, Mrs. Paul Welsh, Mrs. Ed. Davis, Mrs. Albert Street, Miss Rhoda Lowe, Miss Kate Stockman, Mrs. Thomas Phillips, Mrs. C. H. Millholland, Miss Molly Davis, Mrs. Williams, Miss Emily Solomon and Mrs. Charles Greer.

The chairman was Mrs. J. B. Pyle and Mrs. Clinton Keagy was assistant chairman.

## No Agreement Yet In Taxi-Cab Tieup

Minor Disorders Continue To Occur, As Cab Owners And Drivers Wrangle

(International News Service)  
PITTSBURGH, Feb. 18.—"We cannot recognize a union," says E. S. Higgins, vice president of the Paramelee Company, owner of Green and Yellow Cab Companies here.

"Our union comes first," declares Paul Toole, chairman of the strikers' executive committee.

That in a nutshell is the today status of the strike of taxi-cab drivers here which has now gone well into its sixth week.

The strikers demand 40 percent of the taximeter receipts and the company offers 37 1/2 percent, admittedly a comparatively small difference which it is believed each side could agree on if it were not for the union question. There, each side remains adamant.

**Minor Disorders**  
Further outbursts of minor disorder today, testified to the fact what conciliation efforts of city and county authorities had failed, for the time being at least.

Walter Wales, of Canonsburg, Pa.; Walter Beel and B. A. Bradley, of Buffalo, N. Y., were arrested with Charles D. Adey, of the Brownsville road when police, say, they found a revolver, blackjack, seven cartridges and two pocket knives in Adey's possession.

## Kansas City Youth Hunted As Slayer

Youth Is Stabbed To Death In Movie Theater As Climax To Film Thriller

(International News Service)

KANSAS CITY, Feb. 19.—The thrilling murder climax to a motion picture shown at a suburban theater here was super-climaxed by a real murder.

The picture had ended after depicting a murder in a New York rooming house. The patrons were relaxing, their emotions as they began leaving the theater when a scream was heard and William Hayden, 18, slumped to the floor, stabbed to death.

A youth, said by witnesses to be Roy Parker, ran from the theater and escaped. Friends of the two boys said Hayden and Parker had been enemies for two years. Ray Parker, father of the boy sought for the murder, said he had given his son a knife to protect himself from Hayden. The father was held pending the capture of the son.

## New Trial Refused In Munnell Case

Verdict Which Was Returned In Favor Of Defendant Is Sustained By Court

In an opinion handed down by J. A. Chambers this morning in the case of Olive Aggas against William B. Munnell and Mary B. Lockhart, a new trial was refused.

This is a case in which there was a dispute over the will of the late William A. Munnell. It was claimed that he was not in sound mental condition when he made a will on July 21, 1928 and that undue influence had been used. When the case was tried a verdict was rendered in favor of the defendant, and this is sustained by the court's refusal of a new trial.

In the case of the city of New Castle against John Whaley's heirs, judgement was directed to be entered in favor of defendant. This was a case growing out of the paving of County Line street, a municipal claim having been filed on Feb. 9, 1911. The original claim filed was against John Whaley's heirs and Sarah E. Whaley. The latter died and Robert H. Whaley, who was appointed administrator, sold the property pursuant to an order of court. The court is of the opinion that this was a judicial sale. Being such, and for a sufficient sum to pay the lien, the lien would be divested.

In the matter of the final account of L. C. Cox, executor in the estate of Mary M. Cooper, in which exceptions were filed to the auditor's report, the exceptions are overruled.

## STATE POLITICAL CAULDRON BOILING DOWN CANDIDATES

(Continued From Page One)

a lot of water may run over the dam and many political plans upset.

As the situation appears now, however, it is almost certain there will be at least two candidates fighting for the nomination for senator and three candidates contesting for the gubernatorial nomination.

The candidates for the senatorial nomination will be Vane and Grundy. For governor, the fight seems certain confined to Samuel S. Lewis, of York county, backed by the state organization and Gifford Pinchot, former governor and independent Republican. So far, nothing definite has been forthcoming from the latter and he appears to be playing a game of watchful waiting.

A conference held at the capitol here yesterday between leaders on the state Republican ticket in the May primaries, apparently left the slate-makers as far apart as Harrisburg and Florida.

**Nothing Divulged**  
Lewis held a two-hour conference with State Chairman Edward Martin but nothing in the way of what was discussed was divulged by either.

Mayor Harry Mackey of Philadelphia paid a hurried "mystery trip" here late yesterday and conferred with Governor Fisher. Both said after the conference they had reached no commitments regarding the political situation in Pennsylvania.

Judge George W. Maxey, of Lackawanna county, mentioned both for governor and for justice of the state supreme court, paid an unannounced visit to the capitol and called on a number of political leaders with no definite result apparent.

**Ultimatum Delivered**  
PHILADELPHIA, Feb. 19.—With the dawn of the first day for circulating nominating petitions for the various state offices reports were published here today that overtures had been made to the Philadelphia Republican organization headed by Williams S. Vane by the Grundy-Mellon factions in an effort to prevent a state-wide fight at the polls in the approaching primary.

"Step out of the senatorial fight and we will support Francis Shunk Brown for governor," leaders of the Mellon-Grundy group are said to have told Vane.

Vane's Philadelphia war-board refused to comment on the reports beyond saying Vane is not going to retire and is "as much in the fight as he has ever been."

## Steel Production Shows Slight Gain

(International News Service)

PITTSBURGH, Feb. 19.—"Steel production has made a further slight gain, but has lost the momentum that caused it to rise so rapidly in January," the weekly summary of the Iron Age Magazine will say tomorrow. Uneven demand, especially from automotive steels, little change in industrial requirements and support from the railroads and heavy construction fields feature the week, according to the summary.

Ingot output at Pittsburgh, 75 percent a week ago, is now nearly 80 percent of capacity and a similar rate prevails in the valley.

"Motor car manufacturers, outside of Ford and Chevrolet are adhering to a cautious policy in ordering steel and their February output will exceed that of January by only a small margin," the review will say.

"Residential steel lettings, at 32,000 tons compared with bookings of more than 50,000 tons were the largest this year."

Tin plate output is undergoing seasonal growth, the outlook in oil country pipe is not promising and steel demand from the farm equipment industry is sustained at a high level, according to Iron Age.

Finished steel prices, barring scattered irregularities are holding their own with scrap undergoing a general advance in Chicago. Pig iron buying is at close range and foundry melt is uneven, though showing a slow expansion in the aggregate.

The Iron Age composite prices are unchanged. Pig iron at \$18 a ton and finished steel at 2305c a pound. Pig iron is 25c a gross ton lower than a year ago; finished steel is \$1.72 a net ton lower.

### Prayer In Congress

The house met at 12 o'clock noon. The chaplain, Rev. James Shera Montgomery, D. D., offered the following prayer:

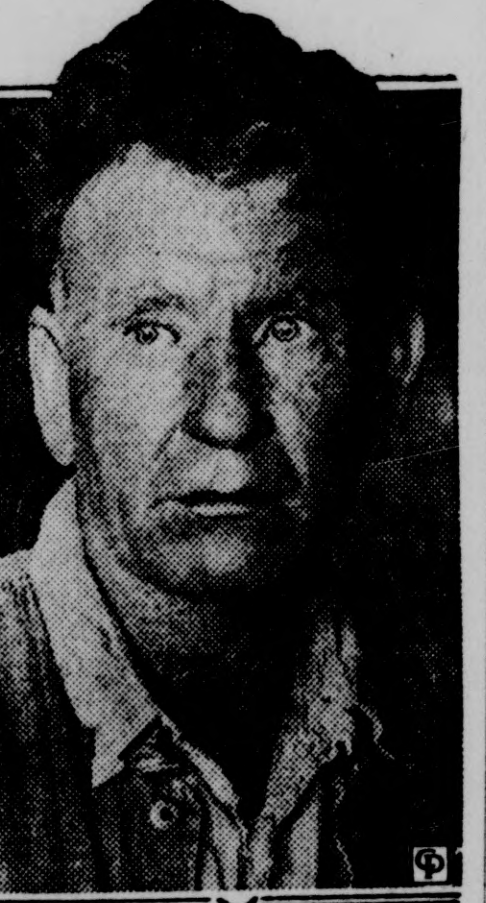

O Lord and our God, for the sake of ourselves, our homes, our country, and for the sake of mankind, of which we are a part, we tarry at the altar of prayer and praise. At this time may our nation appear before peoples of the earth with such self restraint and for such consideration for those who are weak and with such a conception of the nobility of power that all men may love liberty and know the source from which it comes. Be Thou our remedy for that which is wrong, our guide toward that which is right, and our help in those emergencies for which human strength is vain. This day keep our thoughts clean, our hearts pure, and our demeanor upright. Amen.

### Quintet Arrested Near Here Held In Allegheny Jail Will Get Hearing Friday

(International News Service)

PITTSBURGH, Pa., Feb. 19.—Dan Cupid's darts may be devastating to ordinary mortals, but to Uncle Sam and his Federal officers they mean nothing whatever in a small way.

Witness, the plight of four youths and a lass, the latter still in her teens, and all of Cincinnati, charged with transporting a stolen automobile from Ohio into Pennsylvania. The quintet are being held in Allegheny

county jail here today for a preliminary hearing Friday morning.

To get back to Cupid, Patricia Lusk, 20, the prospective bride, and her fiancée, Orville Dove, 21, decided to get married, choosing the Keystone instead of the Buckeye State as the scene for the ceremony.

An imposing entourage was arranged to accompany the bride and groom. The retinue consisted of Russell Mey-

ers, 19; Benjamin Lewis, 19, and Clarence Cole, 18.

Did ever a bride have more chivalrous escort? From Cincinnati to Warren, Ohio, is a long walk, even with the occasional rides given the hitch-hiking wedding party. Love laughed at locksmiths in Warren and the party moved on, Pennsylvania-bound—in a stolen automobile.

The car swooped over the Pennsylvania-Ohio border with a whoop. It went 40 feet farther and stopped. It might have been this or it might have been that. Very probably the gas tank was empty. The wedding party, you see, was not financially embarrassed. They had no finances with which to be embarrassed.

A curious trooper of state police rode up. A few well chosen questions

communicating with Warren, O.,

authorities and the agents of the department of justice here got busy.

Deputy Marshal Lowers was directed to bring the quintet from New Castle, where they were lodged, to this city without a marriage taking place enroute.

All were given a partial hearing before United States Commissioner here and committed to jail in default of \$1,500 bond each for a preliminary hearing Friday.

**SLOW MOTORISTS**

HARRISBURG, Feb. 19.—Up to Monday, February 17, the Bureau of Motor Vehicles had issued 872,426 operators licenses for 1930. Less than two weeks remain for the use of 1929 cards, so that over 1,175,000 operators must make application or be subject to arrest March 1, if they drive motor cars or trucks.

## Woman Who Painted Mussolini Calls Him World's Best Sitter

By DAVID P. SENTNER  
International News Service Staff  
Correspondent  
NEW YORK, Feb. 19.—Mrs. Ginevra Ingersoll Nash, well-known painter and cousin of the late Robert Ingersoll, believes that Premier Benito Mussolini of Italy, provided her with her greatest "artistic experience."

Her portrait of Mussolini is featured in her exhibition at the Ainslie Galleries under the title of "Pictures of Italy." Henry Fletcher, recent Ambassador to Rome and Mrs. Fletcher, were patrons of the exhibition which was attended by His Excellency Giacomo De Martino, Italian Ambassador to the United States and Commandatore Emanuel Grassi, Italian Consul General.

Mrs. Nash spent the last eight years in Italy painting scenes, character studies and prominent Italians.

"I found Premier Mussolini the most considerate and kindly of men," said Mrs. Nash. "He sat for me seven times in his home in Rome. He graciously permitted me to paint at his Rome palace instead of his office because I found the light there better."

"He consented to don his Fascist uniform so that I might carry out my idea of having him standing at an open window looking down on ancient Rome as he dreamed of a new Italy."

"I found Mussolini the easiest and best sitter I have been privileged to paint. I did not ask him to pose—just to let me watch him as he worked. He worked as I worked—telephoning dictating to his secretary, holding conferences and walking about."

Mrs. Nash told of what she had learned of the boyhood of the Italian statesman.

"When Mussolini was a little school boy his mother determined that her son should have his chance," Mrs. Nash revealed. "She visited the educational authorities of her small village and asked them to promise to give her boy a classical education."

"His mother pleaded: 'I have reason to believe that he will one day do big things. The authorities granted the request. I was told that when Benito was twenty years of age he was the greatest classical scholar in all Europe.'

when The News editorial team is going to play them. The answer is when T-bone steaks sell for fifteen cents a pound, or when Jack Sharkey poses for collar ads.

The good weather is showing results out along the roads. At East New Castle the crews are busy on that little jag of concrete leading to the new bridge. Out beyond Harlansburg, Woods and Golder are getting in some licks on the new bridge and approaches, at the corner of Butler and East Washington street men are busy with the preliminary work necessary to cutting that corner off, and it won't be long until the actual construction of concrete highway starts at two or three points.

Those of you who remember Dr. E. Hunter Perry who practised here for a number of years, will be interested to know that he has been made a major in the regular army on the Pacific Coast. Like many other men who went into service during the World War, Dr. Perry found the military service to his liking and he stayed in after the Armistice was signed.

Signs of spring are coming so fast that they won't even be news in a short while. Robins and butterflies and now Bill Kleckner comes through with a pussy willow story. Claims he has the finest pussy willow in the country, which is something anyway.

It won't really be Spring however, until the bluests up in Gaston Park cover a couple of acres with a light blue carpet, and a lot of little kids fill up the rooms of the house with bouquets of them.

itary service to his liking and he stayed in after the Armistice was signed. Dr. William Sankey, a dentist, was another from New Castle who stayed in, and Rev. Richard Merrill, or was it Charley, who entered as a chaplain, is still in the service.

Somebody's woolly dog nearly went to glory in high gear this morning at the corner of Reynolds and Mill. The pup was out for his early morning exercise at seven something or other when a lad came steaming down probably late for work. The wheels of the car came so close to the pup's nose that it probably nearly raised a blister. But you can't frighten a woolly dog by nearly killing him. You have to kill him first and then it doesn't matter.

What a whale of a difference a few months makes. Take a trip to Cascade Park these days and it looks forlorn and desolate. No music, no crowds, no excitement. As quiet as a dark blue suit, looking like a lonely old man sitting out on a bench on the roadside. A few months from now and the forlorn look will drop off, the quiet will be shattered, and Carl Shaner will be as busy as a mince hen in an oat field.

Out on that road which connects the Ellwood Road and the Butler Road, the folks are ready to declare a national holiday, according to Walter Marshall. The supervisors are going to ash the road. All of which means little in your young life but calls for three cheers from the folks who have been imprisoned or nearly so on that road all winter. It's a nice road, when it's dry, but put a little rain or snow on it, and an infantry regiment would have trouble getting through. But they're going to ash it.

## Safety Director Firm On Policy Of Hotel Raids

Philadelphia Official Stands  
Ground In Action Taken  
On Sunday

(International News Service)  
PHILADELPHIA, Feb. 19.—Damage suits against Public Safety Director L. B. Schofield and every member of the police raiding squad that invaded the Benjamin Hotel here early Sunday morning, 24 men and women on charges of illegal possession of liquor were threatened today by William A. Gray, counsel for the Philadelphia Hotel Men's Association.

Gray has been employed to aid any or all of the persons arrested who may wish to bring suit.

Mackey-Schofield Confer  
Back from his hurried trip to Harrisburg which forced postponement of a scheduled meeting yesterday with members of the Hotel Men's Association, Mayor Harry A. Mackey today called on Schofield to outline his policy as regards the manner and methods of future liquor law enforcement at the city's hotels.

Gray as representative of the hotel men will call upon Schofield at 2 p. m. Thursday regarding the controversy.

In the meantime, Schofield as belligerent as ever, indicated his attitude towards the hotels has not changed and friends of the director and mayor foresee the possibility of a definite break between the pair.

Five Are Detained  
The raid on the Ben Franklin was carried out by 30 policemen in plain clothes without any warrants. Two suites of rooms were invaded on the fourth floor while a party was in progress.

gress and the guests were loaded into police vans and taken to a nearby police station. The prisoners included ten married couples and their wives. All were freed later on copies of the charges and at a hearing on Monday only five were held for a further hearing.

The Hotel Men's Association has become extremely bitter over the affair because the raid was carried out without any warrants, and the director has further incensed the owners and managers by threatening to arrest employees and officials of the huge hotel. The danger of losing several conventions already booked for some of the larger hotels here has added to the wrath of the hotel men.

## Kreisler Gets New Idea Of America And Her People

BERLIN, Feb. 19.—It took the New York stock exchange crash of last October to make Fritz Kreisler, world-famed violinist, really understand the American people.

"I thought I knew America and the American people as I know myself," Kreisler said on returning from his American and Western European concert tour. "For 35 years I have been roving over the United States, yet it was not until the stock exchange crash that I really understood what a wonderful, virile race the Americans are."

"The way they bore the destruction of fortunes and the dashing of economic hopes was simply remarkable. In Europe, we should perhaps have had thousands of suicides, and everybody would have been depressed and discouraged."

"In America, everybody, with but few exceptions, bore defeat with a smile. Men and women who overnight found themselves penniless, joked about the misfortune, as though something pleasant had happened to them. Undismayed, people started again from the bottom."

"Then at last I understood America."

## DRINK WATER IF BACK OR KIDNEYS HURT

Begin Taking Salts If You Feel  
Backache or Have Bladder Weakness

Too much rich food forms acids which excite and overwork the kidneys in their efforts to filter it from the system. Flush the kidneys occasionally to relieve them like you relieve the bowels, removing acids, waste and poison, else you may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's urinous waste, begin drinking water. Also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help cleanse and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive and makes a delightful effervescent lithia-water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders. By all means, drink lots of good water every day.

## Women Happiest At 35 To 50 Years Novelist Asserts

NEW YORK, Feb. 19.—The happiest time of a woman's life in the present era are the years between 35 and 50, with the period of greatest achievement and satisfaction often found in the decade after 50, Naomi Royde Smith believes.

This English novelist, who has just come to New York for her first visit to America, was for 16 years literary editor and dramatic critic for the Westminster Gazette. She saw one generation of young English writers follow another, and started some of them on the road to success.

She printed the first poems of Rupert Brooke when he was at Rugby and accepted poetry and essays from Richard Hughes when he was at Oxford. She herself belongs to the idol-smashing generation of her friend, Rose Macaulay, but she didn't start writing novels until she was 40. Since 1925 she has written six books, the last "Give Me My Sin Again." Three years ago she was married to Ernest Milton, the English actor, who has been in New York since September, playing in "Rope's End."

She thinks that the women of the present generation have the best chance for happiness ever offered their sex in the history of the world, and is positive that this pleasant state of affairs is not the result of woman's suffrage, or even of her economic independence, but has come about largely because of the liberating styles of dress which lengthened woman's span of youth and attractiveness at least 20 years.

It doesn't matter in the least to her that the much discussed "flapper vote" brought the voting age for women in England down to 21 from 30, but she considers the abolition of "that abominable, the corset," an event of tremendous importance in feminine history, since it was as a result of short skirts and the corsetless silhouette that women discovered that they need not go on the shelf at 30.

## Tom Mix Denies He Signed Contract

ERIE, Pa., Feb. 18.—Tom Mix, who gained fame as the hero of Western thrillers in the movies, filed an answer in court here yesterday to the \$400,000 suit of Zack Miller, owner of the 101 Ranch show.

In answering the suit of Miller, the screen actor, through his attorney, W. Pitt Clifford, claims there was never any contract signed with Miller for his appearance with the 101 show, as Miller alleges in his petition to the court.

## Find Two Dogs In Deep Pump Hole

GREENSBURG, Pa., Feb. 19.—Trapped in a 65-foot pump hole of the old Oakville shaft, near Latrobe, passersby found two dogs. Latrobe police, notified of the plight of the animals, lowered ropes into the hole in the hope that the dogs would permit themselves to be hauled to the surface. Failing in this attempt, officers decided to put the dogs out of their misery. A shot ended the life of one but the second dog escaped into a cavern under the earth. Now new attempts are under way to supply the surviving animal with food until a way to bring it to the surface can be found.

## Auto Driver Is Killed In Crash

UNIONTOWN, Pa., Feb. 19.—Injuries sustained when his automobile overturned on the icy street, caused the death of Stanley Karpensky, 22, of Buffington who apparently had been uninjured by the wreck. He walked home from the scene of the accident and seemed to have suffered no ill effects. Later he became violently ill and died from internal injuries.

# Hoover Assumes Task Of Picking Radio Commission

Hostile Senate Awaits Selection Of Radio Commission From President Hoover

ROBINSON-SYKES MAY BE LEFT OUT

By WILLIAM K. HUTCHINSON  
International News Service Staff Correspondent  
WASHINGTON, Feb. 19.—With a hostile senate lying in wait, President Hoover today faced a major political and economic test of his leadership in the naming of a new federal radio commission.

The president must name the entire membership of the commission and have his appointees confirmed by Saturday or the commission temporarily goes out of existence. Under existing law, the terms of all present commissioners will expire Sunday and they will be unable to continue in office beyond that date.

**Robinson Well Liked**  
Rumors have spread that the president contemplates naming new commissioners in place of Chairman Ira E. Robinson, of West Virginia, and Vice Chairman Eugene O. Sykes, of Mississippi, while giving another term to Commissioners William D. L. Starbuck, Charles Mack Saltzman, and Harold A. LaFont. If he does this, he will project one of the biggest senatorial battles of his administration, since a large number of progressive senators are ardent supporters of Chairman Robinson.

Some concern was felt on Capitol Hill over the president's plans for the commission. It was pointed out that while Secretary of Commerce, he did not favor commission control of the radio industry.

If he continues to entertain that antipathy for the commission, it was said, he can refrain from naming a new commission and the control of radio will immediately be transferred to the Department of Commerce under existing law. Thus, without action at all, the President can terminate the life of the commission.

Thus far, it was learned, the President has not consulted with Republican leaders over the membership of the commission. Both Robinson and Sykes were named through senatorial influence. Their principal backers are still senators.

In most of his recent appointments, the President has given little consideration to leaders on Capitol Hill. An instance was his naming Charles Evans Hughes as chief justice of the United States, a "personal appointment." Whether or not that was a reason, the appointment of Hughes resulted in the only battle against confirmation of a chief justice in nearly 100 years. Administration leaders finally secured Hughes' confirmation but not before the opposition rolled up the largest vote ever cast against an appointee to the supreme court.

The Hughes fight undoubtedly will seem child's play compared to the anticipated battle over the personnel of the Radio Commission if Mr. Hoover retires only Robinson and Sykes.

## Dairy Specialist To Have Meetings

Will Speak At Several Places In Mercer County In Near Future

The Mercer County Agricultural Extension association has secured Joseph Nageotte, a dairy extension specialist from State College, to assist in conducting a series of dairy feeding and management meetings which will be held throughout Mercer county at advantageous places.

W. S. Hagar, county farm agent has been working on the extension project for some time and has at last secured a very efficient man to assist him in his project. Mr. Nageotte is one of

the best of these experts that are at State College and should give many good and interesting things at his talks.

One of the very interesting features of the program will be that at two of the night meetings, Mr. Nageotte will be assisted by C. H. Muntz who will give a short illustrated talk on dairy conditions in foreign countries. Mr. Muntz will illustrate this talk with pictures that he took when making an extensive survey in Europe.

## Seek Added Funds For Vocational Training In State

Deficiency Bill Asks For \$37,000 Additional To Complete Pennsylvania Payment

By ARTHUR C. WIMER  
Special Washington Correspondent of New Castle News  
WASHINGTON, D. C., Feb. 19.—An emergency appropriation of \$37,000 for the federal board for vocational education is requested in the first deficiency bill now in the House, this emergency appropriation to be distributed so that Pennsylvania will receive the full \$82,832.38 for vocational education to which it is entitled during the present fiscal year and the other states will receive the amounts allotted them.

The first deficiency bill has already been reported by the appropriations committee, and hearings on the bill made public at the same time revealed that a deficiency of \$37,000 in the federal vocational education fund would result this year as a result of the entry of Connecticut, Maryland, and Texas into the cooperative vocational education work.

Under the cooperative program of the federal board for vocational education, Pennsylvania is entitled to \$82,832.38 this year, but this fall amount cannot be paid unless Congress approves the deficiency appropriation of \$37,000 requested by the appropriations committee and carried in the bill given to the house this week.

## Kiwanians Hear Of Washington

Pay Tribute To Memory Of First President At Noon Hour Session

Honage was paid to the memory of George Washington by Attorney W. Walter Brahm in the brilliant address which he delivered before the New Castle Kiwanis club, assembled in the Elks club dining room today at noon.

In a scholarly fashion, Attorney Brahm recounted in detail different experiences which the Father of Our Country encountered, cited by historians as things which developed Washington into the man which he turned out to be.

Washington's ability as a leader; his knack of choosing good men and his many other outstanding traits were discussed. He took Washington's career in general as a conclusion for the interesting message.

## Salvages Deserted Rum Runner's Boat

NEW SMYRNA, Florida, Feb. 19.—Barrie Orton of Coronado Beach, is about \$2,500 ahead as the result of keen eyesight. Some rum runner is the loser.

Orton spied a deserted 35-foot long motor launch drifting in the Atlantic Ocean about seven miles south of here.

He set out with a shrimp boat and overhauled the launch. The drifting boat was literally riddled with bullet holes but it had a perfectly good 150-horse power motor.

Orton towed the craft home and tied it up at the Coronado beach. Then removed the motor which was valued at \$2,500 and stored it, pending the taking of proper steps under the sea salvage law to take legal possession of the motor.

If a doctor fails in general practice, he can go to farming or buy a white coat and become a specialist.

## Lay Top Flooring At First Church

Occupancy Of New Building Some Time Away, Architect Firm Believes

Finish flooring in rooms of the Sunday school unit was being laid today by workmen at the new First United Presbyterian church, corner of Glenmore boulevard and Albert street. Auditorium finish woodwork was also being laid.

Stain glass windows in the church proper, with the exception of one large window, have been set, according to the architect.

No date as to when completion of the work will come about was given out today. It was stated however that occupancy will not be possible for several months.

## Recruiting Station Given Inspection

Local Recruiting station of the United States Navy in the City Building was inspected Tuesday by Lieutenant R. B. Miller, N. S. O. Pierson, naval officer in charge here.

## Small Detail Costs Alien Fine Of \$500

LACKAWANA, N. Y., Feb. 19.—Boris Naumoff, native of Jugoslavia, is minus \$500 because he over-looked a small detail.

Recently he applied to the immigration authorities for permission to enter his wife and their thirteen-month-old baby in this country. He told naturalization authorities he had not been out of the United States since 1913.

"How can you have a thirteen-month-old baby when you said you had been here since 1913?" he was asked.

That stumped him, so he admitted he had gone back to his native land and was married there. He said he had trouble with the military laws

and succeeded in coming back to America. He left his wife in Jugoslavia.

## "Sure Cure" For Goitre Claimed

(International News Service)  
SAYRE, Pa., Feb. 19.—A "sure cure" for goitre has been discovered in Athens, Bradford county, and a number of goitre-inflicted patients are loud in its praise.

The treatment consists merely of taking the patient out in a field when "the moon is in right" and repeating a formula which is being held in the strictest secrecy. The moon does the rest.

Of course, the "doctor" not being licensed, charges no fee but no protest is made by "the doc" when the patient makes him a little present of say from \$25 to \$200. It really does not matter to the "doctor."

## GROVE CITY

Mrs. Pearl Bryant of Lincoln avenue will be hostess to the members of the Women's Club at her home Thursday evening. The evening will be spent socially and lunch will be served.

Mrs. Gordon Hill, Mrs. W. L. McCune and Mrs. Fred Hall will entertain the ladies of the Corterie club at dinner Thursday evening in the home of Mrs. Hill on Garden avenue. The evening will be spent informally.

Mr. and Mrs. L. L. McKay, West Main street will entertain the members of the social club Friday evening February 21st, in their home.

Dr. and Mrs. L. E. Shaffer of Detroit Mich., spent the week end with friends and relatives here. Dr. Shaffer is a son of Mrs. Rose Shaffer of North Center street who is suffering from a broken hip at the Baseline Rossman Hospital.

## POOR FARM WELL PRODUCES OIL

KANSAS CITY, Kas., Feb. 19.—It sounds silly, but the Wyandotte county poor farm may become a rich farm.

A Tulsa oil producer has offered to lease the oil and gas rights at the farm following discovery of oil Monday in a well being drilled for water. The well is producing 30 barrels a day in sand at 410 feet.

## Man Seeks Wife He Left In America

(International News Service)  
HARRISBURG, Pa., Feb. 19.—Police here are searching for the wife of a musician who wrote from Germany stating that he has not heard from the girl whose heart he won and married here eight years ago since 1927.

The man gave the name of Gegerio Domingo and the letter bore the postmark of Hagen, Germany and gave an address in Hamburg as his residence. He failed, however to mention the maiden name of his wife or furnish a description.

The letter states, police said, that the forlorn husband was compelled to go to Europe shortly after his marriage to the girl here and has been there ever since.

He said he and his wife wrote to each other frequently from 1923 when he left this country until 1927 when their child died. He has not heard from her since.

## Bible Translations Made For Eskimos

NEW YORK, Feb. 19.—Two North American languages were added in 1929 to the long list of over 800 tongues into which the Bible or its parts have been translated according to a statement by the American Bible Society.

The Book of Psalms translated by George Allen and his daughter of San Pedro, Bolivia, has been published in Bolivian uechua, a language spoken by a large Indian population in the Andes Mountains. The Book of Proverbs published early in 1929 was the first portion of the Bible to appear in the new Turkish alphabet in obedience to the edict of the government forbidding the further use of the Arabic alphabet.

## WOMAN, 23, OBTAINS FREEDOM THIRD TIME

SAN FRANCISCO, Feb. 19.—Holding what is believed the record for divorces at 23 years of age, Mrs. Helen Spellman, walked from superior court here freed from her third husband.

She sought an interlocutory decree from John W. Spellman an auto salesman, because he answered her questions with blows when he came home late at night.

NEW YORK, Feb. 19.—Two North American languages were added in 1929 to the long list of over 800 tongues into which the Bible or its parts have been translated according to a statement by the American Bible Society.

The Book of Psalms translated by George Allen and his daughter of San Pedro, Bolivia, has been published in Bolivian uechua, a language spoken by a large Indian population in the Andes Mountains. The Book of Proverbs published early in 1929 was the first portion of the Bible to appear in the new Turkish alphabet in obedience to the edict of the government forbidding the further use of the Arabic alphabet.

## WOMAN, 23, OBTAINS FREEDOM THIRD TIME

SAN FRANCISCO, Feb. 19.—Holding what is believed the record for divorces at 23 years of age, Mrs. Helen Spellman, walked from superior court here freed from her third husband.

She sought an interlocutory decree from John W. Spellman an auto salesman, because he answered her questions with blows when he came home late at night.

## A Dangerous Combination

A CURIOUS little girl and a box of kitchen matches make a dangerous combination, warns the National Safety Council. Aside from the ever-present fire hazard, there is the chance that she will leave them lying about where little brother, who thinks everything is good to eat, can get at them.

## Thomas Edison Is Quite Optimistic Regarding America

Famous Inventor Says Only Small Part Of Nation's Resources Being Utilized

ONLY TROUBLE IS OVERDOING THINGS

By JAMES L. KILGALLAN, International News Service Staff Correspondent  
Copyright, 1930, By International News Service  
PORT MYERS, Fla., Feb. 19.—Thomas A. Edison is an optimist on America. Business prospects seem "all right" to him. Only a very small part of the country's vast resources are being utilized, he pointed out, and "never before have times been any better".

The famous inventor expressed these views today in an exclusive interview in his laboratory here where he was found hard at work on his rubber plant experiments. Because he is practically deaf the questions were put to him in writing and he answered verbally. The interview lasting more than an hour. The 83-year old genius did not appear to be all tired.

**Too Many Farmers**  
Edison said, among other things, that "we have too many people in the farm business" and he thought it would be a good idea if a lot of them went into the towns and took up manufacturing.

"What do you think of the business outlook?" was one question put to the inventor of the electric light, the phonograph, the motion picture camera and numerous other devices.

"I think it will come out all right," Edison replied, optimistically. "Our only trouble is excesses—overdoing things."

"Did we overdo in the speculating in stocks in Wall street?"  
"Yes, and we overdo in everything else."

**Need Organized Brains**  
Does business need any one particular thing—more brains, more hard work, or what?" he was asked.

"More highly organized brains," Edison answered promptly. Adding: "Yet this country seems to have a large number of men with brains."

"Have you ever seen the country in better shape than at present?"  
"No, I never have."

"What per cent of America's vast resources are being used, in your opinion?"  
"I should say five per cent," replied Edison after a pause.

The present "machine age" in which we are living in helping the world "very much," according to Edison, and he expressed the opinion that eventually machines will do away with man power. He said man power will be supplanted by brain power.

**Enters Discussion**  
Edison suddenly launched into a discussion of the farm and the manufacturing situation, declaring: "We have too many people in the farm business. We have 120,000,000 stomachs to feed in this country. The demand for things to fill that number of stomachs is necessarily limited. The farms, however, produce more

## First Photo of Mexican Assassin

Telephoned picture of Daniel Flores (right) youthful Mexican, who shot and severely wounded President Pascual Ortiz Rubio and members of his family a few hours after his inauguration. At the left is the officer who captured the would-be assassin. While previously Flores stoutly maintained he had attempted to assassinate the President for purely personal reasons, it is now reported the act was a result of Senor Ortiz Rubio's initiative in the rupture of diplomatic relations between Mexico and Soviet Russia.

## New Wilmington Drops To Mercer

Mercer High Quintet Hands New Wilmington High 35 To 21 Beating Tuesday

(Special To The News)  
MERCER, Pa., Feb. 19.—The Mercer high school basketball team defeated New Wilmington in a fast game played last night. The final score was 35-21. The game was good, in fact one of the best that has been played in high school competition in this district. Close guarding and excellent play marked the work of both teams. Practically all points scored by field goals were long shots, often from the center of the floor.

New Wilmington presented a good front to the Mercer boys but they were on a strange floor. The excellent shooting of Richardson was a bit too good, for the little blonde lad from Mercer was a sharpshooter and hooked them in from all angles. Mason, another Mercer man, was just as good and played a great game at guard, stopping several shots that were right under the basket.

Hartwell and Brownlee were the best for New Wilmington.

Coch Kelly's boys were good, they have won their last three games and 12 out of 15. He is another Westminster college athlete making a name for himself in the coaching world.

The summary:  
Mercer High 35 N. Wilmington 21  
Richardson ..... F. .... White  
Ringer ..... F. .... Myers  
McCartney ..... C. .... Brownlee  
Miller ..... G. .... Hartwell  
Mason ..... G. .... Davis  
Subs—Mercer: Nickum, Black, Sutton, Patterson, Montgomery, New Wilmington: Gilliland.  
Field goals—Richardson 6, Ringer, McCartney 3, Miller, Mason 4, White 2, Myers, Brownlee, Hartwell 2.  
Fouls—Mercer 5 out of 6, New Wilmington 9 out of 14.  
Referee—Noite.

## Will Direct Singing At Big Celebration

Former Resident Of This City Leads Music At St. David's Day Event

Local friends of Thomas D. Richards of Warren, O. former well known singer and resident of this city, will be interested to learn that he has been selected for the fifth consecutive time to sing and also direct the musical program of the St. David's day celebration in Canton, O. which will be held Saturday, March 1. This is the largest event of the kind held in this country and it is a great honor that has been accorded Mr. Richards. He had offers from Baltimore and Martins Ferry but decided to accept the invitation to the Canton affair.

He will be heard in several selections and will also have with him on the program David and Kenig Harris of the London Carl Rosa Opera company, J. Gwinfray Thomas of Wales and Mrs. Ronald Masters of Youngstown, Mr. Thomas is considered one of the finest baritones that has come to this country from Wales in many years. He is visiting in this country at present and he was secured for the event.

## Calahan Calls At Boy Scout Office

Enroute Back To New York After Two Weeks' Tour Of Inspection

J. Lee Calahan, new deputy chief scout executive in charge of sea scout activities for region three, a former head of Boy Scout work in Lawrence county, stopped off for a brief call at local Boy Scout offices this morning while enroute back to New York City from Erie, where he concluded a preliminary inspection tour of sea scout operating points in Illinois, Indiana, Ohio and Pennsylvania.

Visits were made to Chicago, Michigan City, Fort Wayne, Toledo, Cleveland and other cities before his final stop at Erie. Inspections of sea scout work in these different places were made during the trip, which lasted two weeks or more.

On returning to New York, Mr. Calahan said today that he will immediately settle down to a study of the findings which he obtained in the sea scout districts. After a week of this another inspection tour of a different territory over which he also exerts jurisdiction will be commenced.

Exact location of his permanent headquarters has not been determined as yet, he stated today. He has not assumed active direction of sea scout work as yet, but expects to have a few weeks of additional inspecting.

## CHILDISH PRANK STUNS PARENTS

(International News Service)  
KANSAS CITY, Feb. 19.—Another example of childish exaggerations John Kincaid, 9, found after having run away from home, confesses to parents he spent the night sleeping beside a big white bear.

Amazed, John's parents wonder all day long until the child finally admits he slept outside a bear cage.

## Fashion Revue To Be Feature Of Automobile Show

Arrangements Have Been Completed For Added Attractions At Big Exhibition

Announcement has been made by the general committee in charge of the coming automobile show at the Cathedral on February 27, 28 and March 1, that one of the big added attractions which will prove of interest to the women, will be a fashion revue. The fashion revue will be presented between 8 and 9 o'clock each evening of the show in the auditorium, under the direction of the New Castle Dry Goods Co.

The newest spring styles in women's and misses' wearing apparel will be presented by attractive models.

Announcement of additional features of the big show will be made during the next few days, plans for the show having been practically completed.

## Pittsburgh Rumor Has No Foundation

Somebody Starts Rumor In Pittsburgh That Irene Makes Get-away

From the well of impossible things, comes a rumor today that is so ridiculous that it hardly merits a denial, but because such things sometimes gain credence in spite of their utter impossibility, one is being published.

In Pittsburgh today a rumor gained much headway on the streets of the city that Irene Schroeder, the Benwood blonde, had escaped from the county jail here. Lawrence county residents know that escape from this fortress of justice is something rarely accomplished, but in the case of Irene Schroeder it is even more impossible for she is confined to her cell all the time.

How the rumor started is hard to say. There has been no incident that would even lend the slightest color to such a report, and because of the notoriety given her, Sheriff Frank N. Johnston has taken extra precautions that no attempt at escape would be made.

To repeat, the rumor is too ridiculous to merit a denial, but in the event that there is any person glib enough to believe it, this is a flat denial.

## Flowers Moved To Make More Room For March Court Term

In order to make room in the law library during the March term of court when it is expected that all available room will be needed on account of the two murder trials, the potted plants which have been so carefully nurtured by Mrs. Winifred James, librarian, have been moved to her home.

Mrs. James is an expert in the culture of flowers and her collection, which has graced the law library, is one of the finest in the city. Attorneys and officials are sorry to see them go and hope that they may be brought back after the excitement is all over.

## Farmers To Meet At Millburn Hall

Mercer County Agricultural Extension Society Meeting On Thursday

The annual meeting of the Mercer County Agricultural Extension Association will be held at Millburn Grange Hall, four and one half miles south of Mercer and one mile west of the Perry Highway, on February 20, Thursday, beginning at 10:00 o'clock in the morning.

Reports on the work of the association will take up the morning session and the afternoon session will be a series of speeches by specialists. Earle Moffett will speak on "Farm Management Problems." He is the farm management expert from State College, Miss Harmony Hutchinson, of the Home Economics Department

of State College, will talk on "Home Furnishings."

Miss Helen Baker of Grove City will give a review of the things pertaining to the "Girls and Boys Camp" at the Eastern States Exposition, held early in November.

The Ladies Club of Millburn Grange will serve dinner at noon.

## Former Local Girl! Gains Recognition

Mrs. Sylvia Barnes Thomas Now Organist And Choir Director In Wilmington, Del.

Mrs. Sylvia Barnes Thomas, daughter of former mayor, S. A. Barnes, is acquiring a wide reputation in musical circles in Wilmington, Del., where she is now located.

Mrs. Thomas is now choir director and organist at St. Stephen's Evangelical Lutheran church in Wilmington. Prior to her marriage, she had

been engaged as a missionary at Singapore, Straits Settlement, where she was busily engaged as public school music supervisor and teacher in the three Methodist schools there and in addition taught piano to a class of students which included Chinese, Indian, Japanese, Eurasian, and English and American pupils.

Mrs. Thomas is now studying organ under Ralph Kinder of Philadelphia. She was formerly organist at the Mahoning M. E. church, Christ Episcopal church in Meadville and St. Paul's Methodist church at Tulsa, Okla.

Mrs. Thomas is a graduate of New Castle high school and Beaver College. She also studied pipe organ and voice culture at Allegheny College and was pianist and leader of the girl's glee club. She is a member of Alpha Zeta Delta sorority.

## "Man In Green Hat" Stirs Up Capital

(International News Service)  
WASHINGTON, Feb. 19.—The ar-  
rest of George Cassidy, the "Mysteri-  
ous Man in the Green Hat" in front  
of the senate office building on  
charges of bootlegging, was cited to-  
day by senate advocates of a prohibi-  
tion inquiry as another reason for  
investigating dry law enforcement.  
Senator Wheeler (D) of Mont., who  
sponsored a resolution for a sweeping  
senatorial inquiry into all activities  
of the prohibition bureau, declared  
the actions of the "Man in the Green  
Hat" ought to be investigated. Sen-  
ator Jones (R) of Wash., author of  
the "five and ten" law, went further

and said the senate ought to learn  
"who" Cassidy intended to see in  
the senate office building. The structure  
houses the private offices of senators  
and their hundreds of clerks.  
"This episode ought to be the sub-  
ject of a senate inquiry," said Wheel-  
er, "it is one more reason why the  
senate ought to investigate prohibi-  
tion enforcement and its enforce-  
ability."  
"There is evidently something  
wrong," said Jones, referring to the  
fact that Cassidy has twice been ar-  
rested in front of the senate office  
building. "It ought to be brought out,  
if possible, why he was going there  
and whom he intended to see."

the sharp advances in the public utility  
and specialty stocks today, the  
market was unable to make very much  
progress in the upward direction.  
Selling pressure against the oil stocks,  
the coppers, the rails, motors and other  
important groups effectively  
blocked the road to higher prices,  
while profit-taking in U. S. Steel and  
a dozen or more speculative leaders  
held them back to the level of yester-  
day's closing prices.  
**Stocks Take Jump**  
Powerful bullish forces in the stock  
market struck with all their might at  
the bears in the public utility stocks.  
American and Foreign Power jumped  
5 points to 101 1/2 in heavy trading.  
Brooklyn Union Gas advanced 7  
points to 173; American Power and  
Light 4 points to 100; Standard Gas  
2 points to 124 3/4; Electric Power and  
Light and other lower-priced utilities  
a point or less.  
Manipulation of the utilities was  
comparatively easy because of the  
small volume of "floating supply" of  
stocks of this class.  
Steel stocks lost their brilliant mo-  
mentum as the result of heavy sell-  
ing, based on the Iron Age's indiffer-  
ent weekly survey of the steel trade.  
Demand for steel is uneven, with de-  
clines in some districts offset by in-  
creases in others according to this  
authority.  
Thus far the students who have  
attempted to make college expenses  
by holdups have succeeded only in  
holding up their college courses.—

## RADIO STATION LINKS WETS AND DRYS IN TEXAS

Station Erected On Mexican  
Side To Evade Federal  
Control

(International News Service)  
McALLEN, Texas, Feb. 19.—Wets  
and drys are, for once, to be united  
when McAllen, Texas, and Reynosa,  
Mexico, join hands across the Rio  
Grande boundary in the construction  
of a powerful international radio  
broadcasting station with studios on  
both the Texas and Mexican sides.  
Station XIBG, for which plans are  
being rounded out, will be in Reynosa.  
It is planned as a 5000-watt station,  
the largest in Mexico and ranking  
equally with other southern stations.  
Programs are to be in both English  
and Spanish.  
"J. N. Kincaid, wealthy San Anto-  
nio cattleman, is backing the sta-  
tion," said Whit Rogers, station man-  
ager. "But putting it on the Mexican  
side will avoid the necessity of get-  
ting a permit from the federal ra-  
dio board at Washington. Therefore  
we can have any power and any wave  
length we wish."

## AS SEARCHERS HUNTED FOR MISSING BOY

A view of one of the wierdest chapters in the Melvin Horst mystery as the entire back yard of a home formerly occupied by Charles Hannah, of Orrville, Ohio, was excavated in an attempt to find the body of the missing boy, Hannah, under constant police grilling, accused Earl Conald of slaying Melvin and burying him in the yard, later naming a valley three miles from Orrville as the place where the body was taken. Conald, after accusing Hannah of the crime, has refused to answer questions.

report showed, saved 741 lives dur-  
ing the year.  
A total of 341 lives were lost from  
all causes at sea on ships that are re-  
quired to submit to the service's regu-  
lations. Of these, 272 lost lives were  
suicide, accidental drowning and other  
causes not included in collisions,  
foundering and sea accidents, which  
the service seeks to cut down.  
Dickinson N. Hoover, supervising  
inspector general, considered the re-  
cord enviable. He arrived in New York  
yesterday with twelve other inspec-  
tors to consider problems in the so-  
called demarcation line of the New  
York Harbor. The importance of  
this imaginary line is that certain  
life-saving equipment is required for  
boats that navigate inside it as dis-  
tinguished from boats that go outside  
it.

**GHOST HAUNTS  
PULLMAN SHOP**

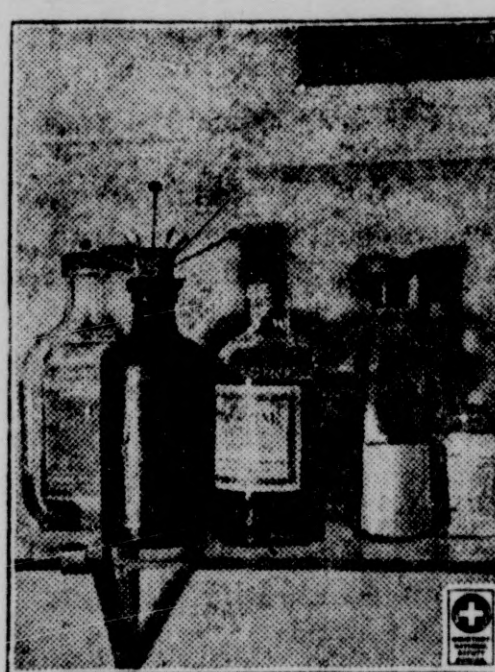

**Workers in Michigan City Plant  
Uneasy As Night  
Falls**

CHICAGO, Feb. 19.—There is a  
headless ghost roaming around the  
shops of the Pullman Car and Manu-  
facturing plant at Michigan City

Ind. John Laudwich, a workman,  
claims he saw it and hasn't been back  
to work since.  
According to his tale, it was about  
midnight when he was walking  
through the gloomy car shed and  
heard a muffled tapping. Searching  
for the cause, he found a headless  
figure rapping on the side of a new  
car.  
Laudwich hurled a brick at the  
apparition and it returned the com-  
pliment by casting an overcoat over  
his head. There may be some doubt  
as to the specter but he has the  
overcoat as tangible evidence. When  
Laudwich disentangled himself he left  
the scene without further investiga-  
tion.  
The episode recalled the disap-  
pearance of a Negro worker several  
months ago and reports that he had  
been murdered and his body burned  
in a furnace.  
An explanation much less con-  
vincing to the superstitious element  
attributed this disappearance to ef-  
forts by the police to arrest the man.  
But nevertheless, workmen about  
the plant at night are somewhat  
uneasy and can be seen casting ap-  
prehensive glances over their should-  
ers.

## No Chance for Mistake

YOU would never think any one  
would grope around on a shelf

persons do. And some of them get

them to leave that bottle alone.

## Jurist Hits At "Epidemic" As Rum Vanishes Quickly

Judge Questions Consumption Of  
42,755 Pints Of Pre-  
scription Liqueur

(International News Service)  
DALLAS, Texas, Feb. 19.—Naively  
wondering at the "peculiar suscep-  
tibility" of Dallas residents to "epi-  
demic disease," a federal grand jury  
reporting to Judge William H. Atwell

here questions the local consumption  
of 42,755 pints of prescription whisky  
in a year's time.

Of six counties embraced in the  
report on consumption of such li-  
quor, Dallas had by far the highest  
ratio, the jury found. Residents of  
this county, previously characterized  
nationally as being on the damp side,  
consumed 2 pints plus per person  
during the last year.

Questioning the whole business of  
legal whisky, the jury further won-  
dered why so much rum is needed  
in 22 states where it is sold as medi-  
cine, while in the other states there  
is no apparent demand for it. It saw  
no reason for this fact "unless in  
those states prohibition medicinal  
liquor the medicinal requirements  
are supplied from illegal sources.

And having Sherlocked that much  
the jurors also deducted:  
The physician's prescription of  
whisky is limited only by his sup-  
ply of prescription blanks and his  
"standard of professional ethics, re-  
quirements of his patients, the urge  
of competition and his ambitions  
in the character of practice he  
seeks."

The report points to the ease  
with which intended medical whis-  
ky might be withdrawn for beverage  
purpose, and cites a plausible scheme  
which might be used.

## ANOTHER CONFERENCE STUMPED ON TONNAGE PROBLEM

## Doctors Hear Of Cure For Cancer

Coast Doctors Gather To Hear  
Cancer-Cure Inventors  
Tell Of Accomplish-  
ments

(International News Service)  
LOS ANGELES, Cal., Feb. 18.—Fully 1200 leading doctors of Southern California heard doctors Walter J. Coffey and John D. Humber tell of their experiments with a serum which is reported to be effective in treatment of cancerous tissue.

Dr. Coffey told his fellow-physicians that he believed that he and Dr. Humber had discovered an extract from a region of the supra-renal gland which is potent.

"We believe it is a hormone," he said. "Further research will determine how close we are to absolute facts. Hundreds of patients have been receiving our treatments recently. It is too early yet to make any definite affirmations that would satisfy the professional colleagues."

"But when we see case after case in which the extract reduces or abolishes suffering and softens the hard lumps of malignant tumors, it is impossible to evade the tentative conclusion that we have the hormone that plays the crucial part in the stability of the system."

Comment Offered  
In commenting on the extract, Dr. Humber stated:

"We have no doubt that our extract kills cancer tissue without injuring the normal tissue and without any constitutional disturbance to the patient."

His statement was elaborated upon by Dr. A. M. Moody, head of the laboratories at St. Francis hospital, San Francisco, who declared:

"That the effect of the extract is far more powerful in the killing of cancerous tissue than that of either Radium or the X-Ray which cause injury to normal tissue."

That numerous cancer cases have distinctly shown melting away of cancer cells after three or four injections of the cancer extract."

Dr. Coffey was explicit in pointing out that he or Dr. Humber made no claims of curing cancer.

"I need not repeat that," he said. "Our present work is purely experimental and centered upon the nature and effect of our potent hormone. If patients are relieved of their disease,

that interests us deeply. If they die, then our interest in the post mortem examination of their cancer growth is equally great, for we aim to know what happens inside the body when our extract circulates and affects the inside cancers."

## Joint Meeting Is Slated For March

Will Invite Lions Clubs Of District  
To Be Guests Here  
March 11

Lions from Beaver Falls, Butler and Farrell will be invited here to participate in a joint evening get-together on Tuesday, March 11, it was decided at Tuesday's meeting of the New Castle club at the Elks club.

The four service clubs met jointly in December when District Governor David R. Perry of Altoona came here to make the principal address.

Those in charge have proposed an inter-club bowling match for immediately following the meeting. This will comprise a return meet for the locals since 12 men of the New Castle club motored to Farrell this past week and engaged them on the alleys.

Business of importance, both special and miscellaneous, was transacted at today's meeting.

Lion Earl Book, chairman of the blind work committee; Lion Earl Ramsey, chairman of the program committee; Lion Jay Reed, Lion Charles Streib and King Lion E. D. Marvin spoke today. Considerable interest was manifested in the blind work report of Mr. Book, who reported that 50 school children are in need of glasses here.

Adopt Rules For  
School Carriers

HARRISBURG, Feb. 19.—Standards for transportation conveyances which will insure greater comfort and safety to the children who are transported to schools in Pennsylvania have been adopted by the State Council of Education.

The school law provides that transportation may be made by school conveyances, private conveyances, railroads, and other common conveyances. All vehicles must comply with the motor code.

The new standards include form of contract, conveyance requirements, driver qualifications, methods of operation covering schedule and safety precautions, and waiting stations or shelter provisions.

## Keep Free from FAT in excess; it's easy now

Modern science has found that excess fat is largely due to an under-active gland. Starve as you will, exercise as you will, you are bound to fail unless you correct the cause.

That gland largely controls nutrition. When it is weak, too much food goes to fat, too little to fuel and energy. So modern physicians, in treating obesity, supply the gland substance which is scant.

That is the method employed in Marmola prescription tablets, prepared by a famous medical laboratory. People have used them for 22 years—millions of boxes of them. Anybody, in any circle, can see what a change has come. Excess fat is disappearing fast. New youth and beauty, new health and vitality, are conspicuous everywhere.

If you are abnormal in your weight, a certain gland is abnormal. Try Marmola. Feed the factor lacking. Watch the pounds go, the new vitality return. You will be amazed and delighted. But the formula in each box of Marmola will tell you the reason. To people who know, there is no excuse today for obesity. Start to remedy that ill condition now.

Marmola prescription tablets are sold by all druggists at \$1 a box. Any druggist who is out will gladly order for you.

## Boys' Chorus To Represent State In Music Tests

HARRISBURG, Feb. 19.—Reports received at the Department of Public Instruction shows that Pennsylvania high school instruments will be well represented in the National High School Orchestra which will play for the school superintendents of the nation at the National Education Association meeting in Atlantic City, February 22-27.

The responsibility of selling Pennsylvania to the country, at least from the public school music standpoint, rests on the shoulders of the Cass township, Schuylkill county, Boys' Chorus which will also appear on the National Education Association program at Atlantic City. This unique choral group and the director Miss Mary Muldowney won the unanimous acclaim of Pennsylvania school directors, through the excellent rendition of one, two, and three part numbers from some of the world's greatest composers, before the recent State Association meeting in Harrisburg.

The organization consists of seventy-five boys representing fifteen different nationalities and ranging from ten to thirteen years of age. More than 90 per cent. of them come from miners' homes in the various villages of Cass township. They have been pronounced by musical critics the finest boys' choral group in this country and Pennsylvania will look to these boys to convince the rest of the country that our State has the best public school of music in America.

HELP! ASSISTANCE:  
Editor News  
Dear Sir:

What is a Styme?  
The other day a well informed gentleman in describing an excessively dark night, used this expression, in my presence. "It was so dark I could not see a Styme."—On my enquiring what a styme was, he had to admit he did not know, although he had heard the expression all his life.—I have heard this expression used many times by persons of Saxons, Scotch Irish descent, but have never found one yet who could tell me what a Styme was—I imagine it is an obsolete old saxon word—but it is a mere guess.—I wonder if George Conway, Bart Richards or my old friend Charley Anderson of Axis Alabama, could not define it.—They all write in a very entertaining way of just common things. On their failure maybe some our learned professors might be able to enlighten us; even if it should be in a little dryer and dustier way.—Or any of the News readers for that matter, if they can get their mind off Irene long enough to do it.

## Over Two Hundred Expected At Civic Reception Thursday

Representatives Of Various Clubs To Give Addresses At Welcome To Chamber Secretary

ELLWOOD CITY, Feb. 19.—Over two hundred are expected to attend the reception to be given Thursday evening in the form of a dinner in the dining room of the Lutheran church at 6:30. The affair is being given by the Chamber of Commerce, Kiwanis and Rotary clubs as a welcome to the new Chamber of Commerce secretary T. W. Bruce.

A program of music and speeches has been arranged, and representatives from all the clubs will give short addresses. Although all the reservations are not yet in at the Chamber headquarters, it is expected that there will be a large crowd at the dinner. Mr. Bruce comes here highly recommended in Chamber work and it is expected that he will have many new ideas to embody in his career in Chamber work here. C. P. Cook is in charge of arrangements, and the Chamber wishes all cards turned in today from those who have not as yet signified their intentions of attending the banquet.

## W. C. T. U. Members To Attend Services Of New Castle Member

ELLWOOD CITY, Feb. 19.—Many members of the local W. C. T. U. plan to attend the funeral services of Mrs. Anna McCrory Thursday afternoon at 2:30 from the home of her sister Mrs. Flannery at 220 Pearson street in New Castle.

The Frances Willard Memorial was formerly planned for 2:30 Thursday afternoon but has been changed until 8 o'clock so as to permit local members to attend the funeral services of their highly respected friend and member.

## Inter-City Club Goes To Valley

ELLWOOD CITY, Feb. 19.—Miss Alma Graham of Beaver entertained the members of the Inter-City bridge club in the Valley Tuesday afternoon with a one o'clock luncheon. Covers were laid for eight and the following hours were spent at bridge. At the end of the pleasant interim, score honors went to Mrs. Frank Moltrup and Mrs. J. C. Boyce. In two weeks Mrs. Theodore Markwort of South Ellwood Heights will entertain.

Mrs. Owen Trehanne of Butler spent yesterday visiting her parents, Mr. and Mrs. Adams of Second street. Mr. and Mrs. George Pugh of Second street were Pittsburgh visitors last night. Mrs. Lillian Thomas of Glen avenue was a Beaver Falls visitor yesterday.

## Crowds Continue To Throng Church Here

MRS. GEO. DIBBLE

ELLWOOD CITY, Feb. 19.—A larger crowd than the night before was in attendance at the meeting last night in the First Baptist church, Ellwood City. The Dibble party expressed themselves as being amazed at the attendance and before the meeting goes on much longer the church will be filled to capacity it is predicted.

Mr. Dibble believes in singing without words and music before one and consequently he uses little choruses with attractive messages very often in his meetings. Last night he introduced a new one called, "Lord, keep me shining for Thee."

Mr. Mustaine contributed a piano solo last evening using his own arrangement of difficult arpeggio and octave runs on the revival song, "When the roll is called up yonder."

Mr. Dibble again last night sang several requests he was unable to fill the night before. The song which is always asked for more than any other "The Old Rugged Cross," was one of the songs he sang and he used "The Ninety and Nine" in a wonderful way also. Just before the message of the evening he sang a song given him.

## Alumnae Banquet Is Well Attended

ELLWOOD CITY, Feb. 19.—Over 100 members of the Beaver County Alumnae Association of Grove City College attended the banquet Tuesday evening in the Broadhead hotel in Beaver Falls. The address of the evening was made by John D. Meyer, retiring Federal District Attorney of Pittsburgh. Wier C. Ketter, president of Grove City College and Dean Calderwood, also gave short talks.

**CONDITION UNIMPROVED**  
ELLWOOD CITY, Feb. 19.—The condition of Mary Fortney, small daughter of Mr. and Mrs. Frank Fortney of North Sewickley, remains unchanged. She has been ill with pneumonia for some time.

**R. G. CLUB**  
ELLWOOD CITY, Feb. 19.—Members of the R. G. Club are scheduled to meet with Mrs. Myrtle Moon of Hazel avenue Thursday night.

## Club Members Give Shower For Bride-To-Be At Meeting

ELLWOOD CITY, Feb. 19.—Mrs. W. A. Kerr of Park avenue entertained the members of the J. E. B. club Tuesday evening at her home, and a surprise feature was a shower for her daughter Miss Virginia Kerr, whose marriage takes place March 22. Lovely gifts were given to the bride-to-be and provided a pleasant interlude at the meeting.

Two tables of bridge were in play and at the conclusion of a pleasant evening, score honors were won by Mrs. L. Oulom. Later delicious refreshments were served by the hostess, assisted by her daughter, Miss Virginia. In two weeks the club members will be entertained at the home of Mrs. Loren Springer of Fifth street.

## LARGE CROWD IS SERVED AT SUPPER

ELLWOOD CITY, Feb. 19.—A large number of people enjoyed the annual chicken supper Tuesday night at the M. E. church. The affair was sponsored by the Ladies Aid society and a nice sum was cleared from the event.

**LEAVES FOR SCHOOL**  
ELLWOOD CITY, Feb. 19.—Harry Porter of Fifth street left recently for Philadelphia where he has enrolled for a two-months post-graduate course in the Howard S. Eckles school of Sanitary Science and Embalming.

**HOSPITAL NOTES**  
ELLWOOD CITY, Feb. 19.—Admitted yesterday; Frances Sobeski of this city and Jake Vick of Rosanna street.

**THURSDAY CLUB**  
ELLWOOD CITY, Feb. 19.—Members of the Thursday bridge club are scheduled to meet tomorrow at the home of Mrs. Joseph Smith of this city.

**BRIDGE PARTY**  
ELLWOOD CITY, Feb. 19.—Mrs. Theodore Markwort of South Ellwood heights is entertaining a number of guests Thursday night at a Colonial bridge.

## Animal Dentistry Practiced At Clinic

(International News Service)  
BOSTON, Mass., Feb. 19.—The pain of a cat or dog bite might be somewhat relieved if the victim has the knowledge that the animal sports a mouthful of gold filled teeth.

Animals who suffer infected teeth are now benefitted, much as humans, by a dental clinic, held at the Animal Rescue League where teeth are extracted in a modern way. If the case is serious, and the pain is too intense for the cat or dog to withstand, gas is administered.

"We do a tremendous amount of dental work," Dr. W. A. Young, operating surgeon of the Animal Rescue League said. In the latest case reported by the League "Tit-Tat" a family pet cat had seven infected teeth and a section of jawbone removed, under gas.

When the times comes, an appropriate inscription on the monument to Senator Sheppard might be "He Started Something." — The Florence (Ala.) Herald.

## Annual Memorial Of Anna Willard On Thursday

Fine Program Arranged By W. C. T. U. In Celebration

ELLWOOD CITY, Feb. 19.—The local and North Side members of the Women's Christian Temperance Union will observe the annual Anna Willard Memorial Thursday evening at 8 o'clock at the home of Mrs. Myrtle Osborne of Fourth street. A program for the event has been announced as follows:

Music—by the Union.  
Reading—Miss Gail Brown.  
Address—Mrs. J. R. Routledge.  
Music—Trio, Misses Beryl Boats, Marie McKim, Beulah Hertzog.  
Reading—Miss Marie McCandless.

## MORAVIA STOP

### Given Surprise On 75th Birthday

Moravia Stop Scene Of Pleasant Surprise Event—Other News Notes

(Special To The News)  
MORAVIA STOP, Feb. 19.—Mrs. Reachel McClintick of Spring Stop was pleasantly surprised on Saturday evening, February 15th when her children, grandchildren, great grandchildren and a number of friends gathered at her home to celebrate her seventy-fifth birthday. The reunion was very much enjoyed by all those present and most of all by the honor guest who suggested that the occasion be repeated quarterly. Many useful and beautiful gifts testified to the love in which Mrs. McClintick is held. Among the gifts was a purse of money. A very delicious lunch was served by the daughters and daughters-in-law. The guest list included Mr. and Mrs. Elton McClintick, son Donald and daughter Mae, Mr. and Mrs. W. D. Manning, all of Ellwood City, Mr. and Mrs. Gene McClintick, sons, Gene, Jr., Jack and Billie, Koppel, Pa., Mr. and Mrs. Britton McClintick, sons Ray and Harold and daughter Mildred from Salem, Ohio, Mr. and Mrs. Raymond Brandt, son Ray, Jr., Mr. and Mrs. William Gasser, son Billie from Slippery Rock Stop, Mr. and Mrs. Russell Campbell, daughters June and Ruth, Mr. and Mrs. Chas. Young, sons Wayne, Gene and Mahlon, Mrs. Mary E. McClure from East Palestine, O. Mr. and Mrs. Frank Young, sons Clyde and Charles, daughter Goldie from Moravia, Mrs. Martha Burgin, daughters, Mary Lou and Jacqueline, Garth and Carl Campbell, Mr. and Mrs. Harry James, son Harry, Jr., Miss Lola Shaffer from Spring Stop, Dale Natcher and Everett Pander, from New Castle and Walter Sonntag of Energy.

**MORAVIA STOP NOTES**  
Mrs. Mary E. McClure of East Palestine, O., has been the guest of her aunt Mrs. Reachel McClintick for the past week. Mrs. McClintick returned to her home with her and expects to remain for several weeks.

Mr. and Mrs. Fred Kaldy were weekend guests of Mr. and Mrs. Joseph Barson of Ellwood City.

Clyde Young has been suffering from an attack of grip for several days.

Mr. and Mrs. R. F. Houk and daughter Marjorie motored to Darlington Sunday.

Mr. and Mrs. James Hogue and family spent Sunday at the Milton Hogue home on the Ellwood-New Castle road.

Jean, little daughter of Mr. and Mrs. Frank Hogue is suffering from an attack of tonsillitis.

Mrs. Margaret Morganthaler of Pittsburgh, Mrs. Chester Buquo and James Cravener of Ellwood called on Mr. and Mrs. Fred Kaldy Tuesday.

Mrs. Clyde Bookamer is on the sick list.

James Perdue is making good progress toward recovery at the Jamieson Memorial hospital and expects to be able to return to his home soon.

Albert Houk is greatly improved in health being able to work about his home now.

The Parent and Teacher meeting which was to have been held on Thursday evening, Feb. 20, has been postponed until Friday evening, Feb. 21. This change was made because of the services being held at the Greenwood M. E. church on Thursday. A number of people in the district wish to attend this service and the P. T. A. never interferes with religious services if it can be avoided.

The petition for the road between Moravia and Edwinton has finally been put into shape to be presented to court. It has been made and remade, signed and resigned and sworn to and it is hoped the court will be kind and the improvement made this spring.

## POLICE CAR USED BY BANDIT GANG

(International News Service)  
CLEVELAND, O., Feb. 19.—Patrolman Frank Gabriel of the local police force is now under suspension here and is being given plenty of time to figure out how two bandits recently stole his police car which was parked in front of the Central Police Station and used it to aid in a holdup a while later.

## LEGION HEAD MEETS ROTARY PREXY

More than 650,000 men address these two gentlemen as "Mr. President." They are M. Eugene Newsom, left, head of Rotary International, and O. L. Bodenhamer, president of the American Legion. They are snapped in Durham, N. C., when Bodenhamer was attending the annual post officers' conference of the North Carolina branch of the service organization. Newsom is a resident of Durham.

## SWEDEN SENDS BOON TO SEAMEN

These two devices, just arrived from Sweden, are expected to make the journeys of ship captains and aviators less hazardous since they furnish accurate weather reports. Capt. A. A. Sawyer, of Los Angeles, right, is holding a recording barograph which prints a chart for 24 hours a day and seven days a week, showing at a glance the exact barometric indication for the moment and for a week past. The one held by J. L. Wosser, left, steamship engineer, is a new type of barometer which indicates to almost an infinitely tiny fraction the barometric pressure. The devices are being tested on a Pacific liner.

## Wants Congress Seat

Politics is not a new field for Mrs. Ida M. Walker, of Norton, Kas., who is a candidate for representative in congress, since she formerly served in the state legislature and in the last session was chief clerk of the lower house in her state.

## "Sons of Jackasses"

With a list of 200 members the first "Sons of Jackasses" club has been founded by Robert Freeman, of St. Paul, above. Its purpose is to "bray" for fair treatment for the farmer. It takes its name from the epithet which Senator George H. Moses, of New Hampshire, recently hurled at insurgent senate Republicans.

## WED DESPITE MURDER SENTENCE

On the day after Charley McCoy, 41, a member of a MacDowell county, W. Va., feudist family, received a 10-year sentence for a murder he couldn't remember, he married Miss Mary Hale, 29, of Pike county, Ky., who nursed him when he returned from the World War. After the ceremony, which was performed in the Charleston, W. Va., jail, McCoy went to the state prison, at Moundsville, to serve 10 years for the slaying. He hopes to live to return to his wife. Photo shows them after the wedding.

## FOLLOWS HER FLYING HUSBAND

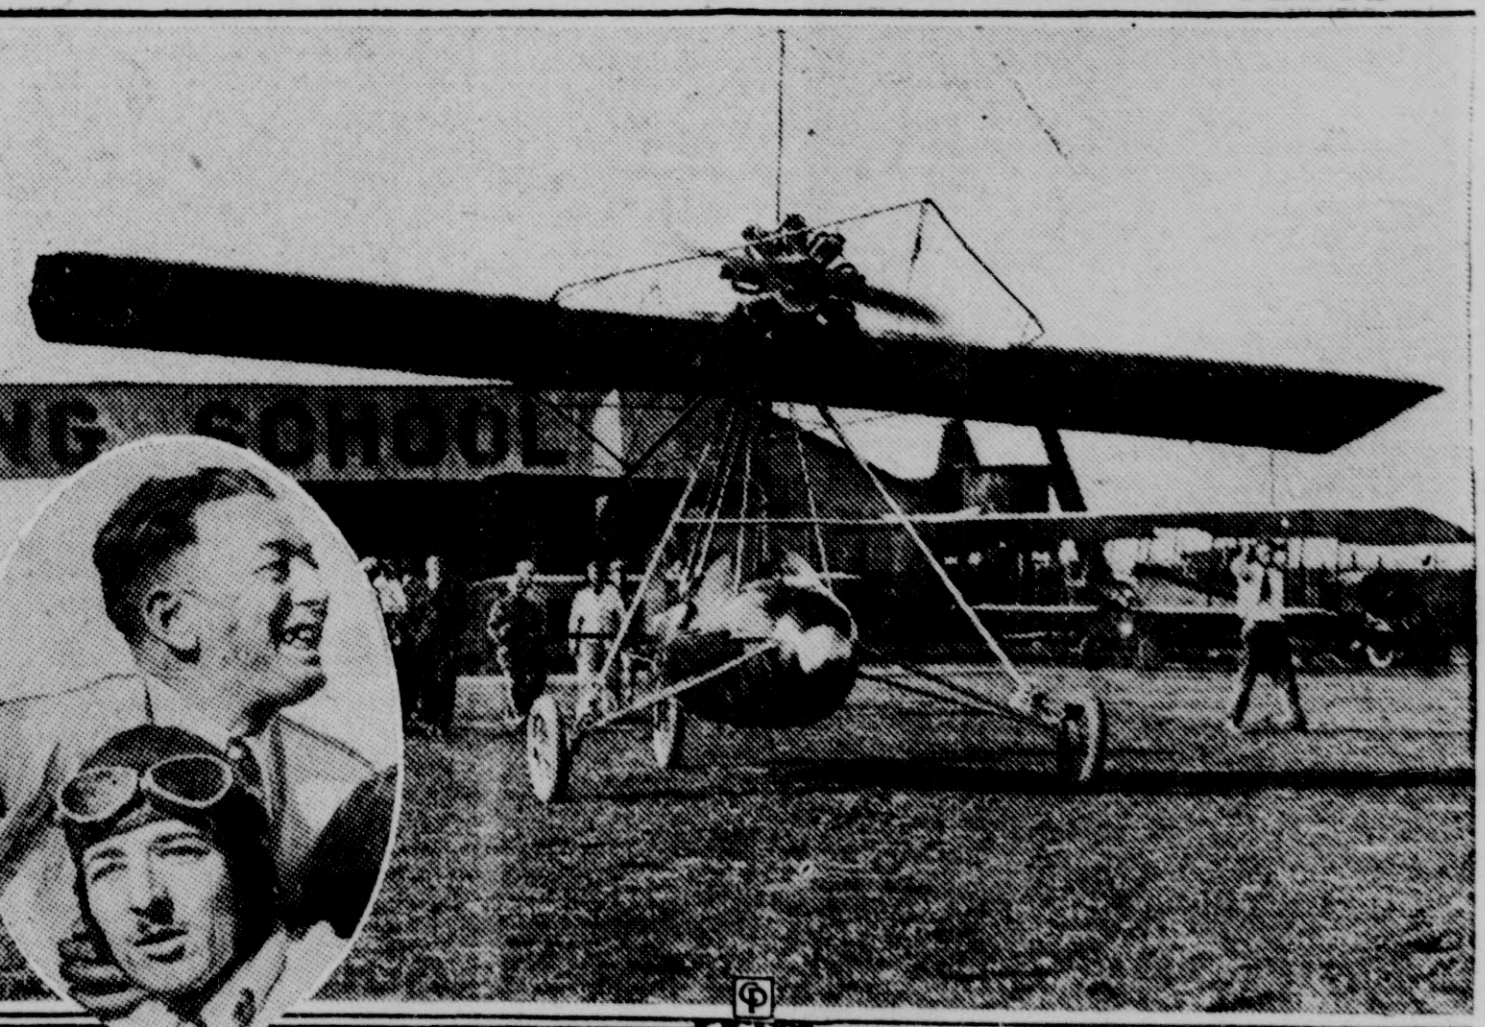

Mrs. Mildred Morgan. The only way to follow a flying husband, in the opinion of Mrs. Mildred Morgan, wife of Thomas E. Morgan, general manager of an airplane company, is to fly one's self. Mrs. Morgan recently completed her flying instructions and will shortly receive her pilot's license from the department of commerce.

## Rubio and Gil in Fraternal Embrace

Picture shows the fraternal embrace of President Pascual Ortiz Rubio and ex-President Portes Gil immediately after the inauguration of President Ortiz Rubio. Many distinguished visitors came from abroad to witness the colorful inauguration, which was almost marred by the attempted assassination of the President and members of his family by Daniel Flores.

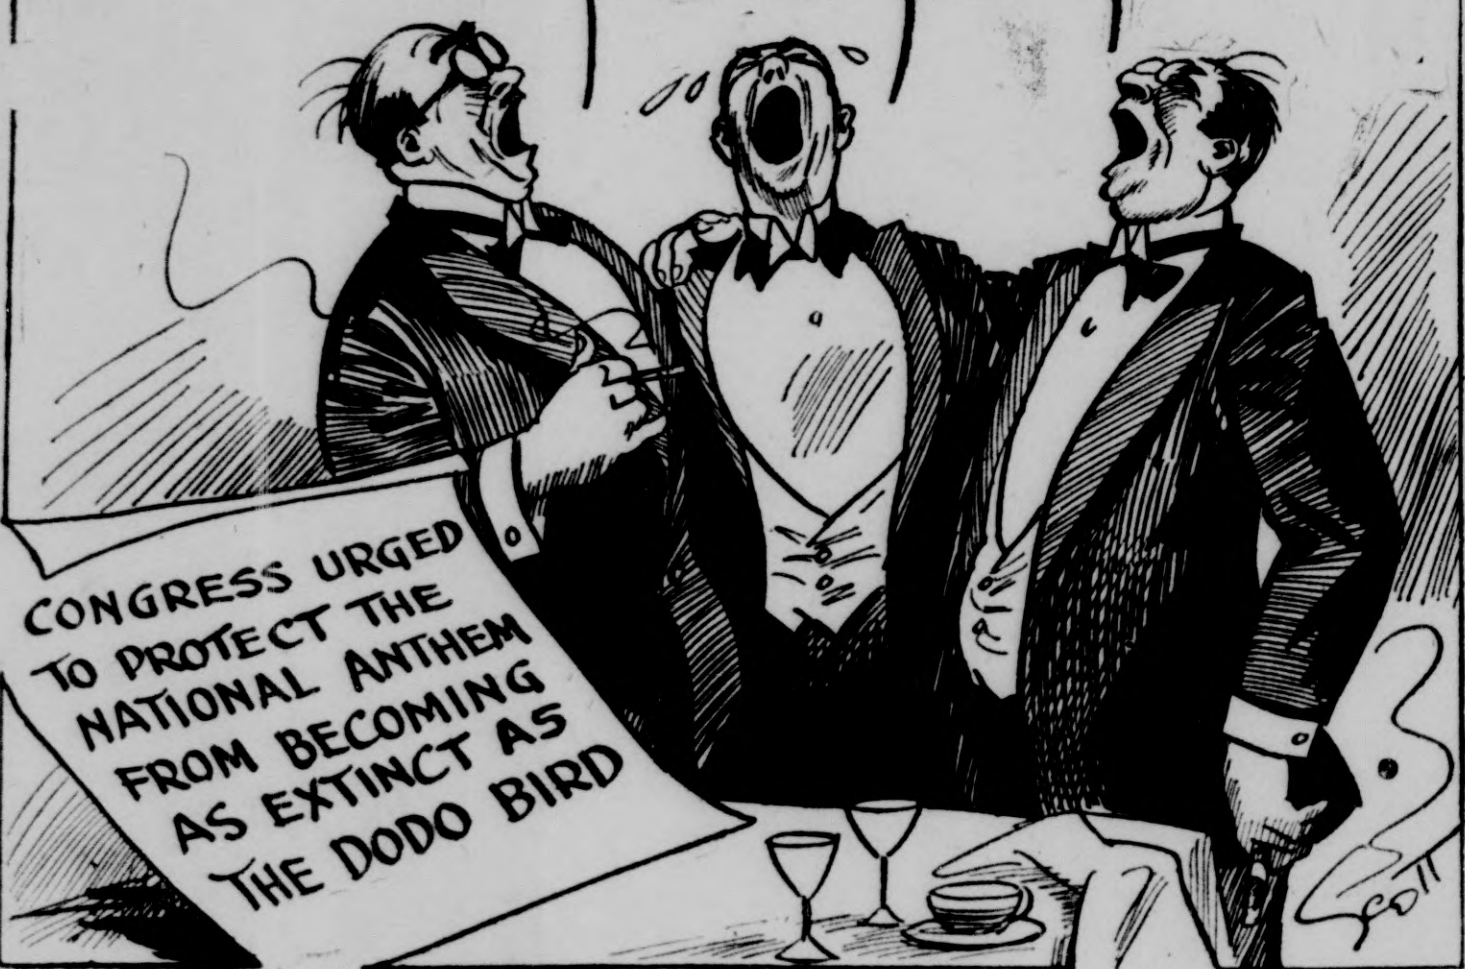

## GIVE FOOL-PROOF PLANE INITIAL GROUND TESTS

First ground tests of the so-called "fool proof" plane, invented by R. V. Norris, have been made at the Redwood City, Cal., airport. After taxiing for some distance Norris decided to make further alterations before attempting an actual takeoff. Photos show Norris, Pilot Harry Wyatt, who is to pilot the plane on its initial takeoff, and the ship taxiing down the runway.

# QUALITY

beyond all previous standards

In entering the 1930 market, Dodge Brothers were keenly conscious of two fundamental facts: First, that this year more than ever, value will be the basis of sales. Second, that the public is today better qualified than ever to judge value.

Dodge engineers met these conditions by designing two new cars with features that not only satisfy the demands of a thrifty and motor-wise public, but set the standard of values far ahead of any previous conception. Specifically these engineers have achieved:

## SENSATIONAL VALUES

A NEW SIX

\$835

AND UP, F. O. B. FACTORY

- the lowest-priced Six Dodge Brothers ever have offered.
- the lowest-priced closed car of any model Dodge Brothers ever have offered.
- the lowest-priced car with Monopiece (Steel) Body ever offered.
- the lowest-priced Six with internal-expanding four-wheel hydraulic brakes ever offered.

These new cars have been the sensation of the winter's automobile shows. See them at your nearest Dodge Brothers dealer's showroom.

A NEW EIGHT

\$1095

AND UP, F. O. B. FACTORY

- unmatched at its price for power, speed, comfort and safety.
- unparalleled in its field for quality, distinction and style.
- unequaled in value among popular-priced eight-cylinder cars—with Monopiece (Steel) Body, Down-Draft carburetion, weatherproof four-wheel hydraulic brakes, double-action hydraulic shock absorbers, air cleaner, oil filter.

## Removing Smack From Kisses Is Talkie Result

By FREDERIC A. CHASE  
International News Service Staff  
Correspondent

HOLLYWOOD, Feb. 19.—Removing the "smack" from kisses is one of the accomplishments of the talking picture. An old fashioned osculation would sound like a Fourth of July celebration over the sensitive microphone, so the first rule in modern movie romance is to keep the kiss silent.

No longer do the lips meet in a each other gently, silently, soulfully, and touch almost imperceptibly. Then there is a silent pressing, calculated to bring the heart to the mouth, and thrill unspeakably the audience. Then the separation, and you have had a much more satisfactory, as well as aesthetic, kiss than the old fashioned one.

So comical has the pre-talkie embrace become to the modern audience that comedy director Monte Brice is using it as one of the high lights of his fun making in talking comedies.

And it is not alone the antiquated kiss that he has borrowed, but also the passionate language of the lover, which sometimes lasted for several hundred feet of film and touched the heights of pseudopoetry. When lovers begin talking in long sentences, they are ridiculous," Brice explains. "And your audience will laugh. Love is a matter of action and not words."

Hal Roach, producer of "Dor Gang" and other comedies, has given up polo to devote his time to studio affairs. Before he went east, Roach sold his string of sixteen ponies and said farewell to the game which has brought him much publicity as a member of southland polo teams.

Dancing feet need constant attention so the latest addition to the movie studio payrolls is the podiatrist. Blistered heels, bruised toes, and an occasional fracture take up his time.

RKO is one of the first film plants to put a podiatrist on the payroll.

Sally O'Neil walked up to a laborer working on some new sound stages the other day and asked him what was the big idea of painting the handle of his pick in black and yellow stripes?

Dazzled a little by his questioner, the humble worker was unable to think of a wise crack and owned up that it was so that his pick wouldn't be stolen.

"Huh! who would want to steal a pick?" Sally exclaimed.

## Study To Keep Young Is Recipe Of 'Mother'

(International News Service)  
BOSTON, Feb. 19.—Mrs. Harry H. Handrahan, 48, mother of six children, has a new recipe on how to keep from growing old—study.

A co-ed at Massachusetts Institute of Technology, Mrs. Handrahan said: "If women with children grown up or partly grown only realized their capacity for study, what an exhilaration they would experience both in mind and body. It makes me feel like a high school girl."

Mrs. Handrahan is the wife of the former city solicitor of Brockton. She found the study of bacteriology one of the most fascinating and absorbing studies in that it reveals the great possibilities for making the world a safer place in which to live.

One of her daughters, Mary, 16, is the youngest student at Sorbonne, Paris, and another daughter, 12, is enrolled at Notre Dame Academy. Public schools today teach too many non-essentials, declares Mrs. Handrahan. It is her contention that the present grammar school course could be completed in six years and give the student a more fertile intellect in which to absorb the studies in the higher institutions of learning.

## Bootlegger Nabbed By Capital Police

(International News Service)  
WASHINGTON, Feb. 19.—George Cassidy, otherwise known as the "Man in the Green Hat," alleged bootlegger was arrested Tuesday outside the senate office building.

He was taken to a precinct station where a charge of possessing alleged liquor was placed against him.

Only a few months ago Cassidy was arrested when he had his automobile parked in front of the building where the senators' offices are. At that time police contended he apparently was going to deliver liquor to someone in the building.

## INTENDED TO HELP KEEP ONE WELL

World's Tonic Created To Enable People to Hold Health

Keeping well is the most serious business people have to attend to. With health they can do most everything; without they are handicapped in most everything. Exposure to changing temperatures, to fogs and dampness, is one of the hardest strains the body must undergo, and one that we are subject to many times over. Moreover, we are inclined to neglect Nature's distress signals when the body needs help. We say, "Oh, it is only a little cold," and we go on for weeks while the body is making a most strenuous effort to overcome this little cold."

Often we permit these colds to get chronic, and then catarrhal conditions seize hold of the body. First nose, then throat, then stomach, then kidneys and bowels—it is an old story to the observant.

Yet many of us go on unheeding the frantic signals our bodies are making for help until we have undermined our health. Then we try to treat the symptoms only. We take this remedy for indigestion, or that one for constipation, never thinking that the trouble has spread through our body, and that the only way we can overcome it is by a constitutional treatment that will restore the balance to all the organs. Give the body good, rich blood and it will overcome most anything. Clog that blood with the by-products of catarrh in the lungs, head and digestive tract and one will not get well.

It was a study of these very conditions that led to the creation of World's Tonic.

Long research showed that our people are rapidly becoming victims of this catarrhal condition, and that few received the right kind of treatment. World's Tonic was intended to help meet this very need. You have only to look over your own community to see how well it has succeeded. Thousands of testimonials as to its value are being published from people in this and adjoining states. If you want to keep well, or to free yourself from any of the above mentioned conditions, a bottle of this good medicine will prove its own value. You can obtain it from Ecker's, McKee's, Paisley's, Smith's or any other first class drug store. (A-39)

## Five Killed In Hotel Fire At Canadian Town

(International News Service)  
MONTREAL, Feb. 19.—Five persons were killed Tuesday when fire destroyed the Hotel Galarneau at Maniwaki, Quebec, 83 miles northeast of Ottawa, according to word reaching here late this afternoon.

The dead were:

Mrs. Narcisse Galarneau, widowed proprietor of the hotel. Raoul, 4, and Donat, 2, her children; John Maranger, 32, her brother, and Nelson Bertrand, 35, a guest.

Several were injured. Maranger died when a floor collapsed under him as he tried to rescue his sister and her children.

## Bouncer's Club Was Baseball Bat

(International News Service)  
EVANSVILLE, Ind., Feb. 19.—Altho Peter Hummel, 49, was a bouncer for a local speakeasy, his night club was a baseball bat, according to testimony that led to his conviction and that of Mrs. Mary Phelan, alleged owner of the saloon in circuit court here.

Hummel admitted to the court that he used a larger club for men and a smaller baseball bat for youths who became obstreperous in the liquor emporium. Testimony on which he was convicted showed that Ted Lambeck, 24, suffered a fractured skull. The court ruled that Hummel must spend 180 days at the State prison.

The bureau of standards answers: "Lo neal was the term proposed some years ago by the American Society for Steel Treating to describe low temperature annealing, but it has not been generally accepted."

With gold's value arbitrarily fixed by the government, silver fluctuating and now at half price, why do gold and silver certificates pass current on an equality per dollar?

Gold really fluctuates and is cheap now. That is, it will not buy much; prices are high. In proportion, raw silver is still cheaper, but the mint's stamp gives an artificial value to a limited amount of it because it is needed—as a convenience, to make change. The paper certificates are equivalent to metal, only easier to handle.

Would it be possible for any person,

## Swiftest, Easiest Way to End Bilious Spell

When you neglect those first symptoms of constipation—bad breath, coated tongue, listlessness, the whole system soon suffers. Appetite lags. Digestion slows up. You become headachy, dizzy, bilious.

It's easy to correct sluggish bowel action! Take a candy Cascarets to-night. See how quickly—and pleasantly—the bowels are activated. All the souring waste is gently propelled from the system. Regular and complete bowel action is restored.

Cascarets are made from pure cascara, a substance which doctors agree actually strengthens bowel muscles. All drug stores have Cascarets, 10c.

without the use of a machine, to count a million pennies in 17 hours? Chinese money changers, who count prodigious quantities of silver dollars, consider 200 a minute a stiff average, which would be at the rate of 204,000 in 17 hours, if it could be maintained. Maybe pennies would move faster, but a million sounds.

Government engineers have been surveying the Kentucky river between Monterey and Frankfort with a view to a flood control dam. Will the government build it? If so, where, how high and when?

There will have to be a report by the engineers, many references, long consideration, congressional authorization and money appropriated, all of which will take a long time; maybe years.

After a telephone's removal from a house, leaving wire ends, a crackling could be heard from them during a cold wind, with snow, and fire seemed to leap into the room. Why?

The bureau of standards says, "It seems certain that the phenomenon was electrostatic, the weather conditions being most favorable to a charge's accumulation on the wires, possibly resulting from impinging snow particles. Discharge sparks may well have been visible."

## 38,000 Children Get State Help

(International News Service)

HARRISBURG, Feb. 19.—A total of 38,000 children during 1929 were cared for in institutions under the jurisdiction of the State Department of Welfare, according to a report made public today by Mrs. E. S. H. McCauley, State Secretary of Welfare.

"This number is exclusive of the children who benefit by the Mothers' Assistance Fund," Mrs. McCauley said, "and indicates by its size that the State recognizes fully its obligations to the children who in the future will be citizens upon whom the duties of the Commonwealth will rest."

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children, generally show food is souring in the little digestive tract.

When these symptoms appear, give Baby a teaspoonful of Phillips' Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels free of all sour, indigestible food. It opens the bowels in constipation,

colds, children's ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years.

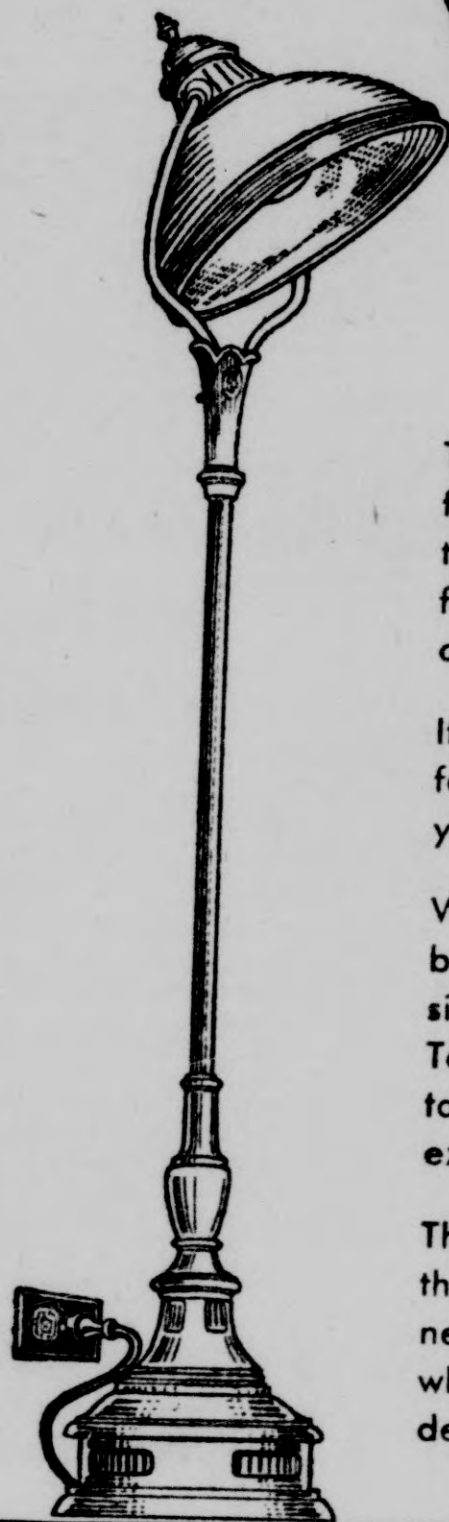

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Chas. H. Phillips Chemical Co., and its predecessor, Chas. H. Phillips, since 1875.

## Bo-Broadway by JOSEPH VAN RAALTE

By Central Press.

NEW YORK, Feb. 19.—The George S. Kaufmans are living on a lease in a house in the East 60's owned by Peggy Hopkins Joyce. Walter Lippman, the editor, moved out of it to make way for the Kaufmans. It's interesting to note that Lippman's "Preface to Morals" was written in Peggy's place.

THIS IS EFFICIENCY! A metropolitan office building manager has figured out that when a man removes his hat in an elevator it

before reaching for a towel. And the less moisture, the fewer towels.

## DESPERATE MEASURES

The height of optimism was achieved the other day by a thief who stuck up an actor in his four-dollar-a-week furnished room.

## NO MEN THIS TIME

Since the vogue of the play "Journey's End," New York producers are breaking all precedents by sponsoring pieces with no women in the cast. However, it took the wife of C. B. Cochran, London producer, to use the reverse English. She has written a play that her husband is going to put on, called "Nine to Six," dealing with the life of women when the men are away from home. There are six in the cast, all females.

If the play is a hit, it surely will leave the New York producers up a tree.

## A POOR SUBSTITUTE

There are no more dancing bears. The movies put a crimp in the profession and trainers have taken up more lucrative work.

If you feel that the passing of the dancing bear has blighted your life you'll have to be satisfied with the nearest substitute—dining at Whyte's restaurant and watching the Out-of-Town-Man-About-Town cavort on the floor of the trotter.

GOHAM'S ETERNAL FLAME

With the shows on Broadway following one another in such quick succession it makes you dizzy; with the old Waldorf-Astoria gone and today's "tallest building in the world" being topped tomorrow by another structure several feet higher, the only permanent thing left in town is the fire on Riker's Island dump. It's been burning for 15 years and, as the saying is, "In New York, 15 years is equivalent to 1,263 years in Rome and easily 2,500 years in London."

The fire on Riker's Island dump is New York's lone continuous tradition.

NO DIVIDENDS IN MEMORIES

They've built a 34-story office building on the site of the old Broadway theater at Broadway and 41st street. There were a heap of pleasant mem-

ories clustered about that old show house; but, Lord, pleasant memories are paying no cash dividends in New York today; and along comes Mr. Hirsch with the glad news that he expects a rental income of over \$10,000,000 from his building, where the theater used to be.

And we're all so thrilled and happy over that!

REGRETS

Longacre Lil's slander case is proceeding favorably.

"I got such a swell lawyer," she avers, "I'm sorry now I didn't say more!"

## Begin Plans For May Health Week

HARRISBURG, Feb. 19.—Dr. Mary Riggs Noble, chief of the pre-school section, State Health Department, and chairman for Pennsylvania of the National May Week celebration, today announced that preliminary plans are under way for the observance of this annual child health week in Pennsylvania. Field personnel are

at present organizing the various counties. Material is being forwarded to the chairmen from the American Child Health Association as well as the suggestions which have been prepared by the State Health Department.

According to Doctor Noble more than 100,000 children will be affected by this drive which occurs in the first week of May and involves the administration of infants and younger children for observable defects.

Doctor Theodore B. Appel, secretary of health, is honorary chairman for Pennsylvania.

### Teach Tot To Laugh At Bumps

You put the baby on the floor. He cannot creep; but he may roll against a piece of furniture and bump his head. The bump may be so hard that you can hear it several feet away. If you then go quietly about your business you probably will hear no other sound from him. Or, after several seconds he may cry a little from the shock. If he does cry then he will soon stop.

The average mother hardly is so wise. Her impulse is to grab the baby up, to kiss and cuddle him; and she obeys her feelings, too. Next time the baby gets a bump she treats him in this same bad, silly way. Her excited voice and movements come to be connected in his nervous system with the bump.

It is not long before the slightest bump provokes loud cries and screams from him. And so the habit grows with every new experience of this kind. Each time the child becomes frightened, screams louder and cries longer; each time the mother is more exercised and grows more likely to betray her fears by nervous voice and movements.

This baby lean to cry from slightest injuries long before he walks. Indeed he may develop walking slowly on account of such unnecessary fears. When he falls, his mother runs to pick him up and pity him. His fears increase, and so do her anxieties. The mother therefore helps him more, and he increasingly depends upon her. She robs him of the opportunity to grow in independence and initiative.

Not only does he cry more often, but his cries last longer. His angry feelings spread out into longer periods, when he is easily irritated. Out of sorts he is not likely to want to do what his mother wishes him to do; he is not ready to respond to her suggestions. When he gets a cut or scratch and needs first aid, he is not willing to submit to it. His life becomes less happy and his mother has more trouble in his management.

Here is a better way. When the baby gets a bump don't notice it. Keep silent and control yourself. If he is really hurt, just care for him and treat his wound. Betray no feeling. Strive to manifest the calmness of a surgeon. When his wounds are dressed approve the child for being big and brave.

When the baby begins to walk, don't help him, nor try to hurry him. Don't grab him up each time he falls. Let him get to his feet alone. So, also don't let other adults try to help him. Teach him to laugh at pain. It can be done. Your most important task, and mine, is learning self-control.

### Offers To Serve As Traffic Cop For \$2.00 Daily

HARRISBURG, Pa., 19.—"Reckless" drivers would get short shrift from a resident of Plymouth, Luzerne county were he given an opportunity to enforce the laws, Motor Vehicles Commissioner Benjamin G. Eynon learned in a letter he received from the Plymouth man.

"Just send me a star and a whistle," said the embryo law enforcer, "and give me chance to show I have a right to rest a man that Don't live up to the state high-way laws all I ask is a chance to prove I do as I say I will and ever man I rest I will send you slip of what I rested him for by the squire, give me 25c on ever man I rest or give me two-dollars a day and I can show you how to hall them in give me chance they will not get a way with eney thing all ime doing this for to force the laws."

Mr. Eynon was forced to inform the applicant that he is unable to take advantage of the offer of assistance. "Rest assured," he wrote the Plymouth man, "that if all Pennsylvania thought as you do there would be no necessity for traffic officers of any kind."

**Claims For Dog Damages Total \$72,612 In Year**

**Canines Kill 3338 Sheep, 5438 Chickens, Attack Cattle**

HARRISBURG, Feb. 19.—Preliminary figures covering the enforcement of the State Dog Law during 1929 show that 3338 sheep and 5438 chickens were killed by uncontrolled dogs, according to a report from the bureau of animal industry, Pennsylvania Department of Agriculture.

Practically every class of livestock and poultry suffered damages from dogs for which the State paid a total of \$72,612 during the year.

A marked reduction in the number of stray dogs has resulted from the vigorous enforcement of the law by dog law enforcement agents of the bureau, who co-operate with local police, and while there is a large amount of damage caused by the uncontrolled dog, such damages are decreasing annually, officials said. However, they point out that unceasing vigilant enforcement must be maintained or the loss of private property due to the ravages of dogs will increase.

The following table shows the number of animals in different classes killed or injured by uncontrolled dogs during 1929:

	In- Killed	Jured
Sheep	3338	1413
Hogs	144	20
Cattle	25	10
Goats	13	2
Horses	3	
Chickens	5438	97
Ducks	583	26
Turkeys	460	13
Geese	160	13
Guineas	56	
Domesticated Rabbits	762	1

## OH, THESE WOMEN!

By LEOLA ALLARD

"Last night as through the crowd on Market street  
A new-made soldier proudly swung along.  
Guiding that gray-eyed wonder called his girl.  
Whose face turned up to him in silent song.  
I marked, above these gay young hearts atune,  
The unimportant beauty of the moon."  
—By Roy Helton.

It had been pretty damp weather, and perhaps most of the park benches were wet. Perhaps those off the road-

was an awfully good show but it might just as well not have been.

Then there was that couple in the second row. She had orchids, emine, diamonds—all the works! A cute trick all right and her hair dyed fresh for the occasion. He watched her and she watched the play.

When the curtain dropped she sat tight, powdered her nose, made up her lips, fixed her hair, readjusted her orchids, put a pin or two in her curls—and a whole row of people waited to get into the aisle. She didn't even turn sideways so they could crawl over her, she just made them WAIT.

And the moon-eyed youth looked gaga and said nothing.

Love does terrible things like that to you. And eventually that girl will step off with someone who, if she did that, would grab her by the hair and yank her into the aisle.

(If I'm wrong, write Me.)  
End.

## Vice Conditions At Atlantic City Will Be Probed

(International News Service)  
ATLANTIC CITY, N. J., Feb. 19.—"There will be a sweeping investigation," former Common Pleas Judge Herbert C. Bartlett, special prosecutor, Tuesday declared on his arrival here to inquire into the alleged vice conditions existing in Atlantic City.

"I am going into all matters thoroughly," he said. "I will lay the ground work first and then name my own staff. I am going into all the angles of the situation but I will first take up those matters of which

specific complaints have been received.

"I will begin active work next Monday and am going before the Atlantic county grand jury and get acquainted. I am going to proceed carefully, be sure of my ground and then go the limit."

It begins to look as if after three or four years' investigation the law enforcement commission will report that there should be a law against crime.—Miami News.

## HIGHLIGHTS OF HISTORY

By J. Carroll Mansfield

The Story Of American Industry  
The Factory System In England

TO ENABLE THE ENGLISH WEAVERS TO KEEP PACE WITH THE GREAT QUANTITIES OF YARN WHICH THE RECENTLY-INVENTED SPINNING MACHINES WERE PRODUCING, EDMUND CARTWRIGHT, AN ENGLISH PREACHER, CREATED THE FIRST POWER LOOM FOR MAKING CLOTH IN 1785.

MILLS FOR SPINNING AND WEAVING COTTON SPRANG UP IN MANY PARTS OF ENGLAND. STEAM POWER WAS AT THAT TIME ONLY EMPLOYED FOR PUMPING WATER, AND THE WHEELS OF THESE EARLY FACTORIES WERE TURNED BY EITHER HORSE POWER OR WATER POWER.

THUS AN AGE-OLD HOUSEHOLD INDUSTRY WAS TRANSFERRED TO THE FACTORY. THE INTRODUCTION OF MACHINERY AROUSED THE HANDIWORKERS WHO FELT THEY WERE BEING ROBBED OF THEIR MEANS OF LIVELIHOOD, AND SERIOUS DISORDERS TOOK PLACE IN MANY INDUSTRIAL COMMUNITIES.

GREAT BRITAIN NOW HELD THE SUPREMACY OF THE TEXTILE INDUSTRY AND WAS DETERMINED TO KEEP THIS ADVANTAGE. SHE JEALOUSLY GUARDED THE SECRETS OF HER MACHINES, AND MODELS AND PLANS OF MACHINES WERE PROHIBITED BY LAW, AND SKILLED WEAVERS WERE NOT PERMITTED TO LEAVE THE COUNTRY.

TOMORROW—BEGINNING OF THE FACTORY SYSTEM IN AMERICA.

# Westminster Team Real District Leaders

BY RUBE GOLDBERG

## Titans Retain Lead By Beating Strong Quintets

District And Tri-State Ruled Over By Johnny Lawther And His Rambling Titans

## DUQUESNE GAMES WILL BE TEST

By "BUGS" WALTHER

With the Presidents and Alligators recently notched in their trusty six-shooters, the Titans are looking for more victims. It is said that the Dukes of Duquesne are lurking in the continent somewhere and casting insinuations aplenty.

The Chick Davies outfit will be accommodated at New Wilmington, Pa., on next Tuesday night boys and girls, and please stand-by for station announcements. The rambling you hear in the Tri-State district is the Dukes getting up steam for that big blow-off next week. The lightning flashes you see every now and then are the Titans sharpening their swords. The fur is sure to fly right merrily when the boys from Pittsburgh and the United Presbyterians have that little get-together.

When Greek meets Greek, a restaurant is generally the result, when the Titans meet the Dukes a basketball game of proportions is almost always the outcome. Take it, or leave it, the game next week at New Wilmington is the big payoff. If the Titans can keep up the pace then the Tri-State flag will be pinned on Old Main Memorial. Should the Dukes win the first tilt, then the fans in Pittsburgh get a break by having the play-off down in the town where they seem to have a disregard for taxi-cabs.

Just Bare Facts  
But getting back to the meat of this yarn, do you notice how nice and pretty the Westminster boys are sitting at the top of the Tri-State and District standings. In the Tri-State the Lathermen have six and one in the district the count is eleven and one.

Of course some wise egg will chirp in with a weak voice and say you are giving Pitt the runaround. Well all is fair in war and love, something that I could never understand, but the truth of the matter is that Pitt with a real good team, yes even better than that, fails to play what one could call a district schedule. They pick out W. & J. Carnegie Tech, and West Virginia, and call it a year, then they finish up in front and expect the flowers to be showered their way.

Last night the Pitt Panthers terribly creatures that they are, only beat the President 38 to 30, down in Washington, Pa., and that is only eight points unless the arithmetic has undergone a change since I went to school. Westminster beat W. & J. down that way the other night 28 to 18, which is ten-points unless I am cock-eyed.

What About It  
Duquesne took a ten-point 35 to 25 victory over Waynesburg down in the Bluff last night. If the Dukes were really trying, the effort was not so good. The Titans swapped the Jackets 50 to 13 at New Wilmington, which leaves the Titans about seventeen points better than the Dukes, which is sumpin'.

And so giving the credit where the credit belongs the Titans are nominated as the best of the colleges in Western Pennsylvania, until such time as things are made different. "Doc" Carlson's ears should be burning by now, and so we will say "bye" until next time.

For those who like figures with their evening meal, we submit the following ditty which we hope you will like.

## Await Shires In White Sox Camp

SAN ANTONIO, Texas, Feb. 19.—Things about the spring training camp of the Chicago White Sox are practically at a standstill here today as the arrival of C. Arthur (The Great) Shires is eagerly awaited.

One of the chief subjects of debate is when and if the spectacular first baseman of last season will put in an appearance.

Although he is reported to be assembling a uniform at his home in Italy, Texas, 250 miles from here, it is known that he has not yet signed a contract for 1930.

## HERE AND THERE IN SPORTS' LAND

By ED. FRITZ

Pitt defeated Washington and Jefferson, 38 to 20, Duquesne conquered Waynesburg, 35 to 25, and Westminster won from Allegheny, 30 to 22, last night in basketball games.

Tony Herrera, lightweight stable-mate of Jimmy Mahoney, Chicago won a decision from Tommy Grogan at Flint, Michigan. It is said the award was unpopular with some of the fans.

Arslan Kara Pasha, the "terrible Turk" was thrown out of the ring by Ted Thye in a fast wrestling match at Walla Walla, Wis. He lost the second fall in 20 minutes.

Roller skating, marbles and bicycling are here and it appears as though Dame Spring is hovering around the corner. If the weather holds up there'll be a great crowd at Jolly bowl, Monday night.

Joe Becker, International league umpire and formerly with the Pacific league as an arbiter has been added to the Brooklyn Dodgers staff. He will scout the west for recruits.

Boston Red Sox have purchased Frank Kugler, Carlisle, Pa., pitcher and Carl Pachell, semi-pro from Omaha, Neb. Advance squads of several major leagues are in the south and many recruits will be given a trial.

## Sewickley Comes To Oppose Locals

Here Tonight To Meet Business Men In Volley Ball; Game At 8:15

The Sewickley Y. M. C. A. will send its business men's volleyball team to compete with the New Castle business men on the local court tonight at 8:15. Henry T. MacNicholas, physical director learned today.

Both the Sewickley and local teams are well up in the district race this year and if the locals win over Sewickley here it will mark the passing of another step on the road that leads toward the central western Pennsylvania championship.

Should the New Castle men upset Sewickley's plans tonight, but two more teams will remain in the way. A victory over Coraopolis and Tarentum will leave them eligible for a trip to Pittsburgh, where the district champs will compete.

## Dukes Jubilant Over Victory

(International News Service) PITTSBURGH, Feb. 19.—Duquesne University's basketball quintet is a step nearer the coveted tri-state title today as a result of their overwhelming 35 to 25 victory over Waynesburg here last night.

Waynesburg, playing a lackluster game for the first three periods, suddenly was galvanized into a fighting team in the last canto scoring 14 points, three more than the Wolfpack had made in the preceding periods. Duquesne kept the game on ice, however, and romped off with its fifth conference victory.

## Mahoney Has Defeated Slattery, Met Scozza

Jimmy Slattery and Lou Scozza, and Weiss respectively, the tidbit of 175-pound pugilism has been arranged.

Has Shown Class.  
Getting down to tacks, Mahoney holds one decision over Mr. Slattery's son and Alvis maintains that when Scozza took the decision over Mahoney it was a case of "call it either way and the fans will be satisfied." In addition to this the Chicago "Harp" has defeated Larry Johnson, newest colored sensation, not only once but three times.

And Weiss, the galavantin' Dutchman of Allentown who now hibernates at Philadelphia? He has defeated Billy Jones, who wants "in" on the chance to fight for the light-heavyweight championship. He has also beaten such classy battlers as Babe McCargary, Peg Sullivan, Terry O'Hugh and flattened Herman Wiener in a punch.

## PIRATES SHOVE OFF FOR COAST

Minus Grimes, Pittsburgh Pirates Advance Squad Starts Jaunt To California

(International News Service) PITTSBURGH, Feb. 19.—With the highest and the humblest—Burleigh Grimes, pitching star, and Floyd Young, rookie—conspicuous by their absence, the Pittsburgh Pirates' advance guard today is speeding for their spring training camp at Paso Robles, Calif.

Grimes remained unavailable awaiting the smoothing out of his contract with the club while Young was unable to move on with the squad because of appendicitis.

The Corsairs took with them the cheers and good wishes of a fairly large crowd that gathered in the depot here. The squad was in charge of Manager Jewell Ems, Vice President Sam Dreyfuss and Coach Max Carey. Included were three catchers, Charley Hargreaves, Rolly Hemley and Johnny O'Connor and Pitcher Leon Chagnon.

Additional men will be added at the first stop in Chicago today, more at Kansas City and Los Angeles while a number of players have been directed to report direct to the training camp at Paso Robles.

## ROCCO POPULAR, TO DRAW BIG CROWD AT CLEVELAND BATTLE

(International News Service) CLEVELAND, Feb. 19.—When Emmett Rocco, Ellwood City, Pa., puncher, makes his appearance here Friday night against Frankie Simms, Slovenian ring idol, a large crowd of loyal rooters is expected to be on hand to see him attempt to administer the "sleeping power" to Simms.

It was indicated today that rooters will attend the fight from both Ellwood City, his home, and from Youngstown, where Rocco has been training for his bout with Simms.

Dopesters favor Rocco in the contest which will be a 10-round affair. Two other 10-round bouts are scheduled on the program. In the scheduled raiser, Baby Joe Gans will meet Mike Payan. Paul Pirrone and Andy Divodi will also mix it up for 10 rounds.

## Titans Defeat Allegheny 30-22

Rice and Crowell Save Day For Westminster In Classy Battle At Meadville

## ALLEGHENY TEAM SHOWS STRENGTH

(Special To The News) MEADVILLE, Pa., Feb. 19.—The Rambling Titans rambled right along the rosy path to district honors here last night at Montgomery gym when they came to life suddenly in the final half and with a spirit that closely resembled "Old Faithful" tallied three buckets in a minute and a half to take a 30 to 22 count over the Allegheny college boys.

It was the second time that the Lawthermen have staged a hair-line finish to subdue a team that looks very good in the second half.

Westminster led at the end of the first half by a rather nice score. The Allegheny boys had tough luck locating the hoops. Delahanty, Rice, Crowell and O'Donovan were caging them from all angles.

Those Pesky 'Gators.  
It was a repetition of what happened at Westminster several nights ago. The Titans held a commanding lead in the first 20 minutes of play, only to have a fighting Allegheny team assume their real selves in the second stanza and make things miserable.

Allegheny had come to within two points at 24 to 22 of tying the count with the time getting short, when the Titans called time out, got organized and then started for the finish line running like an eight day clock about one-half hour after winding. Phil Rice led the parade with two buckets in that last few minutes and "Red" Crowell placed one through the strings.

The several hundred who draped themselves around the Montgomery gym to witness the annual classic between the United Presbyterians and the Methodists were rewarded for their 40 minutes' time. Yes, sir, the Titans looked the class, but that Allegheny team has potent qualities and sometime they are going to make things tough for the boys.

The summary:

## STARS OF YESTERDAY BY AL WINFIELD

Freak pitchers predominated more in the old days than they do now. And one of the freakiest was old Tony Mullane, an ambidexterous slabanian.

There are ambidexterous pitchers today, but I don't believe they are as capable in their specialty as Tony was when he was shining with the Cincinnati Reds.

Tony was a real double-barreled sharp shooter and had as good control and speed in one hand as he did the other. For many years he was the mainstay on the mound for the Reds, and long after his allotted span of big league years had been run he was still up there because of his two-ply delivery.

Tony would use his southpaw delivery when a lefty strode to the plate, but immediately dropped his glove and hurled with his right when a right-handed batter came up to scratch.

In his prime, Tony was just about as good as the best of them. For example: On September 11, 1882, then playing with Louisville, Mullane pitched a 2-0 no-hit game against the Reds. This was the 11th no-hit game in the history of baseball.

However, Mullane sort of counter balanced this brilliant mark 12 years later when he was in the sunset of his fine career. Pitching for Baltimore in 1894, he was knicked for 16 runs by Boston in the first inning.

He was probably the only man in baseball who has pitched the most brilliant type of game and at times also the worst.

## Locals Hold Practice At George Washington

New Castle Practices At George Washington For Game With Ellwood City

Larger Floor Gives Team Benefit Of Needed Practice In Passing

The George Washington junior high school basketball court was the scene on Tuesday night at 7:30 where the New Castle high school basketball team held a workout in preparation for Friday night when New Castle opposes Ellwood City in a regular section three league conflict. Coach Phil Bridenbaugh appeared pleased with the practice and stated that his cohorts will be in the best of condition for the game with the tubers. The game will be played at Ellwood City.

There are several reasons why Coach Bridenbaugh and Faculty Manager Ralph H. Gardner chose to hold the practice at the newly built school. First the gym is much larger than the one at the high school. Second it is better equipped in every way. It is lighter and smoother. The main reason is to get the locals used to playing on a large floor, because should the locals come through in section three they will play at Pitt's floor which is practically the same as

that at George Washington. This does not mean the whole gym is like that of Pitt, but just the floor.

It will give the boys an idea of how to pass and shoot on a large floor. If New Castle wins the sectional laurels practices will likely be held at George Washington. Russell Hannon is the only member of the squad who is on the injured list. He sustained a sprained ankle in the first quarter of the Evans City game. It is believed that he will be able to play in the Ellwood City game.

New Castle needs that Ellwood City tilt to cop and dame rumor has it that the neighboring town team is going to make a very hard try to stop the New Castle team. Phil Bridenbaugh has been developing several plays which he will use in the remaining games.

## Yankees Slowly Signing On Line

## Many Schools Accept Invitation For Meet

Faculty Manager Gardner Announces List Of Schools Who Will Compete

Although three months remain before the event occurs, 20 schools have already accepted invitations to compete in New Castle's Night Relay Carnival which will be held at Taggart Field on Friday evening, May 23, under floodlights, according to Faculty Manager Ralph H. Gardner. Gardner mailed invitations to some 100 schools last week and in the short time of six days has heard from over 20 schools which have accepted the invitation.

Daily the number of schools who will come here increases. By the looks of things there will be close to 100 schools here in May to compete for honors. Faculty Manager Gardner has not finished mailing out invitations. Should 100 schools come here it will set a record for schools competing in a scholastic meet around this section of Pennsylvania.

Scanning over the names of some of the schools, shows that competition will be keen. Among the stronger schools who have put out track teams of high calibre in the few years and who will be present are Bellevue, Peabody of Pittsburgh, Uniontown, Rayen, Sharon and many others. These teams have all accepted the invitation to come here. Gardner is busily engaged at the present time making out the list of events, the prizes governing the meet, and the rules which will be issued.

Following is the names of the schools who have accepted the invitations to come here up to yesterday according to Faculty Manager Ralph H. Gardner.

Grove City, Franklin, New Kensington, Norwin, Sharon, Monaca, Annabridge, Peabody (Pittsburgh), Washington, Bellevue, Greenville, Uniontown, Rayen (Youngstown), North Braddock, Aspinwall, Aliquippa, Rochester, Freedom, Wilkinsburg, and Ellwood City.

## Slattery-Rosenbloom Match Date Set By Boxing Commission

(International News Service)  
NEW YORK, Feb. 19.—The New York Boxing Commission Tuesday approved April 7, as the date of the lightweight championship match between Maxie Rosenbloom and Jimmy Slattery at Buffalo, N. Y.

The boxing board then approved March 10 as a date for Rosenbloom to meet the winner of Friday night's engagement between Pete Latzo and Larry Johnson.

Johnson, one of the hardest punchers in the game is expected to defeat Latzo and may upset Maxie and spoil his championship shot at Slattery.

The commission, among other things reinstated Knute Hansen and Yale Okun.

## Among The Red-Hot Rookies

GUS WAS AN AWFUL FLOP AS A 2ND SACKER, BUT THE SWITCH TO FIRST BASE MADE HIM A STAR.

Right on the heels of the Smead Jolley deal in which the Chicago White Sox are reputedly to have paid from \$50,000 to \$60,000 and a player or two, the San Francisco Seals sold their other super-star, Gus Suhr, to the Pittsburgh Pirates for what is reported broadly to be \$75,000 with Earl Sheely thrown into the bargain for part of that sum.

The Seal's owners got none the worse of either deal, it would appear at this early writing, nor is it likely that the so-called parties of the second part will be stung either, for Jolley ought to add much to the White Sox field artillery and Suhr should do that very thing for the Pirates while covering first base.

Whether or not the Seals got such large prices for either Jolley or Suhr, it is known that they got two smart players in Frank Sigafos and Sheely who hit but fairly in the big leagues but are likely to do much better on the Pacific Coast. Sheely should easily be the best first baseman in the minors next season. He has good prospects of being returned to the majors, as has Sigafos. Through similar deals the Seals also have secured John Miljus and Jimmy Zinn who ought to help make up for much of the club strength lost through the sales of Jolley and Suhr.

Pittsburgh expects much of Suhr as a soaker and first sacker. Last season, Gus walloped 51 homers, 6 triples, and 62 doubles for an average of .381, only six points lower than Jolley's. Suhr has had sufficient seasoning in the minors. Two years ago, the Seals tried him at second

## Polish Falcons Trim Baptists

The Polish Falcons upset the First Baptists of the New Castle church league last night in a game at the Falcon hall. The final count was 33 to 22. It was a good game and very interesting.

At the end of the half the Falcons held a lead of 19 to 13. They maintained their lead in the final two periods to win an 11-point victory. Blundo, Kwiat and Cegicka led the

Falcons. For the Baptists the work of Kulich and Uram featured.

## RITICISMS

The spring training season is on and our athletes are down in the sunny south trying to act as if they don't like it.

Baseball may be a trying game but it's the only job we know of that starts off with the boss giving you a fine southern vacation.

A rookie in camp has to learn but two things: to speed up his bat and slow down his fork.

The rook doesn't have to think even if he could. The manager is supposed to make all the mistakes.

The fact that the managers do all the thinking explains why so many teams battle for last place.

The New York Giants will train in Texas this year. That's a break. Now they have an excuse not to see the Sharkey-Scott affair.

The redeeming feature of the training season is that it forces Art Shires to wear one glove instead of two.

## Attempt To Form Ford Workers Union?

## Police Take Three Speakers Into Custody At Pittsburgh Meeting

(International News Service)

PITTSBURGH, Feb. 19.—Three men were taken into custody by city police today when officials at the Ford Motor company plant telephoned police headquarters that between 300 and 400 men were milling around the plant listening to the men who allegedly were attempting to organize the Ford workers into a union.

Inspector James Hoy confirmed the arrests but refused to divulge the identity of his captives until he "had a talk with them."

When police arrived at the plant they found a regular traffic tie-up in the vicinity which the crowd grouped around the three lecturers who were haranguing the workers on the efficiency of a labor organization.

Employees at the plant went to work at 8 o'clock this morning but worked only 15 minutes, according to spokesmen for the workers who said lack of work left them free until later in the day when they were to return to their work benches.

Most of the employees gathered at a street intersection near the plant where they were addressed by the alleged agitators who promised the men better working conditions, more money and less hours of labor if they would organize.

Arrest of the suspects was featured by jeers and boos on the part of the assembled throng although no attempts were made to interfere.

No charges were placed against the three men, Inspector Hoy instructing the desk sergeant to detain them, without charges, until the inspector questioned the men.

## NEW YORK STOCKS

## Sharp Price Advances In Some Stocks Today

(International News Service)

NEW YORK, Feb. 19.—Strong buying demand for American Tel. and Tel. Westinghouse and other high-priced specialties at the beginning of trading today resulted in further sharp advances in prices. The tone of the market was firm, but reactionary moves were again in order in the oil stocks, the coppers and a few of the rails and specialties. U. S. Steel failed to resume its upward move.

Gulf States Steel's new 7 point spurt to 80 accompanied rumors of persistent buying of the stock by the Cyrus Eaton interests of Cleveland, with a view to tying the company
